Fostering innovation through diversity

Differentiating through innovation lies at the core of our business growth strategy. At Amber, being innovative goes beyond the Research and Development department, as we regard all aspects of our business a part of our integrated innovation framework.

We think diversity is the key driver of innovation which is a critical component of being successful in an ever changing dynamics. To remain at the epitome of our realm we have constantly pushed our limits.

Initiatives of 2018-19

Entered into a Joint PCB Development Agreement with Infineon Technologies Asia Pacific Pte Ltd, Singapore to develop new inverter controller technologies

Developed an inverter controller for an Inverter Air Conditioner. This is a first-ever India-made Inverter Controller, developed jointly by Amber, Iljin and Bi Square (Design House)

Developed a Resin Core motor for use in the making of Indoor Units of room air conditioner

Adopted disruptive innovation approach to develop Window AC with very low power consumption

Implemented Energy Efficient motor (BLDC) in all Inverter AC 5 star models

Developed Energy Efficient ACs, especially 5 Star series in 1.0T and 1.5T Inverter product category

Developed new Indoor Unit series with better energy efficiency and high cooling capacity

Initiated development of VRF and Cassette with R410a and R32 Green refrigerant to bring in better energy efficiency in Commercial AC category

Developed Air-conditioners with R32 and R290 refrigerant, resulting in low Global Warming Potential

Future priorities

- Initiate study on the concept of developing a solar inverter AC
- Explore technology upgradation and capability development in the critical areas of star-rating (energy efficiency)

Our R&D facility is equipped with

- 3-D CAD
- Psychometric lab
- Anechoic sound proof room
- Reliability test room
- PCB on-off test infra

Chairman's Message

Dear Shareholders,

The history of Amber has been shaped by a passion for innovation and growth and a series of pivotal, long-term value creating transactions. This year marked another transformative moment with the acquisition of Sidwal. Our product portfolio today is stronger and more diverse than ever. The acquisition has provided us the opportunities for growth and innovation, while also upgrading our business profile and giving us an exposure to the emerging sectors of the economy.

Performance

Our performance during the year had minor impact from the unseasonal rains, low festive offtake and inventory pile up in the channel. New customer acquisitions helped us reinstate steady numbers. On a consolidated basis the total revenue for FY 2018-19 stood at ₹ 2,75,199 Lakh, as against ₹ 2,12,808 Lakh

in FY 2017-18. Our constant endeavour in strengthening the core, resulted in our revenue from AC growing from ₹ 1,54,043 Lakh in FY 2017-18 to ₹ 1,74,075 Lakh in FY 2018-19. We have seen a strong growth in our AC component's division as well owing to increasing penetration level with our existing customers. The AC components division grew from ₹ 29,993 Lakh in FY 2017-18 to ₹ 41,719 Lakh in FY 2018-19. Our non-AC components division grew from ₹ 28,771 Lakh in FY 2017-18 to ₹ 59,405 Lakh in FY 2018-19.

R&D – the underpinned fundamental

Your Company is committed towards technology driven innovation and lays strong emphasis on inculcating an innovation-driven culture within the organization. Our state-of-the-art R&D department ensures that our end products are of top quality and

design, yet energy-efficient and appropriate for the Indian tropical climate. Besides that, we are constantly focussing on developing cutting edge solutions to improve operating efficiencies. During the year, we entered into a Joint Development Agreement with Singapore-based Infineon to develop new inverter controller technologies. Besides that, we undertook several other measures that strengthened our positioning as a diversified consolidated aggregator.

The befitting synergy

During the year we entered into definitive agreement to acquire 80% equity in Sidwal Refrigeration Industries Private Limited which also includes business of Sidwal Technologies. Sidwal is a quality-focused, system-driven organisation with diversified portfolio in the Heating Ventilation Air conditioning Solutions. It caters to important verticals of Indian Railways, Metros, Bus Air-conditioning, Defence, Telecom and Commercial Refrigeration. It has an established market leadership in supplying over 15,000 and 2,000 heating & ventilation air conditioning units for mainline coaches and metro segments, respectively.

The acquisition offers a compelling strategic fit, bringing in capabilities in accordance with the Company's business needs and the positive long-term impacts. Consider the following synergic benefits that we will leverage through this acquisition:

- It gives us an entry into the product segment which has high-entry barrier of upto 6-7 years. Besides this, setting up a pan-India service network for maintenance of the coaches makes the entry for new player even more challenging. The acquisition will allow us to get these customers on board.
- Sidwal's technical background will allow us to provide more comprehensive solutions to our existing customers for products like commercial air-conditioners, air-handling units and fan coil units.
- It will enable horizontal deployment of certain products of Sidwal to our existing customer base.
- It will further lead to adding a new business vertical in the form of mobile application and commercial application of air-conditioners.
- It will reduce the seasonal dependency of RAC business upto a certain extent.
- With raw materials being common for both the Companies, it will allow us to leverage our procurement capabilities in bringing down the raw material costs.

The funding for the said acquisition will majorly be done from internal accruals and partial debt would be taken on the books of Amber. The integration will allow us to take our business

The history of Amber has been shaped by a passion for innovation and growth and a series of pivotal, long-term value creating transactions

to the next level by emerging as a market leader in mobile and commercial segment of HVAC industry in addition to our existing leadership position in the RAC, room air-conditioners outsourcing segment.

Future optimism

We are confident of maintaining this leadership position with long-standing clientele base, strong order book and annual maintenance contracts. The Government of India has planned to build metro railway system across cities with over 2 million population. With urbanisation and longer summer months, more commuters are preferring air-conditioned travel in trains or busses. As a result, there is an increasing number of air-conditioned passenger coaches in the railways in the recent years. Even the intercity local trains are expected to be converted into air-conditioned coaches in the near future.

Besides we are also witnessing an increased traction in demands of our products owing to increasing custom duty of foreign goods. Besides, strong demand forecast by brands, logistical hassles for imports and changing dynamic conditions of room AC market shall continue to be beneficial for our future endeavours. With the inclusion of Sidwal and an access to future ready technology, we are confident of achieving an industry-beating performance.

Throughout Amber's journey, we have built honest, resilient and mutually beneficial relationships with our stakeholders, whether they are our customers, employees, business partners or shareholders. On behalf of the Board of Directors, I would like to take this opportunity to express our sincere appreciation to each and every one of them for their respective contributions in helping to shape the Amber of today. I am looking forward to an exciting year in 2019 to create more new success stories that will become a part of our company's history.

Best Wishes,

Jasbir Singh

Management Discussion and Analysis Economy Overview

INDIAN ECONOMY

The Indian economy slowed down to 6.8% in 2018-19 as compared to 7.2% in 2017-18. The reason behind deacceleration of the economy was weaker consumer demand and fixed investment. The growth in the first half of 2018 was supported by the continued recovery of investment and robust consumption, on the back of rate cuts by the Reserve Bank of India (RBI). This was an outcome of the need to prioritize growth and the receding of inflation threat. During the first half of the year, a steady decline in inflation was observed as a result of softening of oil prices, which led to sustained decline in food prices.

However, the second half of the year witnessed a slowdown in the growth momentum owing to declining automobile sales, headwinds in the global economy, a weak buyer sentiment, rising fuel prices during mid-year and several pre-election sentiments. Global factors such as sudden surge in crude prices, strengthening the US dollar and US-China trade wars further impacted the performance of Indian economy.

OUTLOOK

India's GDP growth is expected to accelerate moderately to 7.3 % in fiscal year 2019-20 on the back of strong Central Government that has continued for the second term now. It will lead to robust Government spending, further reduction in current account deficit gap, controlled inflation and recovery in consumption. FII inflows will further push the balance of payments into surplus. On the global front, India is less exposed to a slowdown in world manufacturing trade growth than other major Asian economies and emerging markets and is poised to grow at a relatively stable pace over the near term.

INDUSTRY OVERVIEW

Room Air conditioners

The room air conditioner industry in India degrew at -3% as it witnessed several headwinds during 2018, led by the GST transition and change in energy-efficiency ratings and also unprecedented rains in Quarter 1 (peak season). This led to pre-buying as prices rose at the consumer level, further impacting the consumer offtake. However, the demand is expected to recover from a growing number of middle-class households, increasing level of disposable income and higher aspirational levels. Besides, increasing office and retail spaces in the country, along with booming tourism and hospitality sectors and higher rural electrification will further contribute to the healthy growth of the Indian air conditioner (AC) market. Also, due to invertisation, recurring electricity cost on mobility usage reduced due to high energy efficient inverters. All these factors are expected to drive this market to a healthy growth of 15%-18% over the next couple of years.

MANAGEMENT DISCUSSION AND ANALYSIS ECONOMY OVERVIEW (Contd.)

HVAC

The Indian HVAC market is expected to reach \$5.9 billion by 2024, registering a CAGR of 7% during 2014-24 period (Source: globenewswire.com). This market growth can be attributed to the increasing number of high-rise buildings, shopping complexes & malls, and hypermarkets in Tier-II cities. Apart from this, the market is also expected to propel on account of on-going Smart City projects across the country.

The market is witnessing a huge shift towards the reduction of operating costs, increasing energy efficiency.

OUTLOOK

The air conditioner industry has seen a substantial change in the past couple of years. Once considered a luxury, the air conditioners are now perceived as a necessity in Indian households. Given the tropical climate, the soaring temperatures are likely to drive demand for air conditioners in 2019. Inverter AC's will continue to grab bigger share of the market, will drive the larger chunk of volumes by 2020. Thanks to the consumers' energy consciousness, the concepts like inverter technology and smart air conditioners are gradually picking up.

OPPORTUNITIES AND THREATS

Opportunities

The Company believes that high value-added and technology-driven components will provide opportunities to capture shifts in customer preferences as well as evolving regulatory requirements. By providing high value added and innovative products, the Company is considered as a preferred supplier by its customers, thus taking the opportunity to consolidate its position within its space.

