Introduction

On behalf of Amber’s Board of Directors, Company Secretary and Compliance Officer welcomed the members to the 31st Annual General Meeting of the Company being held electronically through Video Conferencing mode.

She further stated that in view of the COVID-19 pandemic as well as continuing Government guidelines to maintain social distancing, Ministry of Corporate Affairs (MCA) vide its various Circulars issued from time to time allowed companies to hold their Annual General Meeting (AGM) through Video Conferencing ('VC')/Other Audio Visual Means ('OAVM') and also has allowed companies to send Annual Reports and the Notice convening the Annual General Meeting electronically.

She further stated that considering the health and safety of all our stakeholders and in particular, the shareholders, the 31st Annual General Meeting of the Company is being conducted through Video Conferencing to avoid the physical presence of members at a common venue.

She further stated that the soft copy of the Annual Report was sent to all the Members holding shares in dematerialised mode and whose e-mail addresses were available with the Depository Participant(s) as well as to all the Members holding shares in physical mode whose e-mail addresses were registered with the Company/RTA for communication purposes.

Company Secretary and Compliance Officer declared the meeting as validly opened, since the requirement of the quorum for the AGM, was fulfilled.

Chairman's Speech

Thereafter, the Chairman delivered his speech, highlights of which are recorded hereafter.

The Chairman firstly stated that, the Annual Report for the financial year 2020-21 had been sent to the members on 17 August 2021 and I trusts that everybody had a chance to go through the same and it would have given the members an overview of the performance of the Company.

The Chairman further started by sharing his views on the impact of COVID-19 crisis on the people and community. He elaborated that, after a difficult year, you and I should be now confident that we shall surely see the light of the day.

To me and I am sure for several others, the year was more of a schooling, where lessons were learnt and solutions were found. The year taught us how to transform and overcome the challenges that the Covid-19 pandemic had to offer. When we arrived at solutions that were in favour of our stakeholders even in the peak of Covid-19, there was a renewed trust in the brand among our customers.

However, the Covid-19 pandemic was not just a flu. It was intense and damaging for businesses like the ones we are in. Soon after the first cases of the virus were reported and the nationwide lockdown was brought into force, the months that followed tested our mettle.

Elaborating further, the Chairman apprised the Members that the consumer durable industry is in the middle of a positive thrust, as consumers have identified the need to make their living space comfortable. They have understood that even if the situation returns to normal, they will have to spend more time at home. People are, thus, opting for value-added products that help them multitask and make their lives simpler.

Elaborating further on each area, the Chairman apprised the Members as follows:-

Financial highlights

During the year, revenue from operations were recorded at Rs. 3,03,052/- Lakh as against Rs. 3,96,279/- Lakh last year, a 24 % drop.

Tel.: +91 1762 232126, 232646 | Fax: +91 1762 232127

For the year, RAC contributed 55% of the total revenue, while components and mobility application contributed 45% of the revenues. Operating EBITDA was seen at Rs. 22,858/- Lakh as against Rs. 32,617/- Lakh last year, a 30% drop, as various cost rationalisation programmes aimed at curtailing fixed and semi-variable expenses helped us off-setting the downside risk.

Operational highlights

For us, the year began with a sharp drop in sale of air conditioners owing to the nationwide lockdown that halted economic activities during peak summer. However, with the easing of lockdown, demand shot up in Tier-II and Tier-III cities. Sales gradually started picking up in the 2nd and 3rd quarters of the financial year. Further, the take-off in online purchases gave us the confidence that people are now seeing air conditioners no longer as a luxury product but a necessity.

Sidwal's business

we are observing a good traction in the Railways and Metro segments as Government focuses more on comfortable travel. Despite Covid-19 challenges, we acquired new orders and strengthened our order book despite weak economic scenario. We have also strengthened our product portfolio for Railways, Metros and Bus Air Conditioning in Sidwal with surge in demand for air-conditioned coaches and multiple upcoming Metro projects across the country. Going forward, we are optimistic of advancing this segment as well.

Effect of AATMANIRBHAR Bharat

The Indian Government took a very positive step – Aatmanirbhar Bharat – in making the nation self-reliant. To reduce India's import dependency, the Government selected 12 champion sectors to make them the global manufacturing hub and the AC industry was one of them. A Rs. 6,238 Crore worth of incentives were provided for white goods Industry (Air Conditioner and LED) as a part of the PLI scheme. Ban on Import of Air Conditioners with Refrigerant is positive for our Country. This solidified our position in the market.

Environment Social and Governance (ESG) and sustainability

In Amber's journey forward, the words Environment Social and Governance (ESG) has a very deep connect with climate change, good labour practices, consumer security, good corporate and social governance, business and social ethics. Our sustainability structure and integrated business model developed over the years have allowed us to constantly create value and benefit from the opportunities emerging from this transition, while limiting the related risks.

The sustainability agenda comprises aspects related to resource conservation, energy efficiency, environment protection, enrichment and development of local communities in and around its area of operations (Refer page 14). We have aligned all our business strategies on the foundation of ethical and transparent business operations and continue to follow the highest standards of corporate governance and consider it more of an ethical requisite than a regulatory necessity. It is

a matter of great pride that our success over the years has come without ever compromising on integrity or environment and social obligations.

Occupational health and safety at the workplace

Another key priority for the Company is occupational health and safety at the workplace. We have accepted it as a responsibility to maintain a safe working environment for all. We give utmost importance to our employees and associates and inculcate safety awareness among them.

Closing note

In our forward stride, we aim to leverage our potential and grow on the opportunities, which will arise from the Government's push for green energy and stringent environmental norms. With the growth opportunities we foresee on the domestic and export front, along with Government support, we believe we are well positioned to capitalise on what is coming. Our focus would remain on customer-centric design development, cost reduction and resource optimisation.

We shall keep technological innovations at the forefront to meet our sole purpose of stakeholder satisfaction and expectation of business. Our constant endeavour would be to increase penetration and increase our wallet share in the existing customers, continuously add new customers, create a foothold in the exports market and enhance our products with new technologies with focus on R&D.

Finally, I would take this opportunity to thank our employees and associates, who remained devoted to their responsibility amid a pandemic. They are the ones who ensured light prevails over darkness.

Thereafter, he requested Ms. Konica Yadav, Company Secretary & Compliance Officer to begin with the Formal Proceedings of the AGM.

Business Items

The Company Secretary & Compliance Officer then took up the formal proceedings of the AGM. The Notice of the 31st Annual General Meeting ('AGM') together with the Financial Statements and Board's Report, which was sent to the Members by email and public notice published in the Newspapers, were taken as read.

She informed that the Auditors' Report on the financial statements of the Company for the financial year ended 31 March 2021 did not have qualifications, observations or comments on financial transactions or matters, which have any adverse effect on the functioning of the Company. She also informed that there are no qualifications, observations or comments in the Secretarial Auditor's report too. In view of the same, there was no need to read the Reports.

She stated that as per the applicable provisions of the Companies Act, 2013 and Rules thereunder, the Company had provided remote e-voting facility to the Members entitled to cast their vote on the AGM agenda items from 6 September 2021 (9:00 a.m. IST) to 8 September 2021 (5:00 p.m. IST).

She drew attention of the Members that at the end of discussion on the resolutions, Members present at the meeting but have not cast their votes by availing the remote e-voting facility, can exercise their vote using e-voting platform of KFin, which would be closed along with closure of the Meeting.

The Company Secretary & Compliance Officer thereafter proceeded with the Agenda, summarizing that the AGM Notice contains 3 (Three) business items.

2 (Two) ordinary business related to:

- 1) Adoption of the audited (standalone and consolidated) financial statements of the Company for the financial year ended 31 March 2021 together with the reports of the Auditor's thereon and Board of Directors;
- 2) Re-appointment of Mr. Daljit Singh (DIN: 02023964) as a Director, liable to retire by rotation;

& 1 (One) special business related to:

- 3) Ratification of Remuneration to be paid to M/s. K.G. Goyal & Associates, Cost Accountants (Firm Registration No.000024), the Cost Auditor of the Company.

She drew attention of the Board that, the resolutions and the explanatory statement in respect of the above proposals wherever applicable have been provided in the Notice.

Before starting the question and answer session, the Company Secretary & Compliance Officer explained to the Members that considering the participation of Members in the AGM through VC/ OAVM Facility, three options were available to the Members to ask questions/ give their comments during their participation in the AGM :

1. Pre-Registration as Speaker - atleast 48 hours in advance of the meeting at the designated E-MAIL Address of the Company at infoamber@ambergroupindia.com and cs_corp@ambergroupindia.com.

C 1 PHASE IIFOCAL POINT RAJPURA TOWN
PUNJAB-140401

Dear Sir,

1. I, Vikram Jhavar, Company Secretary in Practice and Proprietor of **V JHAWAR & CO, Company Secretaries** have been appointed as Scrutinizer by the Board of Directors of Amber Enterprises India Limited (the Company) for the purpose of scrutinizing the postal ballot process of voting through electronic means ("e-voting") on the resolutions contained in the Notice dated 22nd May, 2021 ("**Notice**") issued in accordance with General Circular No. 14/ 2020, 17 / 2020, 20/2020 and 2/2021 dated 8 April 2020, 13 April 2020, 5 May 2020 and 13 January 2021 respectively issued by Ministry of Corporate Affairs ("MCA"), Government of India (hereinafter referred to as "**MCA Circulars**"), calling the Thirty First Annual General Meeting of its Equity Shareholders ("**the Meeting**" / "**AGM**") through VC / OAVM. The AGM was convened on Thursday, 09th September 2021 at 12:00 noon. 1ST through VC / OAVM.
2. The said appointment as Scrutinizer is under the provisions of Section 108 of the Companies Act 2013 ("**the Act**") read with Rule 20 of the Companies (Management and Administration) Rules, 2014 as amended ("**the Rules**"). As the Scrutinizer, I have to scrutinize:
 - (i) Process of e-voting remotely, before the AGM, using an electronic voting system on the dates referred to in the Notice calling the AGM ("**remote**

- e-voting"); and
(ii) Process of e-voting at the AGM through electronic voting system ("**Insta Poll**")

3. Management Responsibility:-

The Management of the Company is responsible to ensure the compliance of requirements of (i) the Companies Act 2013 and the rules made thereunder and (ii) the MCA Circulars and (iii) the SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015, ("LODR"). The management of the Company is responsible for ensuring a secured framework and robustness of the electronic voting systems.

4. Scrutinizer's Responsibility:-

My responsibility as Scrutinizer for e-voting process (i.e. remote e-voting and Insta Poll) is restricted to making a Consolidated Scrutinizer's Report of the votes cast "in favour" or "against" the resolutions contained in the Notice, based on the reports generated from the evoting system provided by KFin Technologies Private Limited ("**KFinTech**"), the Registrar and Transfer Agent of the Company and the Agency authorized under the Rules and engaged by the Company to provide e-voting facility and attendant papers/ documents furnished to me electronically by the Company and/ or KFinTech for my verification.

5. Cut-off date

The Equity Shareholders of the Company as on the "cut-off" date, as set out in the Notice, i.e., Friday, 3rd September, 2021 were entitled to vote on the resolutions {item nos. 1 to 3 as set out in the Notice calling the AGM) and their voting rights were in proportion to their shareholding in the paid-up equity share capital of the Company as on the cut-off date, subject to the provisions of Articles of Association of the Company.

6. Insta Poll process at the AGM:

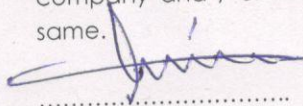

- (i) In keeping with the Regulations 44 of the SEBI (Listing Obligation and disclosures Requirement) Regulations 2015 and as prescribe under Rule 20 of the Companies (Management and Administration) Amendment Rule 2015, for the purpose of ensuring that members who have cast their votes through remote e- voting do not vote again at the Annual General Meeting, the scrutinizer shall have access after closure of period of remote e voting and before the start of Annual General Meeting to only such details relating to members who have cast their votes through remote e-voting.
- (ii) The Company provided Insta e-voting facility to members attending the AGM who had not cast their votes through remote e-voting to cast their votes.
- (iii) After the time fixed for closing of the Insta e-voting by the Chairman, the electronic system recording the e-voting (e-votes) was locked by KFin under my instructions.

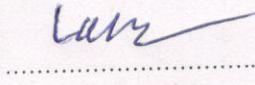

- (iv) The e-voting instructions were scrutinized on test check basis. The e-votes were reconciled with the records maintained by the Company / KFin and the authorization lodged with the Company / KFin on test check basis.
- (v) The e-votes cast were unblocked on Thursday, 09th September 2021, after the conclusion of the AGM.

7. Remote e-voting process

- i. The remote e-voting period remained open from Monday, 6th September 2021 (9:00 a.m. 1ST) to Wednesday, 8th September, 2021 (5:00 p.m. 1ST).
- ii. The votes cast were unblocked on due time was witnessed by two witnesses Mr. Sanjay Suri and Mr. Asif who are not in the employment of the company and / or KFin. They have signed below in confirmation of the same.

Sanjay Suri

Layakram

- iii. Thereafter, the details containing, inter alia, the list of Equity Shareholders who voted "in favour" or "against" on each of the resolutions that was put to vote, were generated from thee-voting website of KFinTech i.e., <https://evoting.kfintech.com>. Based on the report generated by KFinTech and relied upon by me, data regarding the remote e-voting was scrutinized on test check basis.
8. I submit herewith the Consolidated Scrutinizer's Report on the results of the remote e-voting and Insta Poll, based on the reports generated by KFinTech, scrutinized on test check basis and relied upon by me as under:-

Developing on Insights, Creating Niche

Through technology and innovation we remain committed towards product development. By consistently upgrading our products and process technology, our R&D capabilities enable us to roll out customer-centric designs, which are environment friendly and sustainable at the same time.

Our R&D department consists of qualified engineers and have best-in-class infrastructure, including performance test labs, reliability testing facilities, 3D modeling, unigraphics, quality and product testing, psychometric labs and anechoic sound chambers. The National Accreditation Board for Testing and Calibration Laboratories ("NABL") has accredited it.

In addition to our wide range of room ACs with multiple SKUs across all star rating and tonnage, including inverter ACs, we have successfully launched our wide range of offerings in the commercial air conditioner segment too. We are continuously investing in R&D for new product developments and to introduce more energy-efficient products. We are also expanding our product portfolio in the commercial air conditioning space to leverage and increase our wallet share among our existing customers as well as new clients.

We have the ability to manufacture most of our products from the concept and design stage till the final delivery, thereby covering the entire manufacturing value chain

Chairman's Message

Hope you are doing well. After a difficult year, you and I should be now confident that we shall surely see the light of the day.

To me and I am sure for several others, the year was more of a schooling, where lessons were learnt and solutions were found. The year taught us how to transform and overcome the challenges that the Covid-19 pandemic had to offer. When we arrived at solutions that were in favour of our stakeholders even in the peak of Covid-19, there was a renewed trust in the brand among our customers.

Personally, I would never derive negativity out of the pandemic. Rather, it enlightened us with newer ways of handling problems while embracing change. It helped us overlook the adversities of change, while seizing the emerging opportunities to improve and try new things. Last but surely not the least, the pandemic enabled us to achieve a healthy mind about anything that came our way.

However, the Covid-19 pandemic was not just a flu. It was intense and damaging for businesses like the ones we are in. Soon after the first cases of the virus were reported and the nationwide lockdown was brought into force, the months that followed tested our mettle. During the year, revenue from operations were recorded at ₹ 3,03,052 Lakh as against ₹ 3,96,279 Lakh last year, a 24 % drop. For the year, RAC contributed 55% of the total revenue, while components and mobility application contributed 45% of the revenues. Operating EBITDA was seen at ₹ 22,858 Lakh as against ₹ 32,617 Lakh last year, a 30% drop, as various cost rationalisation programmes aimed at curtailing fixed and semi-variable expenses helped us off-setting the downside risk.

The consumer durable industry is in the middle of a positive thrust, as consumers have identified the need to make their living space comfortable. They have understood that even if the situation returns to normal, they will have to spend more time at home. People are, thus, opting for value-added products that help them multitask and make their lives simpler.

At Amber, we are at the cusp of capitalising on this structural shift with our foray into Room ACs as well as other consumer durable items on the components side.

For us, the year began with a sharp drop in sale of air conditioners owing to the nationwide lockdown that halted economic activities during peak summer. However, with the easing of lockdown, demand shot up in Tier-II and Tier-III cities. Sales gradually started picking up in the 2nd and 3rd quarters of the financial year. Further, the take-off in online purchases gave us the confidence that people are now seeing air conditioners no longer as a luxury product but a necessity. The 3rd quarter demand was also aided by strong festive season sales, retailers adopting the omni-channel strategy to cater to consumers across channels, affordable finance schemes offered by retailers, extended warranties and same-day installation services helped attract first-time consumers.

In our Sidwal business, we are observing a good traction in the Railways and Metro segments as Government focuses more on comfortable travel. Despite Covid-19 challenges, we acquired new orders and strengthened our order book despite weak economic scenario. We have also strengthened our product portfolio for Railways, Metros and Bus Air Conditioning in Sidwal with surge in demand for air-conditioned coaches and multiple upcoming Metro projects across the country.

Going forward, we are optimistic of advancing this segment as well.

Further, the Indian Government took a very positive step – *Aatmanirbhar Bharat* – in making the nation self-reliant. To reduce India's import dependency, the Government selected 12 champion sectors to make them the global manufacturing hub and the AC industry was one of them. A ₹ 5,000 Cr worth of incentives were provided to the AC and its component manufacturing industry as a part of the PLI scheme. This solidified our position in the market.

In Amber's journey forward, the words Environment Social and Governance (ESG) has a very deep connect with climate change, good labour practices, consumer security, good corporate and social governance, business and social ethics. Our sustainability structure and integrated business model developed over the years have allowed us to constantly create value and benefit from the opportunities emerging from this transition, while limiting the related risks.

The sustainability agenda comprises aspects related to resource conservation, energy efficiency, environment protection, enrichment and development of local communities in and around its area of operations (Refer page 14). We have aligned all our business strategies on the foundation of ethical and transparent business operations and continue to follow the highest standards of corporate governance and consider it more of an ethical requisite than a regulatory necessity. It is a matter of great pride that our success over the years has come without ever compromising on

integrity or environment and social obligations.

Another key priority for the Company is occupational health and safety at the workplace. We have accepted it as a responsibility to maintain a safe working environment for all. We give utmost importance to our employees and associates and inculcate safety awareness among them.

In our forward stride, we aim to leverage our potential and grow on the opportunities, which will arise from the Government's push for green energy and stringent environmental norms. With the growth opportunities we foresee on the domestic and export front, along with Government support, we believe we are well positioned to capitalise on what is coming. Our focus would remain on customer-centric design development, cost reduction and resource optimisation. We shall keep technological innovations at the forefront to meet our sole purpose of stakeholder satisfaction and expectation of business. Our constant endeavour would be to increase penetration and increase our wallet share in the existing customers, continuously add new customers, create a foothold in the exports market and enhance our products with new technologies with focus on R&D.

Finally, I would take this opportunity to thank our employees and associates, who remained devoted to their responsibility amid a pandemic. They are the ones who ensured light prevails over darkness.

Best Regards,

Jasbir Singh

Harnessing Innovation for Environmental Outcomes:

Amber has a long-standing commitment to drive environmental progress. We have leveraged our people, capital and ideas to expand innovative clean energy solutions for our clients, helping them transition to a low-carbon future.

Investing in Our People:

We are committed to recruiting and retaining the best talent. This requires sourcing our people from a diverse talent pool and investing in them at every step of their career. From first-year analysts to senior partners, we focus on training, engaging and providing the right environment to our people to achieve their maximum potential. This helps us create value for our clients, shareholders and communities.

Ensuring Effective Oversight Through Sound Governance:

We remain committed to upholding sound governance practices to protect the long-term interests of our shareholders and create enduring value for our firm and all stakeholders.

Environment

We are embedding environmental sustainability throughout our products, services, operations, and culture to drive efficiencies and responsible resource use, while creating comfortable, safe, and healthy workplaces for our stakeholders. We are focused on reducing our energy consumption and greenhouse gas emissions, increasing our operational efficiency, and advancing clean technology and innovative solutions. We believe that climate change continues to be one of the most urgent environmental and social issues of our time, and we are working across our value chain to help accelerate the transition to a low-carbon economy. This and further to reduce the impacts of climate change on our business, communities, employees, and customers.