Room Air Conditioners:

- India significantly lags other countries in terms of air conditioner penetration levels, thus opening up a large opportunity
- Given the improving macro-economic conditions, air conditioners are now considered as a necessary rather than a luxury item, with many houses even installing multiple air conditioners
- An air conditioner was previously considered as a seasonal product (used mostly during summer months); however, manufacturers have now started offering heating/cooling options so that it can be used throughout the year

- Manufacturers have come up with an increasing range of energy-efficient air conditioners. This addresses the Indian consumers' concerns about high electricity bills.

Inverter Air conditioners:

- The narrowing price gap between fixed and inverter air conditioners, which now stands at only INR 3,000-4,000, will lead to increasing preferences towards this technology
- Free installation and comprehensive 3 to 5-year warranty makes this product a lucrative buy amongst consumers
- Rising electricity prices will further drive the consumers to look for energy-efficient inverter air conditioners

HVAC segment:

Surging infrastructure spending is driving the growth of Indian HVAC market. Infrastructural projects such as ongoing and upcoming airports and metro railway expansion projects across the country will further support this growth. Additionally, rapidly increasing urbanization is leading to the increase in the demand for infrastructural development. This will lead to increase in the sectors like hospitality, real estate and healthcare along with rising offices spaces and education sector, thereby driving HVAC growth in the country. Railways, Metro coaches and Bus air conditioning Mobile application of Air conditioners is also high potential growth areas due to :

- Introduction of longer trains i.e. increasing the number of coaches and coming up with double decker trains
- Introduction of AC Electronic Multiple Unit (EMU)
- Increase in population in the cities paving way for efficient transport system and expansion of metro network
- The Government's plan to set-up the metro railways in all cities having population of more than 2 million

MANAGEMENT DISCUSSION AND ANALYSIS ECONOMY OVERVIEW (Contd.)

THREATS

Downward trend in OEM/ODM Business: Brand's decision to outsource is impacted by its ability and capacity for internal manufacturing and the competitive advantages of outsourcing. So, if the brands of room air conditioners do not continue to outsource the manufacturing of their products or reduce the amount of outsourcing, it could pose a possible threat for the Company.

Changing preferences, advancement in technology: Changes in consumer preferences, regulatory norms, industry requirements or competitive technologies may render certain products less attractive or obsolete. The Company's ability to anticipate changes in technology and regulatory standards and to successfully develop and introduce new and enhanced products to create new or unidentified needs among current and potential customers, is a significant factor to remain competitive.

Client Concentration: The Company's business is largely dependent on certain key customers for a significant portion of its sales. The loss of any one of the key customers or a significant reduction in demand from such customers could have an adverse effect on our business, financial condition, results of operations and prospects.

BUSINESS OVERVIEW

Amber Group is a prominent solution provider for air conditioner OEM/ODM industry in India. It has a dominant presence in Room Air conditioners' complete unit and deals in major Room Air conditioner components with 15 manufacturing facilities across India focusing on different product segments. With expertise in components like heat exchangers, sheet metal components, injection molding components, system tubing, motors and inverter PCB board. Amber is strongly positioned with its backward integration to derive the core deliverables in terms of quality, cost and delivery. Its recent acquisition allows it to diversify into newer segment of HVAC such as Mobile, Transportation and Commercial Refrigeration while adding some good products to its basket. This allows the Company to leverage on its

technology and expertise to maintain its strong hold in the existing as well as new market.

Room Air conditioners

The Company designs and manufactures complete RACs including window air conditioners (WACs) and indoor units (IDUs) and outdoor units (ODUs) of split air conditioners (SACs) with specifications ranging from 0.75 ton to 2 ton, across all energy ratings with various types of refrigerants. It also designs and manufactures Inverter RACs ranging from 1 ton to 2 ton. Any change in import duty structure towards lowering of import duties shall trigger possibility of outsourcing from China. Thus, posing threat to our companies RAC business.

RAC segment contributed ₹ 1,74,075 Lakh in 2018-19, up 13% from ₹ 1,54,043 Lakh in 2017-18.

Room Air conditioner components

The company is a manufacturer of functional components of Room Air conditioners that include heat exchangers, motors and multi-flow condensers and inverter PCB Boards with other components such as sheet metals components, copper tubing and including plastic extrusion, vacuum forming and injection molding components.

AC Components segment contributed ₹ 41,719 Lakh in 2018-19, up 39.1% from ₹ 29,993 Lakh in 2017-18.

Non-Air conditioner components

The company along with ACs also manufactures Non-Air conditioner components like washing machine tubs, Printed Circuit Boards (PCB), case liners for refrigerators, washing machines, microwave oven and extruded sheets for refrigerators and sheet metal parts for various application including automobiles. The Company leverages its ability to innovate and manufacture products providing an edge to diversify into related business verticals.

Non-Air conditioner components segment contributed ₹ 59,405 Lakh in 2018-19, up 106.4% from ₹ 28,771 Lakh in 2017-18.

MANAGEMENT DISCUSSION AND ANALYSIS ECONOMY OVERVIEW (Contd.)

OUR STRENGTHS

Portfolio of components: Our wide range of offerings include Air conditioners and Non- Air conditioners components. We are not just witnessing impetus in our core business but also from our component segments.

Addition in product category: Our recent acquisition has enabled us to include a wide category of products including mobile AC, HVAC etc. We further thrive on expanding our reach and product category to meet our future goals.

Acquisition: The acquisition of Sidwal has been beneficial to us as we entered into new business verticals of Railways, Bus AC, Defence, Department of Telecom & Defense.

Backward integration: Our business is highly dependent on the technical aspects of the end product. For this, a well-developed technological robustness will help in over-coming new developments in the industry. Our strong R&D capabilities coupled with the profile of IL Jin and EVER Electronics provide us significant expertise which we can leverage to develop new technologies.

Our wide geographical spread with 15 plants and manufacturing facilities in vicinity of customer clusters.

RISKS AND CONCERNS

The assumption of risk is inherent in all businesses. The Company recognizes this in its mission of creating a sustainable value for all its stakeholders. Cognizance is therefore taken of risks in both, strategic and operational activities which are proportionate with the returns that are expected. The Company has the responsibility to evaluate and manage the risk in such a way that it will promote the underlying quality and sustainability of the business for the benefit of all.

MANAGEMENT DISCUSSION AND ANALYSIS ECONOMY OVERVIEW (Contd.)

High dependency on few customers: A majority of the Company's revenue is derived from its top ten customers. Since the Company is largely dependent on certain key customers for a significant portion of its sales, the loss of any one of key customers or a significant reduction in demand from such customers could have a material adverse effect on business, financial condition, results of operations and prospects.

Mitigation: To mitigate this risk, the Company keeps providing its existing customers with diversified product portfolio. It provides solution according to the customer needs. Quality standards are been checked regularly. The Company has its plants strategically located which helps them in timely deliveries. Also, the Company maintains strong relationship with the clients which helps in retaining its position in the market.

Slowdown in RAC industry & Seasonality in business: The Company's business depends on market trends and performance of the RAC sectors. Sales of Air conditioners and Air conditioner components are also highly dependent on summer due to heat and warm weather and are lower during monsoons and winter. Also, economic conditions as well as regulatory requirements and Government initiatives affect the markets.

Mitigation: The Company is dependent on RAC sector and the seasons. With the help of advancement in technology, the Company has found its product application in different industries as well. It has planned to enter into manufacturing of commercial Air conditioners and industrial refrigeration. This diversification in different segment of the industry will help the Company safeguard itself. Also, Non-air conditioner components are being focused to mitigate this risk.

Inability to identify and understand evolving industry trends: The RAC market in India is differentiated by technological advancements, introduction of innovative products, price fluctuations and intense competition. It is often seen that consumer preferences and regulatory or industry requirements change. Failure to adhering such things and norms in the product can make the product un-attractive to the customers.

Mitigation: The Company has the ability to anticipate changes in technology due to its strong R&D and also adheres to the regulatory standards so that it successfully develops and introduces new and enhanced products for its customers. The company has the ability to identify the un-identified needs of their customers and to provide them with the customized solution which helps them in remaining competitive in the market.

Commodity price risk or Foreign Exchange Risk and Hedging Activities:

The fluctuation in foreign currency exchange rates may have a potential impact on the statement of profit and

loss and equity. Any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. Further, any weakening of the functional currency may impact the Company's cost of imports, cost of borrowings and consequently may increase the cost of financing the Company's capital expenditures. The Company has an exposure of commodity price risk and foreign exchange risk denominated in USD for exports and imports.

Mitigation: The Company as per its risk management policy, uses foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. The Company uses various instruments as approved under the central bank regulations to hedge these exposures.

HUMAN RESOURCES

Employees are the key assets that have driven Amber over the years. In order to maintain their high spirits, the Company ensures encouraging, nurturing and appreciative environment for the employees. The Company regularly trains them for skill development and motivates them to focus on achieving the Company's goals and objectives. The collaborative spirit across all sections of employees has resulted in significant enhancement in quality and productivity. Apart from that, the Company also undertakes initiatives to increase the productivity through technology to make them grow. The Company also follows stringent guidelines with respect to human resources.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Towards ensuring adherence to and adequacy of all Internal Control Systems, the Company utilizes the services of an external firm of auditors to evaluate their efficacy and considers their suggestions on improvements. Their findings are reviewed consistently by the Audit Committee constituted by the Board of Directors. A Whistle Blower Policy is also implemented to further ensure vigilance and guard against any inopportune development.

CAUTIONARY STATEMENT

The Statement in this Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include demand-supply conditions, changes in Government and international regulations, tax regimes, economic developments within and outside India and other factors such as litigation and labour relations.

DIVIDEND DISTRIBUTION POLICY

1. PREAMBLE

Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016 (the **"Regulations"**) mandated top five hundred listed companies (based on market capitalisation of every financial year) to formulate a Dividend Distribution Policy, which shall be disclosed in its Annual Report and on its website.

The policy, in the interest of providing transparency to the shareholders, sets out the circumstances and different factors for consideration by the Board at the time of deciding on distribution or of retention of profits. In view of the said requirement, the Board of Directors of the Company recognizes the need to lay down a broad framework with regard to the distribution of dividend to its shareholders and utilisation of the retained earnings. The Policy reflects the intent of the Company to reward its shareholders by distributing a portion of its profits after retaining sufficient funds for the business needs and growth of the Company.