Steps taken by the Company to reduce energy consumption:

The Company is consistently enhancing its renewable portfolio through solar power plants. In pursuit of continued improvement in energy conservation, the Company took the following steps:

Energy

Installed AC Variable frequency drive VFD at air compressor, cooling tower, grinders for energy saving up to 47100Kw

Installed section-wise energy meter and monitor it on daily basis for analysis to control the consumption

Changed Ceramic Insulated heater for increased efficiency and reduce cycle time with energy savings of 104000Kw

Installed AIRTRON AC SAVER controller and reduced electricity consumption from 11 to 7 KWH

Implemented biofuel additive to increase the efficiency and reduce diesel consumption in paint-shops and gensets

Increased parts in ETP basket (paint shop) to reduce LPG consumptions

Shifted from water chiller to high pressure pump in vacuum forming

Installed motion sensor in office and sensors at stencil jigs

Installed timers on air conditioners, lights and street lights

Programmes aimed at improving energy efficiency:

Use of natural lighting and natural ventilation

Encouraging go-green initiative in the manufacturing units

Installing solar plants at various manufacturing units

Transparent sheets installed for electricity saving in daytime

Programmes aimed at saving water:

By harvesting rainwater, reducing usage and recycling water

By installing heat exchanger in sheet line

By using STP water in gardening, along with sprinklers, to reduce water consumption

By laying thrust on zero waste to land fill and circular economy

Reuse RO wastewater for floor cleaning and urinals

Adopted a pond and maintain it too at Greater Noida

Reuse DM water via regeneration plant to make DM water again

Social

At Amber, we aim to work every day with the highest standards of integrity and operational excellence to deliver what's expected of us by our stakeholders. Being our best takes all of us working together with a shared understanding of what we do and how we do it. Our past provides perspective and guidance, but we are moving with urgency and optimism towards our future. Approaching our work in newer ways and challenging past perspectives helps us make the most of the meaningful opportunities that exist across all of our businesses. We are changing the way we run the Company and redefining parts of our culture in order to be more effective.

Employees

At Amber, people are our key differentiators. We believe in the philosophy of continuously training our workforce to make them future ready. It is their determination, dedication and dependability that gives us a competitive advantage. We focus on bringing talented people on-board, sharpen their skills through training and motivate them to collaborate and innovate with experts to upgrade their skills.

A comprehensive training structure is laid down for all employees. In addition to the induction training, regular training on job-related modules is also provided to help employees improve continually in the performance of their duties. Such initiatives help attract and retain the best talents across the industry. Safety training is also a part of our overall training module and it's mandatory for all employees to undergo the same.

Environment Health Safety

The Company has a structured health and safety policy. Ensuring a secured workplace has always been one of the highest priorities for Amber. We believe all three parameters are crucial for a sound work environment. The Safety Management System of the Company is designed to reduce the risk of incidences and injuries. This system includes safety rules, safety procedures, safety training, hazard identification, correction, incident reporting and investigation, capturing near-miss accidents, safety communications and safety suggestions.

During Covid-19, we ensured that all our employees reporting for work follow the Government protocols regarding the pandemic. All employees in the plants were made aware through small training sessions and visual displays on the Dos & Don'ts. Employees who showed slightest of symptoms were provided medical support and guidance through the Company nominated doctors and consultations with various health agencies.

During FY 2020-21, the Company undertook the following initiatives to improve EHS parameters:

- » Monitored even minor incidents. Taking suitable measures have reduced the minor accidents in the FY significantly
- » Standardised plant safety rounds and gap analysis. Presence of plant heads have been made mandatory to improve the effectiveness of safety rounds
- » Conducted mock drills every quarter at all the locations and reviewed learnings
- » Made safety trainings a part of the employee induction and training calendars

Communities

Key CSR areas in which the Company contributes are:

- » Promoting education
- » Promoting vocational skill development
- » Promoting healthcare, sanitation and making safe drinking water available
- » Promoting gender equality, empowering women
- » Setting up homes and hostels for women and orphans
- » Setting up old age homes, day care centres and other such facilities for senior citizens
- » Conserving natural resources and maintaining quality of soil, air and water
- » Contributing to the PM Cares Fund

Governance

Our Board is committed to provide sound corporate governance and oversee the Company's efforts to set and reinforce its culture. We expect our management team and employees to share a common understanding of expectations to create a more consistent culture – doing what's right, acting with integrity, and holding ourselves accountable.

Board of Directors

Our Board of Directors has enhanced its composition, oversight, governance practices and continues to focus on succession planning and effective oversight of the business. Over the last few years, the Board has undergone significant refreshment to enhance the financial services, regulatory, financial reporting, business operations, corporate governance skills and experiences represented on the Board.

The Company believes in promoting a fair, transparent, ethical and professional work environment by upholding the highest standards of ethics, professionalism, honesty and integrity. It is committed to developing a culture where it is safe for all employees to raise concerns about any unacceptable practice or any event of misconduct. The organisation provides a platform for directors and employees to disclose information internally, which he/she believes shows serious malpractice, impropriety, abuse or wrong doing within the Company without fear of reprisal or victimisation. Further, assurance is also provided to directors and employees that prompt action will be taken to investigate the complaints made in good faith.

To ensure that investors do not suffer due to sudden or unplanned gaps in leadership, the Company has formulated a policy on succession planning for the Board and senior management. The Company recognises the importance of the process to Succession Planning to provide for continuity in the smooth functioning of the organisation. There are certain positions in the Company that are key to its current and future growth. It is, therefore, important that these positions are assigned to duly skilled and best possible incumbents. It is critical to fill up such positions well in time to avoid any leadership gap.

MANAGEMENT DISCUSSION & ANALYSIS

INDIAN ECONOMY

The outbreak of Covid-19 impacted India's growth recovery severely. As the financial year 2020-21 started, the whole country was soon under one of the strictest lockdowns anywhere in the world. The first quarter of 2020-21 was wiped out, with a huge contraction. Moreover, restrictions to people's movement not only severely affected incomes and consumption, but they also proved largely unsuccessful in containing the spread of the virus. As a result, the fall in economic activity proved to be larger than we had envisaged in mid-2020. However, the government took various measures to revive economy through structural reforms and initiatives. There were several attempts made by the Government which increased its impetus on making India a self-reliant nation. The initiative Atmanirbhar Bharat, priorities to MEMEs, financial support, liquidity and welfare, agriculture, power distribution, mining, health, rural employment, and housing sector reforms. And it focused on import substitution, reviving demand, and export-oriented industrialisation.

After a harrowing two consecutive quarters in view of Covid-19, the Indian economy started to gain momentum. The concerted efforts by the Government helped India see the light at the end of the tunnel in its third quarter with a growth of 0.4%. Going further, India is projected to grow at an impressive rate of 12.5% in 2021-22, growing at a much faster pace to make up for the unprecedented contraction of 8% in 2020-21 that it clocked during the COVID-19 pandemic in 2020.

OUTLOOK

India's economy, estimated to contract by 8% in 2020 due to the coronavirus pandemic, is forecast to record a stronger recovery in 2021 and grow by 12%. It is estimated

that India's current fiscal year budget points to make a shift towards demand-side stimulus, with an uptick in public investment. In the financial year India's economic growth is projected at 12.6% by Organization for Economic Co-operation and Development (OECD) which would enable India to retain its earlier tag of the fastest growing large economy in the world. The discretionary fiscal measures announced in India during the budget will add to the overall support. However, the V-shaped spike in Covid cases is expected to impact the 'V' shaped recovery projected for the Indian economy.

INDUSTRY OVERVIEW

Room Air Conditioners (RACs)

The India Room Air Conditioner Market is projected to grow at a CAGR of 14% to 15% between 2020-2026. Split air conditioners dominate the market with an estimated 88% share and the trend is expected to continue. There is a continual shift toward inverter ACs, a key contributory factor being the merger of energy ratings for fixed and inverter compressors, and the decreasing price differential between fixed and inverter ACs.

India room air conditioner market would register healthy growth in the coming years on account of strengthening residential sector, growing retail & hospitality sectors, rising construction activities across new housing societies along with establishment of SMEs & commercial hubs. Additionally, growth in number of construction projects across all metro & tier-2 cities along with increasing government spending towards public infrastructures would further increase the demand for room air conditioners in the country in the coming years. With pandemic forcing the working class to work from home, this shift is expected to fuel growth of RAC, along with replacement cycle.

MANAGEMENT DISCUSSION & ANALYSIS (Contd.)

Break-down of RAC sourcing (%)

BUSINESS OVERVIEW

About Amber

Amber, incorporated in 1990 has now evolved into a complete RAC solution provider with products ranging from CBU units to basket of components for RACs and HVAC industry. The company has 15 state-of-the-art manufacturing units across 5 states in India, equipped with latest and advanced technologies and 4 R&D facilities. It caters to all the top-10 AC brands in the country. Amber has increased its backward integrated capabilities over the last decade and has successfully acquired PICL, an electric motors company in 2012, followed by IL JIN in 2017 and Ever Electronics in 2018, which manufacture PCBAs in India.

Further in 2019, it acquired Sidwal, giving Amber access to the mobility-HVAC industry such as railways, defence, buses, metros, telecom and commercial ACs. It is headquartered in Delhi NCR with the capability to undertake the entire HVAC manufacturing process for mobility applications in-house. This has helped the Company enhance its presence in existing markets while entering new ones.

Room Air Conditioners

Contributing 55% to revenue, Amber's RAC segment includes manufacturing complete range of RACs including window air conditioners (WACs), indoor units (IDUs), and outdoor units (ODUs), of split air conditioners (SACs). The specifications of these RACs range from 0.75 ton to 2 ton, across energy ratings and types of refrigerants. The Company also manufactures Inverter RACs ranging from 1 ton to 2 ton. Amber also manufactures functional components of RACs like heat exchangers, motors & multi-flow condensers, and inverter PCBAs. It also manufactures other RAC components like sheet metal components, copper tubing, and injection moulding components.

Components

Amber manufactures components for other consumer durables and automobile application like case liners for refrigerators, plastic extrusion, sheet metal components. Amber is also a comprehensive manufacturer of printed

circuit board assemblies. These PCBAs find applications across air conditioners, washing machines, refrigerator, microwave, TVs and automobile industry.

Mobility Applications Air Conditioners

Business of Mobility Applications Air Conditioners caters diverse clients ranging from the Indian railways to metro rail, Bus, Defence and Telecom. Pioneering the all-indigenous development of Roof Mounted Modular Compact Air Conditioner for Rail Coaches in 1991, the Company has successfully developed and delivered 16,000 AC Units duly tested and approved by Research Design & Standards Organization (RDSO), Ministry of Railways, Government of India. These AC units were for higher speed trains like Shatabdi Express, Rajdhani Express for Indian Railways as well as Gatimaan Express & Tejas Express Trains and new Vande Bharat express which is also known as Train -18

STRENGTHS

Established market position and diversified clientele

Amber's key customers include leading RAC brands such as Bluestar, Daikin, Godrej, Hitachi, LG, Panasonic, Samsung, Voltas, and Whirlpool, who cumulatively control more than 75-80% of the RAC market in India. The product approval cycle, especially for leading brands, can be as long as 3-4 years for certain critical components and Amber has been supplying to all the major brands since over 5 years. Amber has been able to increase its client base due to its capability of customising and improving its product portfolio as per client requirements, providing end-to-end product solutions and shorter delivery times due to proximity of its units from client's plant locations.

Portfolio of components: Our wide range of offerings include Air conditioners and Non-Air conditioners components. With our product development expertise and capabilities in the manufacturing of RACs and components, we are a one-stop solutions provider for the RAC industry. In addition to designing and manufacturing complete WAC, IDUs and ODUs, we offer solutions for critical components like heat exchangers, multiflow condensers, PCBAs & motors for Air Conditioners, case liners for refrigerators, PCBAs for refrigerators, microwave,

MANAGEMENT DISCUSSION & ANALYSIS (Contd.)

washing machine, automobile, TV etc. We are not just witnessing impetus in our core business but also from our component segments.

Besides, we have successfully built our product portfolio after going through the longer approval cycle. The long validation cycle of functional components proves to be a key differentiator for us over our competitors. Today, we have gained confidence of our customers as we complete more than 8 eight years of average relationship with them.

Portfolio of mobility applications

Along with RAC and RAC components, its latest acquisition of Sidwal has expanded Amber's product portfolio. Sidwal is the market leader in railway/metro/bus/defence & telecom HVAC solutions with a dominant market share; it has a track record of supplying over 16,000 HVAC units for mainline coaches and over 2,000 HVAC units for metro coaches. This acquisition gives Amber entry into high entry barrier and long approval cycle industries such as Railways, Defence, Buses and Commercial ACs. It also enhances the addressable market size for Amber.

R&D and Innovation

Customers' demand for higher performance and top quality products is growing rapidly in the RAC industry. Amber believes high value added and technology-driven components will provide opportunities to capture shifts in customer preferences as well as evolving regulatory requirements, such as heightened energy efficiency requirement. Our high value added and innovative products, has helped us to become a preferred supplier to customers, thus taking the opportunity to consolidate our position with customers and increase the share of its supply need. To enhance the R&D capabilities we are undertaking a number of short-term and long term R&D initiatives. In addition, we intend to implement improvements to R&D processes through virtual validation and computer aided engineering analyses, rapid prototyping, accelerated testing and improved problem solving efficiency.

Backward integration

Amber currently manufactures 60% of the components for WAC; for split ACs, it manufactures 80% of the indoor unit and 65% in the outdoor unit. Barring compressors, packaging and C class items, Amber manufactures the entire range of components needed for RAC manufacturing. Amber excels in product development and manufacturing solutions with inhouse designing, tooling, and validating to final assembling and testing capabilities. Most of the operations are backward-integrated and the processes are carried out in-house.

Geographical Spread

Amber's has a total of 15 manufacturing facilities which are spread across India. The strategically located plants of the Company near to the customer clusters allow just in time and cost-effective delivery to the customers. Our multiple manufacturing locations also allow us optimally utilise facilities thereby enabling us to effectively distribute manufacturing across them. This helps in handling simultaneous demand schedules of multiple customers on just in time basis.

OPPORTUNITIES AND THREATS

Room Air Conditioner

- Increases in per capita income over time: India's current per capita income equals China's per capita income of 2007. We expect India's per capita income to increase at a CAGR of 7% (on the basis of average GDP growth of 6-7% and population growth of 1% - based on GSe), vs China's last decade CAGR of 9.5%, and expect India to reach China's current per-capita income in the next 10-12 years.
- Improved availability of electricity: India's electricity penetration has increased from 65% in 2010 to 99% in 2019 through the launch of schemes such as DDUGJY (Deen Dayal Upadhyaya Gram Jyoti Yojana) & Saubhagya. We expect the expansion of the power grid coupled with a better power supply to further support AC penetration in the country.
- Gradual recovery in real estate: India's real estate market has softened over the past few years with a sharp decrease in the number of new launches due to multiple reforms like the Real Estate Regulatory Act (RERA) and demonetization. However, with unsold inventory declining (peaked in CY Q4 2016) we see a pick up in real estate activity over the medium term as the supply overhang declines.
- Rising temperatures: India has seen a sharp rise in temperatures over the past decade. The Indian Meteorological Department forecasts warmer than normal temperatures with Northwest and Central India likely to be above normal by more than 1 degree Celsius in the next few years. The National Academy of Sciences in the US estimates India to have one of the highest potential for ACs based on its higher annual CDDs — a cooling degree day (CDD) is a measurement designed to quantify the demand for energy needed to cool a building. It is the number of degrees that a day's average temperature is above 18 degrees Celsius.
- Changing perception among Indian consumers who now see ACs as a utility product over luxury product alongwith shortening of replacement cycle.
- Work from home culture has also contributed in the growth of the RAC industry.

MANAGEMENT DISCUSSION & ANALYSIS (Contd.)

Government impetus on curbing imports opens a large opportunity

- Governments focus on Self Reliant (Atma Nirbhar) India has led to special focus on the RAC Industry. The total import of RACs in India stands at INR 40bn, 30% of the industry. Apart from this, RAC component imports stand at INR 70bn, thus taking the total RAC and component imports to INR 110bn. Of this, 70% flows in from China and Thailand.
- Also, in the month of Oct-2020, the Government banned import of refrigerant filled RACs.
- This opens up a significant immediate opportunity for the outsourcing industry. Imports of CBUs are estimated at 2 million units (INR 40bn), representing 30% of industry volumes of 7 million units (INR 140bn). Of this, 75-80% comprises CBUs pre filled with refrigerants, forming a near term opportunity of INR 30bn- 32bn.
- While all import business may not immediately shift to local players, the move is well thought out. Some AC manufacturers have increased in-house manufacturing capacity, but many importing companies do not have local manufacturing facilities. Outsourced players like us will offer them solution of an assembling line to meet their near term demand, as they progress to shift for local production over 18-24 months. We believe this would increase the share of outsourcing of ACs from 40% to 50-53%.
- The PMP (Phased Manufacturing Programme), which was successfully implemented in the mobile phone category, is set to be implemented for ACs. Under PMP, the government plans to restrict imports of components/equipment in the 1st phase by raising duties and introducing import restrictions on motors, compressors, PCBAs, etc. over a 5 year period. Under Phase 2, raw materials such as copper and aluminium will be indigenised. The government aims to create wide scale manufacturing infrastructure for RAC components in India, which would help curb imports and provide export opportunities. The same was implemented for compressors, for which the industry is witnessing a growth in consumption of domestically manufactured compressors..
- The Government recently extended the Product Linked Incentives (PLI) scheme to ACs, thus making it one of the 12 champion sectors identified to make India a global manufacturing hub. The scheme is targeted at substituting imports of components, which currently stand at ₹ 110bn by reducing the disability factor by 5%. The incentive amount proposed for RACs under the PLI scheme stands at ₹ 50bn. The incentive rate is 4-6%, the planned output over the financial year 23-28 (5 years) could be almost ₹ 1.25tn. At the end of 10 years, industry bodies such as CEAMA

and RAMA expect annual sales to reach ₹ 1tn vs. ₹ 198bn currently. The scheme is expected to increase domestic value addition from 25% to 75%. This is also likely to open up opportunities for exports from India, which are currently negligible.

HVAC & Mobility Segment

- Rising number of offices and other commercial buildings, and hospitality sector's expansion will drive the HVAC segment's demand
- Increased Government investments towards metro stations and airports have increased the adoption of HVAC systems
- The current under progress of 1700 km long metro rail network in 27 cities in India will bolster demand for mobile ACs
- The Indian railway's plan to upgrade all its trains capable of running at a maximum speed of 120 kmph and beyond with special air conditioned coaches is expected to demand for more HVAC systems

THREATS

Seasonality and general slowdown: Amber's sales are directly co-related to the performance of the RAC industry. Any slowdown in the industry because of general economic conditions, seasonal trends, evolving regulatory requirements, government initiatives, trade agreements and other factors can impact top line for Amber.

Setting up of local facilities by large Chinese manufacturers: Large oversea manufacturers from China and others can set-up large plants for various components which can increase competition for Amber. Foreign companies can setup large plants with high level of automation, thus achieving economies of scale that can reduce price points of components, thereby reducing industry attractiveness.

Subsequent Waves of COVID-19/Pandemic:

With the second wave of COVID-19, the Government again imposed lockdowns and related restrictions to curb the spread of virus. This has resulted in disruptions to the business activities in certain states. This poses a threat to the sustenance of growth momentum and has a potential to adversely impact our operational performance. Going forward, the new strain of the virus, is expected and can cause disruptions which may impact our value creation process, thereby negatively impacting Company's progress.

FINANCIAL PERFORMANCE

On a consolidated basis, total revenue stood at ₹ 303,052 Lakh in financial year 2020-21 as compared to ₹ 396,279 Lakh in financial year 2019-20. Further, the Company achieved Operating EBIDTA of ₹ 22,858 Lakh in financial year 2020-21 as compared to ₹ 32,617 Lakh in financial year 2019-20. Net profit stood at ₹ 8,328 Lakh for financial year 2020-21.

Risks and Concern

Management recognizes the following principal risks that may influence decisions made by investors given their significant impact on business conditions as stated in the securities report, and among matters pertaining to accounting status, consolidated companies' financial status and business performance, as well as cash flows. Our risk management system addresses the increasingly complex risks that we face in our day-to-day operations. The risk management system conducts risk analysis of economic and social changes and implements preventive measures that are best suit for the Company. The following risks are attributable to our business.

Risks related to changes in the market environment

The Company develops and manufactures products in each of its business domains, chiefly air conditioning, as it grows its business nationally and globally. The Company strives to raise market share by strengthening its sales network, offer competitive products and services, and to cut fixed costs in order to expand its business and enhance profitability. Nonetheless, in the event of rising instability in the political situation, economic contraction, inclement weather, sweeping pandemic or other cause of deteriorating market conditions, there is a possibility that demand will decline, or also for its products, and that business expansion and increase in profitability will not progress as planned. As a result, there is a possibility of an impact on the Company's financial situation and management performance.