The Company would ensure to strike the right balance between the quantum of the dividend paid and amount of profits retained in the business for various purposes. The Board of Directors will have regards to this policy while declaring/recommending dividends on the behalf of the Company. Through this policy, the Company would strive to maintain a consistent approach to dividend pay-out plans.

The Board of Directors (the **"Board"**) of Amber Enterprises India Limited (the **"Company"**) at its meeting held on 8 February 2019 has adopted this Dividend Distribution Policy (the **"Policy"**), pursuant to the terms of Regulation 43A of the SEBI (LODR) Regulations, 2015 read with SEBI (LODR) (Second Amendment), 2016. The policy shall become effective from the date of its approval by the Board i.e. 8 February 2019.

2. DEFINITIONS

2.1 "Board" shall mean Board of Directors of the Company;

2.2 "Companies Act" shall mean the Companies Act, 2013 and Rules thereunder, notified by the Ministry of Corporate Affairs, Government of India, as amended;

2.3 "Dividend" includes any interim dividend;

2.4 "Listed Entity / Company" shall mean Amber Enterprises India Limited;

2.5 "Policy" means Dividend Distribution Policy;

2.6 "Stock Exchange" shall mean a recognised Stock Exchange as defined under clause (f) of Section 2 of the Securities Contracts (regulation) Act, 1956.

3. POLICY

A. PARAMETERS AND FACTORS FOR DECLARATION OF DIVIDEND

The dividend pay-out decision of the Board depends upon the following financial parameters, internal and external factors :

Financial parameters and Internal Factors:

- › Operating cash flow of the Company;
- › Profit earned during the year;
- › Profit available for distribution;
- › Earnings Per Share ("EPS");
- › Working capital requirements;
- › Capital expenditure requirements;
- › Business expansion and growth;
- › Likelihood of crystallisation of contingent liabilities, if any;
- › Additional investment in subsidiaries and associates of the Company;
- › Up gradation of technology and physical infrastructure;
- › Creation of contingency fund;
- › Acquisition of brands and business;
- › Cost of Borrowings;
- › Need for conservation of cash due to economic downturn;
- › Past dividend payout ratio / trends;

External Factors:

- › Economic environment;
- › Government regulations;
- › Capital markets;
- › Global conditions;
- › Statutory provisions and guidelines;
- › Dividend payout ratio of competitors;

B. CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS OF THE COMPANY MAY OR MAY NOT EXPECT DIVIDEND

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders of the Company and the amount of profit to be retained in business. The decision seeks to balance the dual objectives of appropriately

ANNEXURE - A (Contd.)

rewarding shareholders through dividends and retaining profits in order to maintain a healthy capital adequacy ratio to support future growth. The shareholders of the Company may not expect dividend in the following circumstances, subject to discretion of the Board of Directors :

- ▶ Proposed expansion plans requiring higher capital allocation;
- ▶ Decision to undertake any acquisitions, amalgamation, merger, joint ventures, new product launches etc. which requires significant capital outflow;
- ▶ Requirement of higher working capital for the purpose of business of the Company;
- ▶ Proposal for buy-back of securities;
- ▶ In the event of loss or inadequacy of profit;

C. UTILISATION OF THE RETAINED EARNING

The Board may retain its earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run. The decision of utilisation of the retained earnings of the Company shall be based on the following factors:

- ▶ Market expansion plan;
- ▶ Product expansion plan;
- ▶ Increase in production capacity;
- ▶ Modernisation plan;
- ▶ Diversification of business;
- ▶ Long term strategic plans;
- ▶ Replacement of capital assets;
- ▶ Where the cost of debt is expensive;
- ▶ Dividend payment ;
- ▶ Such other criteria's as the Board may deem fit from time to time.

D. Rate/ Quantum of Dividend:

It has always been the Company's endeavour to deliver sustainable value to all its stakeholders. The Company will strive to distribute an optimal and appropriate level of the profits earned by it in its business, to the shareholders, in the form of dividend. The Company would maintain a dividend pay-out as may be determined by the Board from time to time, considering the general business factors and other significant parameters specified in this policy.

E. MANNER OF DIVIDEND PAYOUT

In case of final dividend:

- i. Recommendation, if any, shall be done by the Board, usually in the Board meeting that considers and approves the annual financial statements, subject to approval of the shareholders of the Company.
- ii. The dividend as recommended by the Board shall be approved/declared at the Annual General Meeting of the Company.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration, to those shareholders who are entitled to receive the dividend on the record date/book closure period, as per the applicable law.

In case of interim dividend:

- i. Interim dividend, if any, shall be declared by the Board.
- ii. Before declaring interim dividend, the Board shall consider the financial position of the Company that allows the payment of such dividend.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration to the shareholders entitled to receive the dividend on the record date, as per the applicable laws.
- iv. In case no final dividend is declared, interim dividend paid during the year, if any, will be regarded as final dividend in the Annual General Meeting.

F. PARAMETERS TO BE ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES

Since the Company has issued only one class of equity shares with equal voting rights, all the members of the Company are entitled to receive the same amount of dividend per share. Parameters for dividend payments in respect of any other class of shares will be as per the respective terms of issue and in accordance with the applicable regulations and will be determined, if and when the Company decides to issue any other classes of shares.

4. THE POLICY SHALL NOT APPLY TO :

- ▶ Determination and declaration of dividend on preference shares, as and when issued by the Company, as the same will be as per the terms of issue approved by the shareholders;

ANNEXURE - A (Contd.)

- ▶ Distribution of dividend in kind, for instance- by issue of fully or partly paid bonus shares or other securities, subject to applicable law;
- ▶ Distribution of cash as an alternative to payment of dividend by way of Buyback of Securities.

5. CONFLICT IN POLICY

In the event of any conflict between this Policy and the provisions contained in the regulations, the regulations shall prevail.

6. DISCLOSURES

The Dividend Distribution Policy shall be disclosed in the Annual Report and on the website of the Company i.e. www.ambergrouppindia.com

7. POLICY REVIEW AND AMENDMENTS

This Policy would be subject to modification in accordance with the guidelines / clarifications as may be issued from time to time by relevant statutory and regulatory authority. The Board may modify, add, delete or amend any of the provisions of this Policy. Any exceptions to the Dividend Distribution Policy must be consistent with the Regulations and must be approved in the manner as may be decided by the Board of Directors.

V. SUBSIDIARY COMPANIES

Regulation 16 of the SEBI (LODR) Regulations defines a "material subsidiary" to mean a Subsidiary, whose income or net worth exceeds ten percent of the consolidated income or net worth respectively, of the listed entity and its Subsidiaries in the immediately preceding accounting year.

On 12 July 2018, Company has disclosed and intimated to the Stock Exchanges that PICL (India) Private Limited ("PICL"), the Wholly Owned Subsidiary is no more an unlisted material Subsidiary as PICL is not meeting the threshold as mentioned in clause (c) of sub-regulation 1 of Regulation 16 of SEBI (LODR) Regulations.

On 1 October 2018, Your Company by securing the right to appoint majority of Directors on the Board

of EVER Electronics Private Limited ("EVER") vide Letter Agreement became the Subsidiary in terms of section 2 (87) of the Act and holds 19% stake of equity paid up share capital. In view of this, EVER became a Subsidiary of your Company.

As on 31 March 2019, Your Company has two Wholly Owned Subsidiaries i.e PICL (India) Private Limited, Appserve Appliance Private Limited and two Subsidiaries i.e. IL JIN Electronics (India) Private Limited and Ever Electronics Private Limited, whose turnover does not exceed the limit prescribed under the SEBI (LODR) Regulations. Thus, these Subsidiaries are out of the scope of the above definition.

The Subsidiaries of the Company function independently, with an adequately empowered Board of Directors and adequate resources. For more effective governance, the minutes of Board meetings of Subsidiaries of the Company are placed before the Board of Directors of the Company for their review at every quarterly meeting.

The other requirement of Regulation 24 of the SEBI (LODR) Regulations with regard to Corporate Governance requirements for Subsidiary companies have been complied with.

Amber Enterprises India Limited

Compliance Certificate from Practicing Company Secretary Regarding Compliance of Conditions of Corporate Governance under SEBI Listing Regulations

We have examined the compliance of conditions of Corporate Governance by Amber Enterprises India Limited ("the Company"), for the financial year ended 31 March 2019 as stipulated under Regulations 17 to 27 and clauses (b) to (i) of Regulation 46(2) and Para C, D and E of Schedule V to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("SEBI (LODR) Regulations").

The compliance of conditions of Corporate Governance is the responsibility of the management of the Company. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance.

It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has substantially complied with the conditions of Corporate Governance as stipulated under Regulations 17 to 27 and clauses (b) to (i) of Regulation 46(2) and Para C, D and E of Schedule V to the SEBI (LODR) Regulations, the compliances of which needs to be further strengthened.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Independent Auditor's Report

To the Members of Amber Enterprises India Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

1. We have audited the accompanying standalone financial statements of Amber Enterprises India Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2019, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

BASIS OF OPINION

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report:

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
<p>Impairment assessment of investments in subsidiary companies</p> <p>As described in Note 9 to the standalone financial statements, as at 31 March 2019, the Company has investments aggregating INR 5,230.32 Lakh in its wholly owned subsidiary companies, PICL India Private Limited ("PICL") and Appserve Appliance Private Limited ("Appserve"). The subsidiaries have been incurring losses, resulting in possible impairment indicators.</p> <p>In view of the above, the management of the Company, during the year ended 31 March 2019, has carried out an impairment test for such investments, whereby the carrying amount of investments were compared with their fair values for which the management has prepared detailed cash flow projections, based on business plans of the subsidiary companies, expected growth rates in the business and other market related factors including the discount rates, etc.</p> <p>While the above impairment test resulted in no impairment required to be recognized in the carrying value of investment in PICL, an impairment provision to the extent of the net carrying value of the investment in Appserve aggregating INR 170 Lakh has been recognised as at 31 March 2019.</p> <p>Considering the materiality of the amounts involved, significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of such non-current investments as a key audit matter.</p>	<p>Our audit procedures included, but were not limited to the following:</p> <ul style="list-style-type: none"> a) We obtained an understanding of the management process for identification of possible impairment indicators and process performed by the management for impairment tests performed. b) We understood, evaluated and tested controls around management's assessment of the impairment indicators and the impairment tests performed. c) We reconciled the cash flow projections to the business plans approved by the Company's board of directors; d) We discussed management's underlying assumptions used for the cash flow projections including the expected growth rates and considered evidence available to support these assumptions in light of our understanding of the business; e) We assessed the reasonableness of the assumptions used and appropriateness of the valuation methodology applied. We tested the discount rates and long-term growth rates used in the forecast vis-a-vis industry forecasts where deemed appropriate; f) We involved valuation experts to assess the appropriateness of the valuation model used by the management and the assumptions used relating to discount rates, risk premium, industry growth rates, etc., to assess their reasonability; g) We evaluated the sensitivity analysis performed by management in respect of the key assumptions such as discount and growth rates to assess the estimation uncertainty impact of such assumptions on the calculations; h) We assessed the appropriateness and adequacy of the disclosures made by the management for the impairment losses recognized in accordance with applicable accounting standards.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
<p>Product Development - Intangible assets</p> <p>As disclosed in note 7 (iii) and note 8 (iii) to the standalone financial statements, the Company develops various product models and performs trial runs for enhancing the performance and increasing the efficiency of the products. The Company has a research and development department which oversees such development process and conducts trial runs. The Company has capitalised INR 2,056.89 lakh during the year ended 31 March 2019 under product development and Intangible assets under development which comprises of raw material cost (net of scrap sales) and certain attributable overheads. The Company capitalises the product models when they are ready for sale in the active market.</p> <p>Such developmental activities represent a significant part of the business and the Company uses judgement to determine classification of expenditure into research and development phase wherein, as per the applicable accounting guidance, expenditure incurred on research activities is required to be recognised in the statement of profit and loss and development costs may be capitalised, subject to specific conditions. Such assessment includes assessing whether the product being developed is commercially feasible, whether the Company has adequate technical, financial and other required resources to complete the development and whether the costs will be fully recovered through future sale of the product.</p> <p>Considering the materiality of the amounts, significant judgement involved in determining the appropriate quantum of development expenses to be capitalised, including those incurred on trial runs, this matter has been considered as a key audit matter for the current year audit.</p>	<p>Our audit work included, but was not restricted to performing the following procedures:</p> <p>a) We obtained an understanding of management's process for assessing costs forming part of research and development activities and whether such costs meet recognition criteria in terms with Indian Accounting Standard 38, Intangible Assets;</p> <p>b) We assessed the design and implementation of controls in respect of expenses incurred for trial runs, in addition to testing the effectiveness of key controls operating across the business.</p> <p>c) We obtained a schedule of all the costs capitalized by the Company and on test-check basis, verified that the cost of only those raw materials, that have been used for the purpose of development activities and trial runs, were capitalized, as applicable.</p> <p>d) We also assessed the reasonableness of overheads allocated along with consumption of raw material.</p> <p>e) We further evaluated the commercial viability of the product by considering other information obtained during the audit, including products being developed in previous years, the stage of related sales prospects and, where appropriate, the level of sales generated to determine whether the status and performance of developed products corroborated management's assertions over the technical feasibility and the ability to generate 'probable' future economic benefits.</p> <p>f) We also confirmed if the carrying value of these intangibles under development will be recovered by the Company and there are no impairment indicators for these assets. For this assessment, we obtained the product details which are being currently developed by the Company and discussed the same with the management, including research and development personnel. We also reviewed the product assessment in reference to developed products which were capitalized in the earlier years and being currently sold by the Company.</p> <p>g) We have evaluated the adequacy of disclosures made by the Company in the financial statements in view of the requirements as specified in the Indian Accounting Standards.</p>

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially

INDEPENDENT AUDITOR'S REPORT (Contd.)

inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that

an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies

INDEPENDENT AUDITOR'S REPORT (Contd.)

in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. As required by section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
17. Further to our comments in Annexure I, as required by section 143(3) of the Act, we report that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
- d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
- e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of section 164(2) of the Act;
- f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 24 May 2019 as per Annexure II expressed unmodified opinion; and
- g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 43 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2019;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2019;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2019; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure II to the Independent Auditor's Report of even date to the members of Amber Enterprises India Limited on the standalone financial statements for the year ended 31 March 2019

Annexure II

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act').

1. In conjunction with our audit of the Standalone financial statements of Amber Enterprises India Limited (the Company) as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Company as at that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Guidance Note and Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

ANNEXURE II (Contd.)

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2019, based on the internal control over Financial Reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note issued by the ICAI.

Summary OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019

1. CORPORATE INFORMATION AND STATEMENT OF COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (IND AS)

Amber Enterprises India Limited (the "Company") incorporated in 1990, under the Companies Act 1956, is engaged in the business of manufacturing a versatile range of products i.e. Air conditioners, microwave ovens, washing machines, refrigerators, heat exchangers, sheet metal components etc. Currently, the Company has nine manufacturing facilities in India out of which two manufacturing facilities are operating in tax exemption zone.

These standalone financial statements ('financial statements') of the Company have been prepared to comply in all material respects with accounting principles generally accepted in India, including Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Companies Act, 2013 (the "Act"), as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2019 were authorized and approved for issue by the Board of Directors on 24 May 2019. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared on accrual and going concern basis under historical cost convention except for certain financial instruments and plan assets, which are measured at fair values. The accounting policies are applied consistently to all the periods presented in the financial statements.

The significant accounting policies and measurement bases have been summarised below.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and as per terms of agreements wherever applicable. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

b. Revenue recognition

Sale of goods

Revenue arises mainly from the sale of goods. To determine whether to recognise revenue, the Company follows a 5-step process:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations
- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognising revenue when/as performance obligation(s) are satisfied.

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both. Revenue is measured at fair value of consideration received or receivable, after deduction of any trade discounts, volume rebates.

Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers. A receivable is recognised when the goods are delivered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

REVENUE FROM TOOL DEVELOPMENT AND JOB CHARGES

Revenue in respect of tool development and job charges is recognised as per the terms of the contract with the customers.

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR) i.e. the rate that exactly discounts estimated future

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets. The future cash flows include all other transaction costs paid or received, premiums or discounts if any, etc.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

c. Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on first in, first out basis.
- Stores and spares, consumables and packing materials cost includes direct expenses and is determined on the basis of first in first out method.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

d. Income taxes

Tax expense recognised in the statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Current tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (i.e. in OCI or equity depending upon the treatment of underlying item).

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent

that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside statement of profit and loss (in OCI or equity depending upon the treatment of underlying item).

e. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f. Foreign currency transactions

The financial statements are presented in Indian Rupee ('INR' or 'Rs.') which is also the functional currency of the Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other income/expenses, as the case maybe.

g. Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

Non-derivative financial assets

Subsequent measurement

- i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost, if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- ii. Investments in equity instruments – The Company subsequently measures all equity investments (other than subsidiaries) at fair value (either through profit or loss or through other comprehensive income). Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables: In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime

expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets: In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

De-recognition of financial assets

A financial asset is primarily de-recognised when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Derivative financial instruments

Initial and subsequent measurement

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

i. Investments in subsidiaries

The Company has measured for its investment in subsidiaries at cost in its financial statements in accordance with Ind AS- 27, Separate Financial Statements. Profit/loss on sale of investments is recognised on the date of sale and is computed with reference to the original cost of the investment sold.

j. Property, plant and equipment ('PPE')

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and definition of asset is met. All other repair and maintenance

costs are recognised in the statement of profit or loss as incurred.

In case an item of property, plant and equipment is acquired on deferred payment basis, interest expenses included in deferred payment is recognised as interest expense and not included in cost of asset.

Subsequent measurement (depreciation and useful lives)

Depreciation on fixed assets is provided on straight line method based on life prescribed as per Schedule II of the Companies Act, 2013.

Block of asset	Useful life as per Companies Act, 2013 (in years)
Building	30
Plant and machinery	15
Computer	3
Furniture and fixture	10
Office equipment	5
Vehicles	8 – 10
Leasehold land	Lease term

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

k. Intangible assets

Recognition, initial measurement and subsequent measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually.

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

	Useful life (in years)
Computer softwares	6
Development costs	7

I. Capital work-in progress

Cost of material consumed and erection charges thereon along with other direct cost incurred by the Company for the projects are shown as capital work-in-progress until capitalisation.

m. Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is higher of an asset's fair value less costs of disposal

and value in use. For this purpose, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

n. Leases

As a lessee

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease, unless the increase in rent is to compensate the lessor for the effects of inflation.

o. Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

period in which they are incurred and reported in finance costs.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption.

p. Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises when there is a presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is disclosed for:

- ☛ Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ☛ Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

q. Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

r. Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19- Employee Benefits.

Defined benefit plans

Gratuity

The Company operates one defined benefit plan for its employees, viz. gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method. Actuarial gain and loss for the defined benefit plan is recognized in full in the period in which they occur in other comprehensive income.

Other long term benefits

Accumulated leave expected to be carried forward beyond twelve months, is treated as long term employee benefit. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit.

Liability under continuity linked key resource and deferred salary schemes is provided for on actuarial valuation basis, which is done as per the projected unit credit method at the end of each financial period.