Pricing pressure from customers, commodity, and currency fluctuations: Clients often pursue price reduction negotiations with suppliers as their volumes increase. Hence, continuous market share gains and widespread client base is essential to improve profitability. Also, sharp fluctuations in commodity prices and currency can impact gross margins for Amber.

In addition, because the Company engages in foreign currency-denominated transactions in raw materials and parts procurement and in the sale of goods and services, there is a possibility that fluctuations in currency exchange rates could impact manufacturing costs and

sales performance. To avoid such currency exchange rate-related risks, the Company undertakes short-term risk hedging via forward exchange contracts and similar instruments. Amber also undertakes medium to long term measures to continuously adjust procurement and manufacturing operations and optimize them for changing currency exchange rate trends, and to balance imports and exports in each currency. Through this, the Company works to realize a business structure that is not greatly impacted by fluctuations in currency exchange rates.

Risks related to technology, products, and services:

The Company aims to generate customer value and social value, and makes concerted efforts to develop the technology, products, and services that will consistently lead to customer satisfaction. However, the emergence of new technology, products or services that differ from those anticipated by the Company, or abrupt changes to the market such as rapidly escalating competition, including from new market entrants, may lead to the necessity to amend or transform technology or product strategy. In that event, delays in bringing about new products or services, or launching new businesses, will cause the Company to lose its advantageous position against competitors or new market entrants. As a result, this may impact the Company's financial situation and management performance.

In-house sourcing by large brands: If RAC brands discontinue outsourcing of manufacturing of their products or reduce the number of components outsourced by them or if customers decide to perform these functions internally, then Amber's future growth will be limited thereby impacting sales and profitability.

Risks related to procurement: In the event management conditions at suppliers deteriorates, or if natural disasters or accidents occur, the Company makes efforts to ensure that raw materials, parts, and other items are supplied in a stable and timely manner, and at reasonable prices. This can be achieved by diversifying its suppliers and dispersing sourcing geographically, as well as by creating parts commonalities and standardization, among other efforts. However, in the short term, it may be difficult to take the measures described above, and in the event of an unforeseen situation, the Company could experience shortages of raw materials and parts, delays in delivery, and other problems. In this case, there is a possibility that this may have an impact on the Company's business. In addition, the Company and its suppliers set prices of raw materials and parts in accordance with a contract. Amber strives to enable procurement at stable prices through long-term contracts and other means, although abrupt changes in the supply and demand environment or fluctuations in exchange rates may make sharp rises in procurement

MANAGEMENT DISCUSSION & ANALYSIS (Contd.)

prices unavoidable. In such an event, there is a possibility that there will be an impact on the Company's financial situation and management performance.

Risks related to climate change and other environmental issues:

Amber develops and spreads energy conserving, high efficiency air conditioners with lower global warming potential and generates solutions for the efficient use of energy throughout entire buildings. In this way it is taking aggressive action to curb greenhouse gas emissions, and to protect the global environment. However, given deepening global environmental problems, in the event that regulations covering use and emissions of greenhouse effect causing refrigerant gas and regulations pertaining to energy conservation become more stringent, there is a possibility of increased costs necessary to adhere to such regulations. In addition, in the event that taking a sufficient response to these regulations is difficult and delays occur, product sales may be hindered, and there may be an impact on smooth business operations. In addition, Amber takes every possible measure to prevent environmental pollution from its business activities, including not only compliance with regulations but also the establishment of even stricter voluntary standards. The emergence of such risks entails a possibility of an impact on the Company's financial situation and management performance.

HUMAN RESOURCE

Amber, as an organisation, has always strived for embedding the right culture, promote Company values and sustain strong employee identification with those values. Amber implements a Human Resources strategy that reconciles economic performance, human progress and societal contributions. Along with its actions to promote diversity, the HR policy also aims to prepare the Company for changes in its environment. It thrives upon anticipating, developing, and evolving skills that are adapted to a changing market which are aligned to its varied business lines.

For many years, the Company has invested in the development of a proactive culture of occupational health, safety, and security, in addition to the traditional reactive approach. This proactive culture reinforces the factors that contribute positively to safety.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an adequate internal control framework in place. It is designed to provide a reasonable assurance with regard to maintenance of proper accounting records for ensuring reliable financial reporting, monitoring operations and compliance with applicable laws and regulations. The Company has documented policies and procedures covering all financial and operating functions. The Audit Committee regularly reviews significant internal audit findings and closure of all agreed actions and progress of the audit plan. The Committee monitors the adequacy and reliability of financial reporting, internal control and risk management systems.

Internal audit also carries out independent testing of operating effectiveness of internal controls. Based on the assessment carried out and evaluations of the results, the Board of Directors is of the opinion that the Company had an adequate Internal Financial Controls system that operated effectively as of 31 March 2021.

CAUTIONARY STATEMENT

The Statement in this Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations, or predictions may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include demand-supply conditions, changes in Government and international regulations, tax regimes, economic developments within and outside India and other factors such as litigation and labour relations.

Note : Cash and cash equivalents mentioned above includes other bank balances, bank deposits with more than 12 months maturity and investment in bonds.

12. EMPLOYEE STOCK OPTION SCHEMES

The Company had introduced an employee stock option plan namely "Amber Enterprises India Limited - Employee Stock Option Plan 2017" ("ESOP 2017"/ "Plan") to attract, retain, incentivise and motivate the Company's and its Subsidiaries' eligible employees vide its members' special resolution dated 26 September 2017 prior to its initial public offer ("IPO") of shares.

In the meantime, IPO was made with listing of shares done on 30 January 2018 on the recognised stock exchanges. The Company has not granted any employee stock options ("Option") under the Pre-IPO Plan so far. In terms of Regulation 12(1) of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ("SEBI SBEB Regulations"), any fresh grant of Options can be made under ESOP 2017 in case such ESOP 2017 is in compliance with the SEBI SBEB Regulations and is ratified by the members

of the Company by way of special resolution post listing.

The ESOP 2017 as originally introduced was already in conformity with the SEBI SBEB Regulations; however, it was aligned by reflecting few cosmetic changes as per prevailing regulations.

Further a total of 5,18,300 (Five Lakh Eighteen Thousand Three Hundred) Options/ shares were originally reserved under ESOP 2017 out of which no Option has been granted so far. It is appreciated that the Company would need more quantum of Options in view of its ever-increasing human resources particularly with a view to attract, retain, and motivate its critical resources and growth drivers, existing and joining in future, for contribution towards sustained corporate growth and profitability and reward them in line with value created and wherever required with appropriate performance vesting conditions.

In this background, ESOP 2017 has been amended by increasing the Options reserve by an additional quantum of 4,92,500 (Four Lakh Ninety Two Thousand Five Hundred) Options. The source of corresponding number of additional shares shall be from fresh issue of shares. With this, the total Options reserve under ESOP 2017 shall be 10,10,800 (Ten Lakh Ten Thousand Eight Hundred) Options. This amendment is not detrimental to any employee and benefit of such amendment shall be for such employees who shall be eligible for grant under the ESOP 2017.

The Nomination and Remuneration Committee ("Committee") and the Board of Directors of your Company had approved the aforesaid proposals of ratification and amendment vide their respective resolutions dated 7 November 2020.

Consent of the members has been sought by way of a special resolution pursuant to the SEBI SBEB Regulations via postal ballot after which the Company would be able to grant Options under ESOP 2017 to the Company's and its Subsidiaries' eligible employees.

The brief details of the Employees Stock Option Scheme are detailed as below:

DIVIDEND DISTRIBUTION POLICY

1. PREAMBLE

Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016 (the **"Regulations"**) mandated top five hundred listed companies (based on market capitalisation of every financial year) to formulate a Dividend Distribution Policy, which shall be disclosed in its Annual Report and on its website.

The policy, in the interest of providing transparency to the shareholders, sets out the circumstances and different factors for consideration by the Board at the time of deciding on distribution or of retention of profits. In view of the said requirement, the Board of Directors of the Company recognises the need to lay down a broad framework with regard to the distribution of dividend to its shareholders and utilisation of the retained earnings. The Policy reflects the intent of the Company to reward its shareholders by distributing a portion of its profits after retaining sufficient funds for the business needs and growth of the Company.

The Company would ensure to strike the right balance between the quantum of the dividend paid and amount of profits retained in the business for various purposes. The Board of Directors will have regards to this policy while declaring/recommending dividends on the behalf of the Company. Through this policy, the Company would strive to maintain a consistent approach to dividend pay-out plans.

The Board of Directors (the **"Board"**) of Amber Enterprises India Limited (the **"Company"**) at its meeting held on 8 February 2019 has adopted this Dividend Distribution Policy (the **"Policy"**), pursuant to the terms of Regulation 43A of the SEBI (LODR) Regulations, 2015 read with SEBI (LODR) (Second Amendment), 2016. The policy shall become effective from the date of its approval by the Board i.e. 8 February 2019.

2. DEFINITIONS

- 2.1 **"Board"** shall mean Board of Directors of the Company;
- 2.2 **"Companies Act"** shall mean the Companies Act, 2013 and Rules thereunder, notified by the Ministry of Corporate Affairs, Government of India, as amended;

- 2.3 **"Dividend"** includes any interim dividend;
- 2.4 **"Listed Entity / Company"** shall mean Amber Enterprises India Limited;
- 2.5 **"Policy"** means Dividend Distribution Policy;
- 2.6 **"Stock Exchange"** shall mean a recognised Stock Exchange as defined under clause (f) of Section 2 of the Securities Contracts (regulation) Act, 1956.

3. POLICY

A. PARAMETERS AND FACTORS FOR DECLARATION OF DIVIDEND

The dividend pay-out decision of the Board depends upon the following financial parameters, internal and external factors :

Financial parameters and Internal Factors:

- Operating cash flow of the Company;
- Profit earned during the year;
- Profit available for distribution;
- Earnings Per Share ("EPS");
- Working capital requirements;
- Capital expenditure requirements;
- Business expansion and growth;
- Likelihood of crystallisation of contingent liabilities, if any;
- Additional investment in subsidiaries and associates of the Company;
- Up gradation of technology and physical infrastructure;
- Creation of contingency fund;
- Acquisition of brands and business;
- Cost of Borrowings;
- Need for conservation of cash due to economic downturn;
- Past dividend payout ratio / trends;

External Factors:

- Economic environment;
- Government regulations;
- Capital markets;
- Global conditions;
- Statutory provisions and guidelines;
- Dividend payout ratio of competitors;

ANNEXURE - A (Contd.)

B. CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS OF THE COMPANY MAY OR MAY NOT EXPECT DIVIDEND

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders of the Company and the amount of profit to be retained in business. The decision seeks to balance the dual objectives of appropriately rewarding shareholders through dividends and retaining profits in order to maintain a healthy capital adequacy ratio to support future growth. The shareholders of the Company may not expect dividend in the following circumstances, subject to discretion of the Board:

- Proposed expansion plans requiring higher capital allocation;
- Decision to undertake any acquisitions, amalgamation, merger, joint ventures, new product launches etc. which requires significant capital outflow;
- Requirement of higher working capital for the purpose of business of the Company;
- Proposal for buy-back of securities;
- In the event of loss or inadequacy of profit;

C. UTILIZATION OF THE RETAINED EARNING

The Board may retain its earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run. The decision of utilisation of the retained earnings of the Company shall be based on the following factors:

- Market expansion plan;
- Product expansion plan;
- Increase in production capacity;
- Modernisation plan;
- Diversification of business;
- Long term strategic plans;
- Replacement of capital assets;
- Where the cost of debt is expensive;
- Dividend payment ;
- Such other criteria's as the Board may deem fit from time to time.

D. Rate/ Quantum of Dividend:

It has always been the Company's endeavour to deliver sustainable value to all its stakeholders. The Company will strive to distribute an optimal

and appropriate level of the profits earned by it in its business, to the shareholders, in the form of dividend. The Company would maintain a dividend pay-out as may be determined by the Board from time to time, considering the general business factors and other significant parameters specified in this policy.

E. MANNER OF DIVIDEND PAYOUT

In case of final dividend:

- i. Recommendation, if any, shall be done by the Board, usually in the Board meeting that considers and approves the annual financial statements, subject to approval of the shareholders of the Company.
- ii. The dividend as recommended by the Board shall be approved/declared at the Annual General Meeting of the Company.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration, to those shareholders who are entitled to receive the dividend on the record date/book closure period, as per the applicable law.

In case of interim dividend:

- i. Interim dividend, if any, shall be declared by the Board.
- ii. Before declaring interim dividend, the Board shall consider the financial position of the Company that allows the payment of such dividend.
- iii. The payment of dividends shall be made within the statutorily prescribed period from the date of declaration to the shareholders entitled to receive the dividend on the record date, as per the applicable laws.
- iv. In case no final dividend is declared, interim dividend paid during the year, if any, will be regarded as final dividend in the Annual General Meeting.

F. PARAMETERS TO BE ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES

Since the Company has issued only one class of equity shares with equal voting rights, all the members of the Company are entitled to receive the same amount of dividend per share. Parameters for dividend payments in respect of any other class of shares will be as per the respective terms of issue and in accordance with the applicable regulations and will be determined,

ANNEXURE - A (Contd.)

if and when the Company decides to issue any other classes of shares.

4. THE POLICY SHALL NOT APPLY TO :

- Determination and declaration of dividend on preference shares, as and when issued by the Company, as the same will be as per the terms of issue approved by the shareholders;
- Distribution of dividend in kind, for instance- by issue of fully or partly paid bonus shares or other securities, subject to applicable law;

5. CONFLICT IN POLICY

In the event of any conflict between this Policy and the provisions contained in the regulations, the regulations shall prevail.

6. DISCLOSURES

The Dividend Distribution Policy shall be disclosed in the Annual Report and on the website of the Company i.e. www.ambergroupindia.com

7. POLICY REVIEW AND AMENDMENTS

This Policy would be subject to modification in accordance with the guidelines / clarifications as may be issued from time to time by relevant statutory and regulatory authority. The Board may modify, add, delete or amend any of the provisions of this Policy. Any exceptions to the Dividend Distribution Policy must be consistent with the Regulations and must be approved in the manner as may be decided by the Board.

To comply with Regulation 34 read with Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended [**"SEBI (LODR) Regulations"**], the report containing the details of Corporate Governance of Amber Enterprises India Limited (**"the Company" / "Amber"**) is as follows :

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

At Amber Enterprises India Limited ('Company'/'Amber'), thrust is on ensuring good conduct and governance by following transparency, fairness, integrity, equity and accountability in all dealings with customers, vendors, employees, regulatory bodies, investors and community at large. Our Corporate Governance is a reflection of us – our value system, work culture and thought process.

The key focused attributes to achieve good conduct and governance are as under:

Transparency: It includes informing the Company's policies and actions to those towards whom it has responsibility. This also includes disclosure without hampering the interests and privacy of the Company and those of its stakeholders.

Fairness: It refers to working towards achieving the goal and enhancing shareholders' value without any conflict of interest or any bias.

Integrity: This is to ensure independent verification and correct presentation of the Company's financial position.

Equity: It includes treating various stakeholders equally and providing effective mechanism for redressal.

Accountability: It refers to the obligation and responsibility to give an explanation or reason for the Company's actions and conduct.

Your Company believes that good corporate governance is essential for achieving long-term corporate goals and enhancing stakeholder value. Amber is committed to conduct its business in compliance with the applicable laws, rules, regulations and statutes. Amber believes in building and retaining the trust of its stakeholders by placing special emphasis on formulation and compliance of principles of corporate governance. The governance principles ingrained in the value system of the entity are based on conscience, openness, fairness and professionalism, which have built strong foundation of trust and confidence in the market.

The Company has constructed its vision and business strategy around these principles in such a way that it would help the organisation to continuously improve its position in a fast-changing world. The Company strives

at doing the "right things" in the "right manner" in the interest of multiple stakeholders, which would attract sound financial status, brand value, sustainability and reliability.

Corporate governance refers to the manner in which a corporation is governed, directed and managed. Corporate governance essentially involves balancing interests of all the stakeholders, such as shareholders, Board of Directors, management team, employees, customers, suppliers, bankers, government and the community. Corporate governance facilitates effective, entrepreneurial and prudent management which can deliver sustainable business results over a long term. Good corporate governance creates a mechanism of checks and balances to ensure that the decision-making powers vested in the executive management are used with care and responsibility to meet stakeholders' aspirations and societal expectations.

We, at Amber, continuously strive to adopt and implement the best in class governance practices. Responsible corporate conduct is integral to the way we do our business. Our actions are governed by our values and principles, which are reinforced at all levels within the Company and entire group. The Company's governance framework enjoins the highest standards of ethical and responsible conduct of business to create value for all stakeholders. We firmly believe, that for our continued success, we will need to adhere to the highest standards of corporate behaviour towards every stakeholder and the society at large. Over the years, we have strengthened our governance practices, and it is our endeavour to achieve the best in class governance standards, benchmarked globally.

Corporate Governance has always been intrinsic to the management of the Business and passion for good governance ingrained in the organisation. Amber has deeply ingrained the Corporate Governance in its value system and is reflection of principles entrenched in our values and policies.

We at Amber strive to adopt and implement robust Board governance processes, internal control systems and processes, and strong audit mechanisms. Corporate Governance basically involves Company's Code of Business Conduct, Corporate Governance Guidelines and charters of various subcommittees of the Board and Company's Disclosure Policy.

ANNEXURE - H (Contd.)

H. Commodity price risk or Foreign Exchange Risk and Hedging Activities in terms of Regulation 34(3) read with clause 9(n) of Part C of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015:

1. Risk management policy of the Company with respect to commodities including through hedging

ANNEXURE - H (Contd.)

Amber Enterprises Limited has an approved risk management policy. The key objectives of the policy are

- Identification and categorisation of potential risks
- Assessment and mitigation of risks
- To monitor and assure continuous growth and to sustain market leadership in the HVAC industry, domestically and globally.

Commodity price risk is the financial risk on an entity's financial performance/profitability upon fluctuations in the prices of commodities. As a resource intensive manufacturing operations, the Company is exposed to a variety of market risks, including the effects of changes in commodity prices and exchange rates.

The Company procures components from its vendors for most of its business requirements, who in turn buy necessary commodities and process the same.

Hence, direct purchase of commodity by Company is marginal, but the changes in prices of commodities impact procurement cost of components and parts

The key commodities which are used in the manufacture of Air Conditioners are base metals (steel, aluminum), resin, electronic components and copper. Sharp fluctuations in commodity prices can create business challenges that can affect production costs, product pricing and earnings.

The risk management policy is designed to manage the impact of commodity price fluctuations across its value chain to effectively manage its financial performance and profitability. Multiple levels are deployed to mitigate these risks and the selection of a lever depends on the cost-benefit analysis and the extent of exposure including its assessment of ability to pass adverse fluctuation to the customer by way of price increases. The Company works on an ongoing basis on cost optimisation, weight reduction and process improvement exercises.

The Company also considers localisation of imports/global sourcing to ensure lowest cost option in sourcing of parts/raw material.

2. Exposure of the Company to commodity and commodity risks faced by the Company throughout the year: a) Total exposure of the Company to commodities in INR; and b) Exposure of the Company to various commodities.

Based on the assessment by the Company and after factoring the ability to optimise costs and pass on prices to customers, no individual commodity is likely to adversely impact the financial performance/profitability beyond its materiality threshold approved by the Board.

Hence, commodity level information is not being provided hereunder:

Commodity Name	Exposure in towards the particular commodity	Exposure in quantity terms towards the particular commodity % of such exposure hedged through commodity derivatives	% of such exposure hedged through commodity derivatives				
			Domestic market		International market		Total
			OTC	Exchange	OTC	Exchange	

As of the reporting date i.e. 31 March 2021 the Company did not have any open contracts/derivative and consequential gains or losses arising therefrom.

The Company follows prudent risk management framework. A detailed note on commodity price risk & foreign exchange risks alongwith their mitigation plan is duly given in Management Discussion and Analysis forming part of this Annual Report. Further, details of the hedged and unhedged positions are available in the notes to standalone financial statements in the Annual Report.