Defined contribution plans

Provident Fund

The Company makes contribution to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which services are rendered by the employee.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

s. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting done to the chief operating decision maker. The Company operates in a single operating segment and geographical segment

3. RECENT ACCOUNTING PRONOUNCEMENT

Ind AS 116 'Leases'

On 30 March 2019, Ministry of Corporate Affairs ('MCA') has clarified that Ind AS 116 is effective for annual periods beginning on or after 1 April 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets and short-term leases (i.e., leases with a lease term

of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

Amendment to Ind AS 12, Income taxes

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified Appendix C to Ind-AS 12 Income taxes – "Uncertainty over Income Tax Treatments". The amendment to Ind AS 12 requires the entities to consider recognition and measurement requirements when there is uncertainty over income tax treatments. In such a circumstance, an entity shall recognise and measure its current or deferred tax asset or liability accordingly. The effective date of amendment is 1 April 2019. Further, there has been amendments in relevant paragraphs in Ind-AS 12 "Income Taxes" which clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events in accordance with Ind-AS 109. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 19, Employee benefits

The amendment to Ind AS 19 requires the entities to determine current service cost using actuarial assumptions and net interest using discount rate determined at the start of the annual reporting period. However, if an entity re-measures the net defined benefit liability (asset) as per the requirement of the standard, it shall determine current service cost and net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement using the actuarial assumptions used to re-measure the net defined benefit liability (asset). The effective date of amendment is 1 April 2019. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 23, Borrowing costs

On 30 March 2019, Ministry of Corporate Affairs ("MCA") issued an amendment to Ind-AS 23 "Borrowing Costs" clarifies that if any specific

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalization rate on general borrowings. This amendment is effective for annual periods beginning on or after 1 April 2019. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

When preparing the financial statements management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant judgements:

(i) **Evaluation of indicators for impairment of non-financial assets**

The evaluation of applicability of indicators of impairment of non-financial assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(ii) **Recognition of deferred tax assets**

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised. The recognition of deferred tax assets and reversal thereof is also dependent upon management decision relating to timing of availment of tax holiday benefits available under the Income Tax Act, 1961 which in turn is based on estimates of future taxable profits.

(iii) **Contingent liabilities**

The Company is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Company often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Sources of estimation uncertainty:

(i) **Provisions**

At each balance sheet date, basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from management's estimates.

(ii) **Fair valuation of financial instruments**

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

(iii) **Recoverability of advances/receivables**

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

The Company obtains independent valuations for its investment property. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from a variety of sources such as current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.

These valuations are based on valuations performed by accredited independent valuer. Fair Value is based on market value approach. The fair value measurement is categorised in Level 3 of fair value hierarchy. There has been no restriction on disposal of property or remittance of income and proceeds of disposal.

***** The Payment of Bonus (Amendment) Act, 2015 dated 31 December 2015 (which was made effective from 01 April 2014) revised the thresholds for coverage of employee eligible for Bonus and also enhanced the ceiling limits for computation of bonus. However, taking cognizance of the stay granted by various High Courts, the Company has not recognised any differential amount of bonus for the period 01 April 2014 to 31 March 2015 and accordingly has recognised the expense as per the amended provisions w.e.f. 1 April 2015 and onwards.

The Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

The above sensitivity analysis is based on a change an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous year

50. FAIR VALUE DISCLOSURES

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are divided into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Financial assets measured at fair value - recurring fair value measurements

The following table shows the levels within the hierarchy of financial liabilities measured at fair value on a recurring basis.

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Level	31 March 2019	31 March 2018	Valuation technique
Financial liabilities

Total financial liabilities		10,984.12	10,984.12	1,998.95	1,998.95

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables, short term borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate receivables are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors.
- (ii) The fair values of the Company's loans and receivables are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non performance risk as at 31 March 2019 was assessed to be insignificant.
- (iii) All the other long term borrowing facilities availed by the Company are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

*Investments in subsidiaries, associate and joint venture are carried at cost as per Ind AS 27 – Separate financial statements and therefore, not presented here.

ii) Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term and short-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors

The Company's risk management is carried out by a central treasury department (of the Company) under policies approved by the board of directors. The board of directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the company. The company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The company's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans and receivables carried at amortised cost, and
- deposits with banks

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

(All amounts in INR in Lakh unless otherwise stated)

Credit rating	Particulars	31 March 2019	31 March 2018
A: Low	Loans	2,288.81	1,824.32
	Investments	11,116.46	11,194.31
	Other financial assets	4,825.30	1,664.24
	Cash and cash equivalents	3,772.09	10,688.44
	Other bank balances	440.24	1,361.76
	Trade receivables	73,193.35	33,582.96
C: High	Trade receivables	30.95	30.95

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses

Trade receivables

- (i) The Company recognises lifetime expected credit losses on trade receivables using a simplified approach and uses historical information to arrive at loss percentage relevant to each category of trade receivables.
- (ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

(All amounts in INR in Lakh unless otherwise stated)

Loss allowance on 31 March 2018	30.95
Add (Less): Changes in loss allowances due to bad debts	-
Loss allowance on 31 March 2019	30.95

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Other financial assets measured at amortised cost

The Company provides for expected credit losses on loans and advances by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

a) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(All amounts in INR in Lakh unless otherwise stated)

	31 March 2019	31 March 2018

* Holding all other variables constant

b) Interest rate risk

- i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2019, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Company's investments in fixed deposits, all pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

(All amounts in INR in Lakh unless otherwise stated)

Interest rates – increase by 100 bps (31 March 2018 100 bps)*	(109.44)	(30.66)

* Holding all other variables constant

ii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

The Company does not have any significant investments in equity instruments which create an exposure to price risk.

52. CAPITAL MANAGEMENT

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

55. SEGMENT INFORMATION

The Company is engaged in manufacture of consumer durable products and its components. Basis the nature of Company's business and operations, the Company has one operating segment i.e. "manufacture of consumer durable products and its components" for which information is reviewed by the Chief Operating Decision Maker (CODM) to allocate resources and assess performance. Hence, the Company has only one reportable segment as per the requirements of Ind AS 108 – 'Operating Segments'. Majority of the revenue is derived from one geography and five external customers amounting to INR 146,761.08 Lakh (31 March 2018: INR 118,904.49 Lakh from four external customers).

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

56. REVENUE FROM CONTRACTS WITH CUSTOMERS

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

The Company has adopted the standard on 1 April 2018 on a modified retrospective basis with a cumulative catch-up adjustment booked to retained earnings as at 1 April 2018 as if the standard had always been in effect. The standard is applied only to contracts that are not completed as at 1 April 2018. Comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The adoption of the new standard did not result in any material adjustments to the Company's net income.

(a) Disaggregation of revenue

The Company has performed a disaggregated analysis of revenues considering the nature, amount, timing and uncertainty of revenues. This includes disclosure of revenues by geography and timing of recognition.

Revenue from operations	Products	Other operating revenue*	Total
Revenue by geography			
Domestic	2,12,863.00	5,455.30	2,18,318.30
Export	521.37	-	521.37

Revenue recognised at point in time			2,18,839.67
Revenue recognised over time			-
Total			2,18,839.67

* Scrap sales, Budgetary support under GST regime and job-work charges have been included in domestic revenue

(b) Revenue recognised in relation to contract liabilities

Ind AS 115 also requires disclosure of 'revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period' and 'revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods. Same has been disclosed as below:

(All amounts in INR in Lakh unless otherwise stated)

(d) Reconciliation of revenue recognised in Statement of Profit and Loss with Contract price

(All amounts in INR in Lakh unless otherwise stated)

Description	Year ended 31 March 2019
Contract price	2,19,185.23
Less: Discount, rebates, credits etc.	(345.56)
Revenue from operations as per Statement of Profit and Loss	2,18,839.67

57 As per the transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961, the Company is required to use certain specific methods in computing arm's length prices of transactions with associated enterprises and maintain adequate documentation in this respect. Since law requires existence of such information and documentation to be contemporaneous in nature, the Company has appointed independent consultants for conducting a Transfer Pricing Study (the 'Study') to confirm that the transactions with associate enterprises undertaken during the financial year are on an "arms length basis" and such study is in progress. Management is of the opinion that the Company's transactions are at arm's length and that the results of the proposed study will not have any impact on the financial statements and that they do not expect any transfer pricing adjustments.

Independent Auditor's Report

To the Members of Amber Enterprises India Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

1. We have audited the accompanying consolidated financial statements of Amber Enterprises India Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs (consolidated financial position) of the Group, as at 31 March 2019, and its consolidated profit (consolidated financial performance including

other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

4. Key audit matters are those matters that, in our professional judgment were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT (Contd.)

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
<p>Carrying value of Goodwill and other intangible assets</p> <p>As described in Note 6 to the consolidated financial statements, the group has a carrying value of Rs 6,689.91 Lakh of goodwill, and Rs 9,149.55 Lakh of other intangible assets (including intangible assets arising out of certain business combinations).</p> <p>In terms with Indian Accounting Standard 36, Impairment of Assets, the management has carried out an impairment analysis which contained certain significant judgements and estimates including forecasting revenue growth, success of new products, margins and discount rate which form the basis of the such assessments. Changes in these assumptions could lead to an impairment to the carrying value of goodwill.</p> <p>The above impairment test resulted in no impairment required to be recognized for the carrying value of goodwill and other intangible assets.</p> <p>Considering the materiality of the amount involved and significant degree of judgement and subjectivity involved in the estimates and assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of such goodwill and other intangible assets (including intangible assets arising from the business combinations) as a key audit matter.</p>	<p>Our audit work included, but was not restricted to performing the following procedures:</p> <ul style="list-style-type: none"> a) We reviewed management's process and controls on identification of indicators of impairment of goodwill under the Indian Accounting Standards framework; b) We understood, evaluated and tested controls around management's assessment of the impairment indicators and the impairment tests performed. c) We obtained the impairment analysis carried out by the management and reviewed the valuation report prepared by an independent valuer and examined the reasonableness of key assumptions, including the profit and cash flow growth or decline, terminal values, potential product obsolescence and the selection of discount rates. d) We assessed the professional competence, objectivity and capabilities of the third party expert considered by the management for performing the required valuations to estimate the recoverable value of the goodwill; e) We reconciled the cash flow projections to the business plans approved by the Company's board of directors; f) We discussed management's underlying assumptions used for the cash flow projections including the expected growth rates and considered the evidence available to support these assumptions in light of our understanding of the business, g) We assessed the reasonableness of the assumptions used and appropriateness of the valuation methodology applied. We tested the discount rates and long-term growth rates used in the forecast vis-a-vis industry forecasts where deemed appropriate; h) We involved valuation experts to assess the appropriateness of the valuation model used by the management and the assumptions used relating to discount rates, risk premium, industry growth rates, etc., to assess their reasonability; i) We evaluated the sensitivity analysis performed by management in respect of the key assumptions such as discount and growth rates to assess the estimation uncertainty impact of such assumptions on the calculations; j) We assessed the appropriateness and adequacy of disclosures made by the management in the financial statements in view of the requirements as specified in the Indian Accounting Standards.