Key audit matter	How our audit addressed the key audit matter
<p>Impairment assessment of investments in subsidiary companies</p> <p>As described in Note 2 and 9 to the standalone financial statements, as at 31 March 2021, the Company has investments aggregating ₹ 34,015.87 lakhs in its subsidiary companies. In view of the above, the management of the Company, during the year ended 31 March 2021, has carried out an impairment test for such investments, whereby the carrying amount of the investments were compared with their fair values for which the management has prepared detailed cash flow projections, based on business plans of the subsidiary companies, expected growth rates in the business and other market related factors including the discount rates, etc.</p> <p>While the above impairment test resulted in an impairment provision to the extent of the net carrying value of the investment in Appserve Appliance Private Limited aggregating ₹ 170 Lakh had already been recognised in the previous years. Considering the materiality of the amounts involved, significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of such non-current investments as a key audit matter.</p>	<p>Our audit procedures included, but were not limited to the following:</p> <p>a) We obtained an understanding of the management process for identification of possible impairment indicators and process performed by the management for impairment tests;</p> <p>b) We understood, evaluated and tested the controls around management's assessment of the impairment indicators and the impairment tests performed;</p> <p>c) We reconciled the cash flow projections to the business plans approved by the Company's Board of Directors;</p> <p>d) We challenged the management on the underlying assumptions used for the cash flow projections including the expected growth rates, considering evidence available to support these assumptions and our understanding of the business;</p> <p>e) We assessed the reasonableness of the assumptions used and appropriateness of the valuation methodology applied. Tested the discount rates and long-term growth rates used in the forecast vis-a-vis industry forecasts and the recent changes in economic environment, where deemed appropriate;</p> <p>f) We involved auditor's experts to assess the appropriateness of the valuation model used by the management and the assumptions used relating to discount rates, risk premium, industry growth rates, etc., to assess their reasonability;</p> <p>g) We evaluated the sensitivity analysis performed by management in respect of the key assumptions such as discount and growth rates to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation;</p> <p>h) We assessed the appropriateness and adequacy of the disclosures made by the management for the impairment losses recognised in accordance with applicable Indian Accounting Standards.</p>

Key audit matter	How our audit addressed the key audit matter
<p>Product development - Intangible assets</p> <p>As disclosed in note 2, 7 and 8 to the standalone financial statements, the Company develops various product models and performs trial runs for enhancing their performance and increasing their efficiency. The Company has a research and development department, which oversees such development process and conducts trial runs. The Company has capitalised ₹ 2,709.19 lakh during the year ended 31 March 2021 under intangible assets and intangible assets under development, which comprises of raw material cost (net of scrap sales) and certain attributable overheads. The Company capitalises the product models when they are ready for sale in the active market.</p> <p>Such developmental activities represent a significant part of the business and the Company uses judgement to determine classification of expenditure into research and development phase wherein, as per the applicable accounting guidance, expenditure incurred on research activities is required to be recognised in the statement of profit and loss and development costs may be capitalised, subject to specific conditions. Such assessment includes assessing whether the product being developed is commercially feasible, whether the Company has adequate technical, financial and other required resources to complete the development and whether the costs will be fully recovered through future sale of the product.</p> <p>Considering the materiality of the amounts, significant judgement involved in determining the appropriate quantum of development expenses to be capitalised, including those incurred on trial runs, this matter has been considered as a key audit matter for the current year audit.</p>	<p>Our audit work included, but was not restricted to performing the following procedures:</p> <ol style="list-style-type: none"> a) We obtained an understanding of management's process for assessing costs forming part of research and development activities and whether such costs meet recognition criteria in terms with Indian Accounting Standard 38, Intangible Assets; b) We assessed the design and implementation of controls in respect of expenses incurred for trial runs, in addition to testing the effectiveness of key controls operating across the business; c) We obtained a schedule of all the costs capitalised by the company and on test-check basis, verified that the cost of only those raw materials, that have been used for the purpose of development activities and trial runs, were capitalised, as applicable; d) We also assessed the reasonableness of overheads allocated along with consumption of raw material; e) We further evaluated the commercial viability of the product by considering other information obtained during the audit, including products being developed in previous years, the stage of related sales prospects and, where appropriate, the level of sales generated to determine whether the status and performance of developed products corroborated management's assertions over the technical feasibility and the ability to generate 'probable' future economic benefits; f) We also ensured that the carrying value of these intangible assets under development will be fully recovered by the Company and there are no impairment indicators for these assets. For this assessment, we obtained the product assessment which are being currently developed by the Company and discussed the same with the management, including research and development personnel. Also, we reviewed the product assessment in reference to developed products, which were capitalised in the earlier years and being currently sold by the Company; g) We have evaluated the adequacy of disclosures made by the Company in the financial statements in view of the requirements as specified in the Indian Accounting Standards.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Information other than the Financial Statements and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Annual Report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

8. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the IndAS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

10. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

INDEPENDENT AUDITOR'S REPORT (Contd.)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
17. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
18. Further to our comments in Annexure I, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
- b) in our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) the standalone financial statements dealt with by this report are in agreement with the books of accounts;
- d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
- e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act;
- f) we have also audited the internal financial controls with reference to standalone financial statements of the Company as on 31 March 2021, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date, and our report dated 22 May 2021 as per Annexure II expressed unmodified opinion; and
- g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

INDEPENDENT AUDITOR'S REPORT (Contd.)

- i. the Company, as detailed in note 45 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2021;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021; and
- iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021.

ANNEXURE I

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has granted an unsecured loan to a company covered in the register maintained under Section 189 of the Act; and with respect to the same:
 - (a) in our opinion the terms and conditions of grant of such loans are not, prima facie, prejudicial to the company's interest.
 - (b) the schedule of repayment of principal and payment of interest has been stipulated and the receipts of the principal amount and the interest are regular;
 - (c) there is no overdue amount in respect of the loan granted to such company.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, goods and service tax, Octroi, duty of excise and value added tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in lakh)	Amount paid under Protest (₹ in lakh)	Period to which the amount relates	Forum where dispute is pending	Remarks, if any

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank or financial institution during the year. The Company did not have any outstanding loan or borrowings to government and debentures during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments). In our opinion, the term loans were applied for the purposes for which the loans were obtained, though idle/surplus funds which were not required for immediate utilization have been invested in liquid investments, payable on demand.
- (x) No fraud by the Company or on the company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) Managerial remuneration has been paid and provided by the Company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.
- (xiv) During the year, the Company has made private placement of shares. In respect of the same, in our opinion, the Company has complied with the requirement of Section 42 of the Act and the Rules framed thereunder. Further, in our opinion, the amounts so raised have been used for the purposes for which the funds were raised.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE II

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Amber Enterprises India Limited ('the Company') as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to the standalone financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements

and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the standalone financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to the Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to the standalone financial statements, including the possibility of collusion or improper management override of controls, material

ANNEXURE II (Contd.)

misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2021, based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021

1. CORPORATE INFORMATION AND STATEMENT OF COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (IND AS)

Amber Enterprises India Limited (the "Company"), having its registered office situated at C-1, Phase II, Focal Point, Rajpura Town, Punjab - 140401, India, incorporated in 1990, under the Companies Act, is engaged in the business of manufacturing of consumer durable products. Currently, the Company has ten manufacturing facilities in India.

These standalone financial statements ('financial statements') of the Company have been prepared to comply in all material respects with accounting principles generally accepted in India, including Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Companies Act, 2013 (the "Act"), as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2021 were authorised and approved for issue by the Board of Directors on 22 May 2021. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared on accrual and going concern basis under historical cost convention except for certain financial instruments and plan assets, which are measured at fair values. The accounting policies are applied consistently to all the periods presented in the financial statements.

The significant accounting policies and measurement bases have been summarised below.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and as per terms of agreements wherever applicable. The Company has considered a normal operating cycle of 12 months. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

b. Revenue recognition

Sale of goods

Revenue arises mainly from the sale of goods. To determine whether to recognise revenue, the Company follows a 5-step process:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations

- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognizing revenue when (or as) performance obligation(s) are satisfied.

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both. Revenue is measured at fair value of consideration received or receivable, after deduction of any trade discounts, volume rebates.

Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers. A receivable is recognised when the goods are delivered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

Revenue from tool development and job charges

Revenue in respect of tool development and job charges is recognised as per the terms of the contract with the customers.

Interest income

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR) i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets. The future cash flows

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

include all other transaction costs paid or received, premiums or discounts if any, etc.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

c. Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and intermediate products (including manufactured components): cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on first in, first out basis.
- Stores and spares, consumables and packing materials cost includes direct expenses and is determined on the basis of first in first out method.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

d. Income taxes

Tax expense recognised in the statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Current tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (i.e. in OCI or equity depending upon the treatment of underlying item).

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused

tax loss or credit. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside statement of profit and loss (in OCI or equity depending upon the treatment of underlying item).

e. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f. Foreign currency transactions

The financial statements are presented in Indian Rupee (₹) which is also the functional currency of the Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other income/expenses, as the case maybe.

g. Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Non-derivative financial assets

Subsequent measurement

- i. **Financial assets carried at amortised cost** – A financial asset is measured at the amortised cost, if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- ii. **Investments in equity instruments** – The Company subsequently measures all equity investments (other than subsidiaries) at fair value (either through profit or loss or through other comprehensive income). Dividends from such investments are recognised in the statement of profit or loss as other income when the Company's right to receive payments is established.

- iii. **Financial assets carried at fair value through other comprehensive income (FVTOCI)** – A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling the financial asset. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses and reversals in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks

of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables: In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets: In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

De-recognition of financial assets

A financial asset is primarily de-recognised when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement at amortised cost

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Subsequent measurement at fair value

The Company has classified contingent consideration under business combination as financial liability. Such financial liability is subsequently measured at fair value with changes in fair value recognised in the statement of profit and loss.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

i. Investments in subsidiaries

The Company has measured for its investment in subsidiaries at cost in its financial statements in accordance with Ind AS 27, Separate Financial Statements. Profit/loss on sale of investments is

recognised on the date of sale and is computed with reference to the original cost of the investment sold.

j. Property, plant and equipment ('PPE')

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and definition of asset is met. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

In case an item of property, plant and equipment is acquired on deferred payment basis, interest expenses included in deferred payment is recognised as interest expense and not included in cost of asset.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on straight line method based on life prescribed as per Schedule II of the Companies Act, 2013.

Block of asset	Useful life as per Companies Act, 2013 (in years)
Building	30
Plant and machinery	15
Computer	3
Furniture and fixture	10
Office equipment	5
Vehicles	8 – 10
Leasehold improvements	Lease term

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

k. Intangible assets

Recognition, initial measurement and subsequent measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually.

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Block of asset	Useful life (in years)
Computer softwares	6
Development costs	7

l. Capital work-in progress

Cost of material consumed and erection charges thereon along with other direct cost incurred by the Company for the projects are shown as capital work-in-progress until capitalisation.

m. Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For this purpose, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

n. Right of use assets and lease liabilities

For all existing and new contract on or after 01 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

The Company as a lessee

Classification of leases

The Company enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

Recognition and initial measurement

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

o. Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption.

p. Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises when there is a presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

q. Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

r. Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19- Employee Benefits.