INDEPENDENT AUDITOR'S REPORT (Contd.)**Product development - Intangible assets**

As disclosed in note 6 (iii) and 7 (iii) to the consolidated financial statements, the Group develops various product models and performs trial runs for enhancing the performance and increasing the efficiency of the products. The Company has a research and development department which oversees such development process and conducts trial runs. The Group has capitalised INR 2,542.74 lakh during the year ended 31 March 2019 under product development and Intangible assets under development which comprises of raw material cost (net of scrap sales) and certain attributable overheads. The Company capitalises the product models when they are ready for sale in the active market.

Such developmental activities represent a significant part of the business and the Group uses judgement to determine classification of expenditure into research and development phase wherein, as per the applicable accounting guidance, expenditure incurred on research activities is to be charged off and development costs may be capitalised, subject to specific conditions. Such assessment includes assessing whether the product being developed is commercially feasible, whether the Group has adequate technical, financial and other required resources to complete the development and whether the costs will be fully recovered through future sale of the product.

Considering the materiality of the amounts, significant judgement involved in determining the appropriate quantum of development expenses to be capitalised, including those incurred on trial runs, this matter has been considered as a key audit matter for the current year audit.

Our audit work included, but was not restricted to performing the following procedures:

- a) We obtained an understanding of management's process for assessing costs forming part of research and development activities and whether such costs meet recognition criteria in terms with Indian Accounting Standard 38, Intangible Assets;
- b) We assessed the design and implementation of controls in respect of expenses incurred for trial runs, in addition to testing the effectiveness of key controls operating across the business.
- c) We obtained a schedule of all the costs capitalized by the Group and on test-check basis, verified that the cost of only those raw materials, that have been used for the purpose of development activities and trial runs, were capitalized, as applicable.
- d) We also assessed the reasonableness of overheads allocated along with consumption of raw material.
- e) We further evaluated the commercial viability of the product by considering other information obtained during the audit, including products being developed in previous years, the stage of related sales prospects and, where appropriate, the level of sales generated, to determine whether the status and performance of developed products corroborated management's assertions over the technical feasibility and the ability to generate 'probable' future economic benefits.
- f) We also confirmed if carrying value of these intangible under development will be fully recovered by the Group and there are no impairment indicators for these assets. For this assessment, we obtained the product details which are being currently developed by the Group and discussed the same with the management, including research and development personnel. We also reviewed the product assessment in reference to developed products which were capitalized in the earlier years and being currently sold by the Group.
- g) We have evaluated the adequacy of disclosures made by the Group in the consolidated financial statements in view of the requirements as specified in the Indian Accounting Standards.

Information other than the consolidated financial statements and auditor's report thereon

6. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Responsibilities of management and those charged with governance for the consolidated financial statements

7. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated state of affairs (consolidated financial position), consolidated profit or loss (consolidated financial performance including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
8. In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Group's financial reporting process.
Auditor's responsibilities for the audit of the consolidated financial statements
10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements

can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITOR'S REPORT (Contd.)

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
- d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act;
 - e) On the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company and Subsidiary Companies covered under the Act, none of the directors of the Group companies are disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company, and its subsidiary companies covered under the Act and the operating effectiveness of such controls, refer to our separate report in 'Annexure I'; and
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 43 to the consolidated financial statements;
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group during the year ended 31 March 2019; and

Annexure I to the Independent Auditor's Report of even date to the members of Amber Enterprises India Limited on the consolidated financial statements for the year ended 31 March 2019

Annexure I

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Amber Enterprises India Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding Company and its subsidiary companies which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the IFCoFR of the Holding Company and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to

the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Holding Company and its subsidiary companies, as aforesaid.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit

ANNEXURE II((Contd))

preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation

of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in Guidance Note issued by the ICAI.

Consolidated Summary **OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019**

1. CORPORATE INFORMATION AND STATEMENT OF COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (IND AS)

Amber Enterprises India Limited (the "Company" or "the Holding Company"), together with its subsidiaries (collectively referred to as the "the Group") a public limited company domiciled in India and having its registered office situated at C-1, Phase II, Focal Point, Rajpura Town, Punjab - 140401, India was incorporated in 1990 and is engaged in the business of manufacturing a versatile range of products i.e. Air conditioners, microwave ovens, washing machines, refrigerators, heat exchangers, sheet metal components etc. Currently, the Group has thirteen manufacturing facilities in India out of which two manufacturing facilities are operating in tax exemption zone.

These consolidated financial statements ('financial statements') of the Group have been prepared to comply in all material respects with accounting principles generally accepted in India, including Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Companies Act, 2013 (the "Act"), as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2019 were authorized and approved for issue by the Board of Directors on 24 May 2019. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared on accrual and going concern basis under historical cost convention except for certain financial instruments and plan assets, which are measured at fair values. The accounting policies are applied consistently to all the periods presented in the financial statements.

The significant accounting policies and measurement bases have been summarised below.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and as per terms of agreements wherever applicable. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

Basis of consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Statement of profit and loss (including other comprehensive income ('OCI')) of subsidiaries acquired or disposed of during the period are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable. All the consolidated subsidiaries have a consistent reporting date of 31 March 2019.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's statement of profit and loss and net assets that is not held by the Group. Statement of profit and loss balance (including each component of OCI) is attributed to the equity holders of the Holding Company and to the non-controlling interests basis the respective ownership interests and the such balance is attributed even if this results in the non-controlling interests having a deficit balance.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. Such a change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

Business combination

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred by the former owners of the acquired entity. Acquisition costs are generally recognized in the statement of profit and loss as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their acquisition-date fair values.

Goodwill is initially measured as excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred and where exists clear evidence of underlying reasons of classifying business combinations as bargain purchase, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

b. Revenue recognition

Sale of goods

Revenue arises mainly from the sale of goods. To determine whether to recognise revenue, the Group follows a 5-step process:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations
- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognising revenue when/as performance obligation(s) are satisfied.

The Group considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both. Revenue is measured at fair value of consideration received or receivable, after deduction of any trade discounts, volume rebates.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers. A receivable is recognised when the goods are delivered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

Revenue from tool development and job charges

Revenue in respect of tool development and job charges is recognised as per the terms of the contract with the customers.

Interest income

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR) i.e. the rate that discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets. The future cash flows include all other transaction costs paid or received, premiums or discounts if any, etc.

Dividend income

Dividend are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

c. Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on first in, first out basis.
- Stores and spares, consumables and packing materials cost includes direct expenses and is determined on the basis of first in first out method.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

d. Income taxes

Tax expense recognised in the statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Current tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (i.e. in OCI or equity depending upon the treatment of underlying item).

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit

becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside statement of profit and loss (in OCI or equity depending upon the treatment of underlying item).

e. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f. Foreign currency transactions

The financial statements are presented in Indian Rupee ('INR' or 'Rs.') which is also the functional currency of the Holding Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other income/expenses, as the case maybe.

g. Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

Non-derivative financial assets

Subsequent measurement

i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost, if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

ii. Investments in equity instruments – The Group subsequently measures all equity investments at fair value (either through profit or loss or through other comprehensive income). Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Group is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables: In respect of trade receivables, the Group applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets: In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Group uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

De-recognition of financial assets

A financial asset is primarily de-recognised when the contractual rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

Initial and subsequent measurement

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h. Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

i. Property, plant and equipment ('PPE')

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and definition of asset is met. All other repair and maintenance

costs are recognised in the statement of profit or loss as incurred.

In case an item of property, plant and equipment is acquired on deferred payment basis, interest expenses included in deferred payment is recognised as interest expense and not included in cost of asset.

Subsequent measurement (depreciation and useful lives)

Depreciation on fixed assets is provided on straight line method based on life prescribed as per Schedule II of the Companies Act, 2013.

Block of asset	Useful life as per Companies Act, 2013 (in years)
Building	30
Plant and machinery	5-15
Computer	3
Furniture and fixture	10
Office equipment	5-10
Vehicles	8 – 10
Leasehold lands	Lease term
Leasehold improvements	Lease term

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

j. Intangible assets

Recognition, initial measurement and subsequent measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually.

Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method over the following periods:

	Useful life (in years)
Computer softwares	6
Development costs	7
Technical know-how	10-15
Customer relationships	5-15
Trade name	9
Patents and trademarks	6

k. Capital work-in progress

Cost of material consumed and erection charges thereon along with other direct cost incurred by the Group for the projects are shown as capital work-in-progress until capitalisation.

l. Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may

be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For this purpose, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

m. Leases

As a lessee

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease, unless the increase in rent is to compensate the lessor for the effects of inflation.

n. Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption.

o. Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises when there is a presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate

of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

p. Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

q. Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19- Employee Benefits.

Defined benefit plans

Gratuity

The Group operates one defined benefit plan for its employees, viz. gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method. Actuarial gain and loss for the defined benefit plan is recognized in full in the period in which they occur in other comprehensive income.

Other long term benefits

Accumulated leave expected to be carried forward beyond twelve months, is treated as long term employee benefit. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit.

Liability under continuity linked key resource and deferred salary schemes is provided for on actuarial valuation basis, which is done as per the projected unit credit method at the end of each financial period.

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Defined contribution plans

Provident fund

The Group makes contribution to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which services are rendered by the employee.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

r. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

s. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting done to the chief operating decision maker. The Group operates in a single operating segment and geographical segment

3. RECENT ACCOUNTING PRONOUNCEMENT

Ind AS 116 'Leases'

On 30 March 2019, Ministry of Corporate Affairs ('MCA') has clarified that Ind AS 116 is effective for annual periods beginning on or after 1 April 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets and short-term leases (i.e., leases with a lease

term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. The Group is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

Amendment to Ind AS 12, Income taxes

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified Appendix C to Ind-AS 12 Income taxes – "Uncertainty over Income Tax Treatments". The amendment to Ind AS 12 requires the entities to consider recognition and measurement requirements when there is uncertainty over income tax treatments. In such a circumstance, an entity shall recognise and measure its current or deferred tax asset or liability accordingly. The effective date of amendment is 1 April 2019. Further, there has been amendments in relevant paragraphs in Ind-AS 12 "Income Taxes" which clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events in accordance with Ind-AS 109. The Group is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 19, Employee benefits

The amendment to Ind AS 19 requires the entities to determine current service cost using actuarial assumptions and net interest using discount rate determined at the start of the annual reporting period. However, if an entity re-measures the net defined benefit liability (asset) as per the requirement of the standard, it shall determine current service cost and net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement using the actuarial assumptions used to re-measure the net defined benefit liability (asset). The effective date of amendment is 1 April 2019. The Group is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 23, Borrowing costs

On 30 March 2019, Ministry of Corporate Affairs ("MCA") issued an amendment to Ind-AS 23 "Borrowing Costs" clarifies that if any specific borrowing remains outstanding after the related

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalization rate on general borrowings. This amendment is effective for annual periods beginning on or after 1 April 2019. The Group is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 103, Business combinations

On March 30, 2019, Ministry of Corporate Affairs ("MCA") issued an amendment to Ind-AS 103, "Business Combinations". The amendment clarifies that when an entity obtains control of a business that is a joint operation, it shall need to re-measure the previously held interests in that business. This amendment is effective for annual periods beginning on or after April 1, 2019. The Group is evaluating the requirements of the amendments and their impact on the consolidated financial statements.

Significant accounting judgements, estimates and assumptions

When preparing the financial statements management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant judgements:

(i) Evaluation of indicators for impairment of non-financial assets

The evaluation of applicability of indicators of impairment of non-financial assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(ii) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income

against which the deferred tax assets can be utilised. The recognition of deferred tax assets and reversal thereof is also dependent upon management decision relating to timing of availment of tax holiday benefits available under the Income Tax Act, 1961 which in turn is based on estimates of future taxable profits.

(iii) Contingent liabilities

The Group is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Group often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Sources of estimation uncertainty:

(i) Provisions

At each balance sheet date, basis the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from management's estimates.

(ii) Fair valuation of financial instruments

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

(iii) Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

i) Minimum wages*****	22.29	22.29

* Includes amount paid under protest INR 13.29 Lakh (31 March 2018 : 13.29 Lakh).

** Includes amount paid under protest INR 2.00 Lakh (31 March 2018 : INR 2.00 Lakh). Also, the amount appearing above is after netting off INR 14.57 Lakh already provided for in the books of accounts.

*** Includes amount paid under protest INR 37.81 Lakh (31 March 2018 : INR 37.81 Lakh). Also, the amount appearing above is after netting off INR 9.32 Lakh already provided for in the books of accounts.

**** Includes amount paid under protest INR 29.05 Lakh (31 March 2018 : INR 29.05 Lakh).

***** The Payment of Bonus (Amendment) Act, 2015 dated 31 December 2015 (which was made effective from 01 April 2014) revised the thresholds for coverage of employee eligible for Bonus and also enhanced the ceiling limits for computation of bonus. However, taking cognizance of the stay granted by various High Courts, the Group has not recognised any differential amount of bonus for the period 01 April 2014 to 31 March 2015 and accordingly has recognised the expense as per the amended provisions w.e.f. 1 April 2015 and onwards.

***** In financial year 2015-16, the Subsidiary Company has received demand notice amounting INR 36.92 Lakh in relation to payment of contribution of three international worker under section 7A of the Employee Provident Fund and Miscellaneous Provisions Act, 1951. Company has made submission with Assistant Provident Fund Commissioner and same is pending for disposal.

The Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company.

***** The Subsidiary Company has been served with orders in FY 2014-15 under Minimum Wages Law claiming INR 22.29 Lakh for payment of wage below minimum wages.

Based on the advice from Independent tax expert and development, the management is confident that such addition will not be sustained on completion of the appellate and accordingly, pending the decision by the appellate authority no adjustment has been made in the financial statement.

Notes:

- 1) The discount rate is based on the prevailing market yield of Indian Government bonds as at the balance sheet date for the estimated terms of obligations.
- 2) The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.
- 3) Plan assets comprise funds managed by the insurer i.e. Life Insurance Corporation of India ('LIC').
- 4) The Group makes annual contributions to the LIC of an amount advised by them for Rajpura unit only.
- 5) The best estimated expense for the next year is ₹ 95.19 Lakh.
- 6) The weighted average duration of defined benefit obligation is 15 - 25 years (31 March 2018 : 15 - 24 years).

(vii) Sensitivity analysis for gratuity liability

(All amounts in INR in Lakh unless otherwise stated)

Description	31 March 2019	31 March 2018
Impact of change in discount rate		
Present value of obligation at the end of the year	539.44	378.98
- Impact due to increase of 0.50 - 1.00 %	366.10	295.11
- Impact due to decrease of 0.50 - 1.00 %	461.74	368.24
Impact of change in salary increase		
Present value of obligation at the end of the year	539.44	378.98
- Impact due to increase of 0.50 - 1.00 %	462.59	368.98
- Impact due to decrease of 0.50 - 1.00 %	364.73	294.15

The above sensitivity analysis is based on a change an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous year

50. FAIR VALUE DISCLOSURES

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are divided into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Financial assets measured at fair value - recurring fair value measurements

The following table shows the levels within the hierarchy of financial liabilities measured at fair value on a recurring basis.

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Level	31 March 2019	31 March 2018	Valuation technique
Financial assets

Derivative liability	Level 2	256.72	-	Valued using forward exchange rates at the balance sheet date

* The Group has made an investment of ₹ 571.49 Lakh for acquisition of 1,040,149 equity shares of Ever Electronics Private Limited ("Ever") on 30 March 2018, the amount paid has been considered as fair value as on 31 March 2018.

(iii) Fair value of instruments measured at amortised cost

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows:

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Level	31 March 2019		31 March 2018	
		Carrying value	Fair value	Carrying value	Fair value
Financial assets					
Loans	Level 3	1,160.38	1,164.38	655.82	672.43

Other financial liabilities	Level 3	-	-	28.22	28.34
Total financial liabilities		16,219.13	16,229.20	5,889.74	5,892.36

The management assessed that cash and cash equivalents, other bank balances, trade receivables, current loans, other current financial assets, trade payables, short term borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate receivables are evaluated by the Group based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors.
- (ii) The fair values of the Group's loans and receivables are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own nonperformance risk as at 31 March 2019 was assessed to be insignificant.
- (iii) The Group has major of its borrowings at variable rate which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Group's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Group. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

ii) Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk. The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term and short-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors

The Group's risk management is carried out by a central treasury department under policies approved by the board of directors. The board of directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Group's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans and receivables carried at amortised cost, and
- deposits with banks

a) Credit risk management

The Group assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the Group, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

(All amounts in INR in Lakh unless otherwise stated)

C: High	Trade receivables	78,716.35	37,857.23
	Trade receivables	30.95	30.95

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

The Group closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Group assesses increase in credit risk on an ongoing basis for amounts receivable that become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortized cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses

Trade receivables

- (i) The Group recognizes lifetime expected credit losses on trade receivables using a simplified approach and uses historical information to arrive at loss percentage relevant to each category of trade receivables.
- (ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

(All amounts in INR in Lakh unless otherwise stated)

Reconciliation of loss allowance	Trade receivables
Loss allowance on 01 April 2017	39.79
Add: Changes in loss allowances due to write-back	(8.84)
Loss allowance on 31 March 2018	30.95
Add: Changes in loss allowances due to write-back	-
Loss allowance on 31 March 2019	30.95

Other financial assets measured at amortised cost

The Group provides for expected credit losses on loans and advances by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Group can draw to apply consistently to entire population. For such financial assets, the Group's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Group does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

* Holding all other variables constant

b) Interest rate risk

i) Liabilities

The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2019, the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Group's investments in fixed deposits all pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Group to interest rate risk:

(All amounts in INR in Lakh unless otherwise stated)

Particulars	31 March 2019	31 March 2018

Interest rates – decrease by 100 bps (31 March 2018 100 bps)	(193.79)	(97.63)

* Holding all other variables constant

ii) Assets

The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

'The Group's exposure to equity securities price risk arises from investments held by the Group and classified in balance sheet at fair value through profit or loss. The Group has investment in unquoted equity shares of Ever Electronics Private Limited.

52. CAPITAL MANAGEMENT

The Group's capital management objectives are

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

The Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

53. BUSINESS COMBINATIONS

(i) Acquisition of Ever Electronics Private Limited

a. Summary of acquisition

The Holding company has made an investment of ₹ 571.49 Lakh for acquisition of 1,040,149 equity shares of Ever Electronics Private Limited ("Ever") on 30 March 2018 which represents 19% of the total share capital of Ever. As on 1 October 2018, the Holding Company has given a corporate guarantee in lieu of majority shareholders rights (control rights), which transfer control rights and therefore forms a business combination. Thus fair value of corporate guarantee has been considered as part of purchase consideration.. This acquisition will enable the Group to enter into the business of manufacturing, assembling and dealing in electronic assembled printed circuit boards for home appliances and automobile products.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Amount
Cash paid	571.49
Fair value of corporate guarantee	42.15
Purchase consideration (A)	613.64
The assets and liabilities recognised as a result of the acquisition are as follows:

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Amount
Provision for compensated absences	(17.83)
Trade payables	(2,834.44)
Other financial liabilities (current)	(280.91)
Other current liabilities	(80.40)
Net assets identifiable acquired (B)	2,205.55
Non-controlling interest in the acquired entity (C)	(1,786.50)
Goodwill (A-B-C) (refer note (ii))	194.58

Goodwill here represents residual asset value attributable to unidentified intangible assets acquired by acquirer. It will not be deductible for tax purposes.

b. Consideration transferred

The acquisition of ₹ 571.49 Lakh was settled in cash. Legal costs for acquisition amounting to ₹ 13.21 Lakh are not included as part of the consideration transferred and have been recognised as an expense in the consolidated statement of comprehensive income, as part of 'other expenses'.

c. Measurement of fair value of identifiable net assets

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence. Intangible assets are fair valued based on the relief-from-royalty method and multi-period excess earnings methods. The relief-from-royalty method considers the discounted estimated royalty payments that are expected to be avoided as a result of the patents or trademarks being owned. The multi-period excess earnings method considers the present value of net cash flows expected to be generated by the customer relationships, by excluding any cash flows related to contributory assets. The fair value of corporate guarantee has been estimated as the fair value of incremental borrowing rate over the period/term of corporate guarantee. The fair value of the trade and other receivables acquired as part of the business combination amounted to ₹ 343.45 Lakh, with a gross contractual amount of ₹ 343.45 Lakh. As of the acquisition date, the Group's best estimate of the contractual cash flow not expected to be collected amounted to Nil.

d. Revenue and profit contribution

The acquired business contributed revenue of ₹ 13,766.23 Lakh and profit of ₹ 137.19 Lakh to the group for the period 31 March 2019.

If the acquisitions had occurred on 01 April 2018, consolidated pro-forma revenue and profit for the year ended 31 March 2019 would have been ₹ 289,651.94 Lakh and ₹ 9,653.68 Lakh respectively.

(ii) Acquisition of IL JIN Electronics (India) Private Limited

a. Summary of acquisition

During the year ended 31 March 2018 the Group has made an investment of ₹ 5,442.50 Lakh for acquisition of 70% of the share capital comprising of 1,320,613 equity shares of IL JIN Electronics (India) Private Limited ("IL JIN") on 28 December 2017, for remaining 30% of the share capital, the Group has written a put option as well as have a call option to buy the remaining stake, therefore the Group has recorded ₹ 2,225.80 Lakh as put liability. This acquisition will enable the Group to enter into the business of manufacturing, assembling and dealing in electronic assembled printed circuit boards for home appliances and automobile products.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Amount
Purchase consideration (A)	5,442.50
The assets and liabilities recognised as a result of the acquisition are as follows:	
Property, plant and equipment	6,075.24
Capital work-in-progress	52.00
Intangible assets - Software	4.47
Intangible assets - Technical Knowhow	911.00

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

(All amounts in INR in Lakh unless otherwise stated)

Particulars	Amount
Intangible assets - Customer Relationships	247.00
Intangible assets - Tradename	452.00
Income tax assets (net)	181.15
Inventories	3,023.03
Trade receivables	3,556.51
Cash and cash equivalents	5.09
Other financial assets	285.33
Other non-current assets	0.12
Other current assets	807.88
Borrowings	(2,057.78)
Other financial liabilities	(149.52)
Provision for gratuity	(60.89)
Provision for compensated absences	(33.95)
Other non-current liabilities	(0.26)
Deferred tax liabilities (net)	(1,263.61)
Trade payables	(4,860.30)
Current tax liabilities (net)	(53.91)
Other current liabilities	(2,552.15)
Contingent liability	(31.78)
Put liability (refer note (i))	(2,225.80)
Net assets identifiable acquired (B)	2,310.87
Goodwill (A-B) (refer note (ii))	3,131.63

- (i) The Group has written a put option as well as have a call option to buy the remaining stake upon exercise, with an intention to buy the remaining stake. Accordingly, no minority interest was recognised. The Company has to pay fair value based on value pricing formulae in future and not at fixed price. Under risk neutral framework, as on valuation date the fair value of remaining stake would remain the same as it is currently for the rest, and therefore it has been measured at pro-rata basis.
- (ii) Goodwill here represents residual asset value attributable to unidentified intangible assets acquired by acquirer. It will not be deductible for tax purposes.

b. Consideration transferred

The acquisition of ₹ 5,442.50 Lakh was settled in cash. Legal costs for acquisition amounting to ₹ 50.31 Lakh are not included as part of the consideration transferred and have been recognised as an expense in the consolidated statement of comprehensive income, as part of 'other expenses'.

c. Measurement of fair value of identifiable net assets

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence. Intangible assets are fair valued based on the relief-from-royalty method and multi-period excess earnings methods. The relief-from-royalty method considers the discounted estimated royalty payments that are expected to be avoided as a result of the patents or trademarks being owned. The multi-period excess earnings method considers the present value of net cash flows expected to be generated by the customer relationships, by excluding any cash flows related to contributory assets. The fair value of the trade and other receivables acquired as part of the business combination amounted to ₹ 3,841.84 Lakh, with a gross contractual amount of ₹ 3,841.84 Lakh. As of the acquisition date, the Group's best estimate of the contractual cash flow not expected to be collected amounted to Nil.

d. Revenue and profit contribution

The acquired business contributed revenue of ₹ 11,274.97 Lakh and profit of ₹ 232.99 Lakh to the group for the period 31 March 2018.

If the acquisitions had occurred on 01 April 2017, consolidated pro-forma revenue and profit for the year ended 31 March 2018 would have been ₹ 241,559.97 Lakh and ₹ 6,166.44 Lakh respectively.

54. REVENUE FROM CONTRACTS WITH CUSTOMERS

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

The Group has adopted the standard on 01 April 2018 on a modified retrospective basis with a cumulative catch-up adjustment booked to retained earnings as at 1 April 2018 as if the standard had always been in effect. The standard is applied only to contracts that are not completed as at 01 April 2018. Comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The adoption of the new standard did not result in any material adjustments to the Group's net income.

(a) Disaggregation of revenue

The Group has performed a disaggregated analysis of revenues considering the nature, amount, timing and uncertainty of revenues. This includes disclosure of revenues by geography and timing of recognition.

CONSOLIDATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2019 (Contd.)

58. SEGMENT INFORMATION

The Group is engaged in manufacturing of consumer durable products and its components. Basis the nature of Group's business and operations, the Group has one operating segment i.e. "manufacture of consumer durable products and its components" for which information is reviewed by the Chief Operating Decision Maker (CODM) to allocate resources and assess performance. Hence, the Group has only one reportable segment as per the requirements of Ind AS 108 – 'Operating Segments'. Majority of the revenue is derived from one geography and two external customers amounting to ₹ 109,842.20 Lakh (31 March 2018: ₹ 118,904.49 Lakh).

- 59 As per the transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961, the Group is required to use certain specific methods in computing arm's length prices of transactions with associated enterprises and maintain adequate documentation in this respect. Since law requires existence of such information and documentation to be contemporaneous in nature, the Group has appointed independent consultants for conducting a Transfer Pricing Study (the 'Study') to confirm that the transactions with associate enterprises undertaken during the financial year are on an "arms length basis" and such study is in progress. Management is of the opinion that the Group's transactions are at arm's length and that the results of the proposed study will not have any impact on the financial statements and that they do not expect any transfer pricing adjustments.

Notice

NOTICE is hereby given that 29th Annual General Meeting (the "AGM") of **AMBER ENTERPRISES INDIA LIMITED** (Formerly known as Amber Enterprises (India) Private Limited) ("the Company") will be held on Friday, 23 August 2019 at 11:00 A.M. at **EAGLE MOTEL, GRAND TRUNK ROAD, RAJPURA, PUNJAB - 140401** to transact the following business :

A. ORDINARY BUSINESS:

1. To consider and adopt (a) the audited standalone financial statements of the Company for the financial year ended 31 March 2019 together with the reports of the Auditor's thereon and Board of Directors; and (b) the audited consolidated financial statements of the Company for the financial year ended 31 March 2019 together with the reports of the Auditor's thereon and in this regard, pass the following resolutions, with or without modifications, as Ordinary Resolution(s):

- (a) "RESOLVED THAT the audited financial statements of the Company for the financial year ended 31 March 2019 and the reports of the Auditor's thereon and Board of Directors laid before this meeting, be and are hereby considered and adopted."
- (b) "RESOLVED THAT the audited consolidated financial statements of the Company for the financial year ended 31 March 2019 and the report of Auditor's thereon laid before this meeting, be and are hereby considered and adopted."

2. To appoint a Director in place of Mr. Daljit Singh, (DIN : 02023964) who retires by rotation in terms of Section 152 (6) of the Companies Act, 2013 at this Annual General Meeting and being eligible, offers himself for re-appointment.

Explanation : Based on the terms of appointment, executive directors are subject to retirement by rotation. Mr. Daljit Singh, who was appointed on 25 August 2017 in the current term, and is the longest-serving Member on the Board, retires by rotation and, being eligible, seeks re-appointment. Given his expertise, vast experience in the RAC Manufacturing Industry and his contribution to the success of the Company, it is proposed to re-appoint him as a Director.

To the extent that Mr. Daljit Singh is required to retire by rotation, he would need to be re-appointed as a Director of the Company, who shall continue his term as a Managing Director of the Company.

Also, please refer additional information given in "Annexure A" on Director(s) recommended

for appointment/re-appointment as required under Regulation 36 of SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015 and Secretarial Standards -2 as prescribed by the Institute of Company Secretaries of India. Therefore, Members are requested to consider and if thought fit, to pass the following resolution, with or without modifications, as an **Ordinary Resolution** :

"RESOLVED THAT pursuant to Section 152 and other applicable provisions, if any, of the Companies Act, 2013, read with Articles of Association of the Company, the approval of the Members of the Company be and is hereby accorded to the re-appointment of Mr. Daljit Singh (DIN: 02023964) as a Director of the Company, who shall continue as a Managing Director of the Company, to the extent that he is required to retire by rotation."

B. SPECIAL BUSINESS :