Defined benefit plans (gratuity)

The Company operates one defined benefit plan for its employees, viz. gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method. Actuarial gain and loss for the defined benefit plan is recognised in full in the period in which they occur in other comprehensive income.

Other long term benefits

Accumulated leave expected to be carried forward beyond twelve months, is treated as long term employee benefit. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit.

Liability under continuity linked key resource and deferred salary schemes is provided for on actuarial valuation basis, which is done as per the projected unit credit method at the end of each financial period.

Defined contribution plans

Provident Fund

The Company makes contribution to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or

payable is recognised as an expense in the period in which services are rendered by the employee.

Short-term employee benefits

Expense in respect of other short-term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

s. Non-current assets held for sale

An entity shall classify a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and its sale is highly probable. Management must be committed to sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are presented separately and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. However, some held for sale assets such as financial assets, assets arising from employee benefits and deferred tax assets, continue to be measured in accordance with the Company's relevant accounting policy for those assets. Once classified as held for sale, the assets are not subject to depreciation or amortisation.

t. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

u. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting done to the chief operating decision maker. The Company operates in a single operating segment and geographical segment.

3. RECENT ACCOUNTING PRONOUNCEMENT

On 24 March 2021, the Ministry of Corporate Affairs (MCA), notified amendments in Schedule III to the Companies Act, 2013 effective from 01 April 2021. Following are key amended provisions which may have impact on the presentation of the standalone financial statements of the Company:

Balance sheet:

- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible assets under development.
- If a Company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Reconciliation of quarterly statement of current assets submitted to bank/financial institution for secured borrowings with books of accounts and disclosure of material discrepancy, if any.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of Company, loans and advances to promoters, promoters' shareholding, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to undisclosed income, Corporate Social Responsibility (CSR) and crypto or virtual currency specified under the head 'additional information' in the notes to the standalone financial statements.
- Disclosure of specified financial ratios such as current ratio, debt equity ratio, DSCR, ROE, Turnover ratios, Net profit ratio, ROCE, ROI etc.

The Company is currently evaluating the impact of these amendments on its standalone financial statements.

Significant accounting judgments, estimates and assumptions

When preparing the financial statements management undertakes a number of judgments, estimates and

assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant judgements:

(i) Evaluation of indicators for impairment of non-financial assets

The evaluation of applicability of indicators of impairment of non-financial assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(ii) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised. The recognition of deferred tax assets and reversal thereof is based on estimates of future taxable profits.

(iii) Contingent liabilities

The Company is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Company often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Sources of estimation uncertainty:

(i) Provisions

At each balance sheet date, basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding guarantees. However, the actual future outcome may be different from management's estimates.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

(ii) Fair valuation of financial instruments

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

(iii) Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

- (ii) The aforementioned investment property was leased to a tenant under long term operating lease agreement with rentals payable monthly. However, the lease could be terminated by either of the parties during the term, hence the same was considered as cancellable and accordingly no lease disclosure was given, as required by Ind AS 116 "Leases" during the previous year. The said property given on lease is sold by the Company during the year and hence, the lease is terminated.

(iii) Fair value of investment property

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	As at 31 March 2021	As at 31 March 2020
Fair value	-	641.67

The Company obtained independent valuations for its investment property during the previous year. The best evidence of fair value was current prices in an active market for similar properties. Where such information was not available, the Company considered information from a variety of sources such as current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.

These valuations were based on valuations performed by accredited independent valuer. Fair value was based on market value approach. The fair value measurement was categorised in Level 3 of fair value hierarchy. There had been no restriction on disposal of property or remittance of income and proceeds of disposal.

Notes:

- (i) During the year ended 31 March 2018, the Company had incorporated a wholly owned subsidiary "Appserve Appliance Private Limited" with the object of carrying out the business of repair, maintenance, installation, assembly and routine servicing activities of all kinds of white goods i.e. room air conditioners, washing machines, refrigerators, consumer durables and other similar equipment and components and to establish repair shops for the same along with other related activities. Pursuant to the losses incurred and negative cashflows from operations being generated by the wholly owned subsidiary, the management of the Company had carried out an impairment test for the investment held in the wholly owned subsidiary. Basis the outcome of aforementioned impairment test, an impairment charge of ₹ 170.00 lakh had been recorded in the financial year 2018-19. No further impairment charge has been recognised by the Company.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

- (ii) The Company had made an investment of ₹ 571.49 lakh for acquisition of 1,040,149 equity shares of Ever Electronics Private Limited ("Ever") on 30 March 2018 which represents 19% of the total share capital of Ever. The Company further made an investment for acquisition of 2,791,978 equity shares comprising of 51% ownership stake for a consideration of ₹ 1,529.98 lakh on 17 October 2019. The balance as at 31 March 2020 represents 70% of total share capital of Ever.

Ever is engaged in the business of manufacturing, assembling and dealing in electronic assembled printed circuit boards for home appliances and automobile products.

As on 01 October 2018, the Company had provided a corporate guarantee of ₹ 42.15 lakh to Ever Electronics Private Limited in lieu of rights equivalent to majority shareholders despite being minority shareholder and therefore has effected a control transfer. Accordingly Ever Electronics Private Limited has become subsidiary of the Company. (Refer note 26).

- (iii) The Company has acquired 36,000 equity shares of Sidwal Refrigeration Industries Private Limited ("Sidwal") on 02 May 2019, which represents 80% of the total share capital, by investing ₹ 15,172.89 lakh as initial sale shares consideration out of which ₹ 14,652.18 lakh was paid at the date of acquisition and ₹ 520.71 lakh was recognised as initial deferred consideration payable. The Company has also agreed to acquire the remaining 20% of total share capital of Sidwal within twenty five months from the acquisition of initial shares and accordingly, recognised ₹ 6,026.55 as consideration payable for acquisition of remaining shares. Further, the Company has paid ₹ 536.88 lakh to Sidwal against portion of initial deferred consideration. During the year ended 31 March 2021, the Company has entered into Second amendment to share purchase agreement for settlement of defferred consideration, refer note 26 for details related to deferred consideration. Sidwal is engaged in the business of providing air-conditioning equipment for any type of application.

Notes:

- (i) As on 01 October 2018, the Company had provided a corporate guarantee to Ever Electronics Private Limited in lieu of rights equivalent to majority shareholders despite being minority shareholder and therefore has effected a control transfer. The above balance represents fair value of corporate guarantee as at 31 March 2020. The loan against which the said corporate guarantee was given has been repaid by Ever Electronics Private Limited during the year. Consequently, corporate guarantee liability has been written back during the current year in the statement of profit and loss.
- (ii) Deferred consideration includes initial deferred consideration for the acquisition of 80% stake of Sidwal and remaining sale shares consideration for acquisition of 20% stake of Sidwal payable at the time of second closing. Remaining sale shares consideration meets the definition of contingent consideration within the scope of Ind AS 109 and has been measured at fair value on acquisition date and subsequently at fair value through statement of profit and loss. The Company has entered into second amendment to share purchase agreement dated 17 September 2020 for settlement of the deferred consideration and acquisition of remaining stake in the Sidwal. Consequently, the Company has extinguished the deferred consideration liability by payment amounting to ₹ 4,873.74 lakh and recognised the gain amounting to ₹ 554.82 lakh.

Further, the Company has recognised the current deferred consideration liability amounting to ₹ 417.80 lakh for payment of unrecovered receivables, pre-acquisition tax refunds etc. The same has been measured at amortised cost.

** Includes amount paid under protest ₹ 30.63 lakh (previous year : ₹ 0.81 lakh).

*** Includes amount paid under protest ₹ 2.79 lakh (previous year: ₹ 2.79 lakh).

**** The Payment of Bonus (Amendment) Act, 2015 dated 31 December 2015 (which was made effective from 01 April 2014) revised the thresholds for coverage of employee eligible for Bonus and also enhanced the ceiling limits for computation of bonus. However, taking cognisance of the stay granted by various High Courts, the Company has not recognised any differential amount of bonus for the period 01 April 2014 to 31 March 2015 and accordingly has recognised the expense as per the amended provisions w.e.f. 1 April 2015 and onwards.

The Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company.

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
* Domestic tax rate applicable to the Company has been computed as follows		
Base tax rate	30%	30%
Surcharge (% of tax)	12%	12%
Cess (% of tax)	4%	4%
Applicable rate	34.94%	34.94%

The Taxation Laws (Amendment) Act, 2019 has amended the Income-tax Act, 1961 to provide an option to the Company to pay Income-tax at concessional rate of 22% plus applicable surcharge and cess, subject to certain specified conditions, as compared to the present rate of 30% plus applicable surcharge and cess for the assessment year 2020-21 onwards. The Company expects to avail the lower tax rate from a later financial year and accordingly remeasured deferred tax at such concessional rate, only to the extent that the deferred tax assets are expected to be realised or deferred tax liabilities are expected to be settled in the periods during which the Company expects to be subject to lower tax rate.

Unused tax credits

MAT credit

The Company had unused MAT credit amounting to ₹ 3,652.30 lakh as at 31 March 2021 (previous year : ₹ 4,174.60 lakh). MAT paid can be carried forward for a period of 15 years and can be set off against the future tax liabilities. MAT is recognised as a deferred tax asset only when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

Capital losses

The Company has not recognised deferred tax of ₹ 67.88 lakh on unused long term capital losses under the head Capital Gains as the Company is not likely to generate taxable income under the same head in foreseeable future. These losses will expire in financial year ending 31 March 2029.

49. EARNINGS PER SHARE

(All amounts in ₹ in lakh unless otherwise stated)

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	As at 31 March 2021	As at 31 March 2020
Current	212.47	206.56
Non-current	867.71	963.30
	1,080.18	1,169.86

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

The Company has leases for plant and machinery, office premises, factory lands and related facilities. With the exception of short-term leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublet the asset to another party, the right-of-use asset can only be used by the Company. For leases over factory premises, the Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease.

A The following are amounts recognised in profit or loss:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021	31 March 2020
Depreciation expense of right-of-use assets	303.84	209.08
Interest expense on lease liabilities	114.55	147.94
Rent expense*	1,821.46	1,865.83
Total	2,239.85	2,222.85

*Rent expense in case of short term leases

B The lease liabilities are secured by the related underlying assets. The maturity analysis of lease liabilities are disclosed in note 53.

C The Company does not have any liability to make variable lease payments for the right to use the underlying asset recognised in the financials.

D Total cash outflow for leases for the year ended 31 March 2021 was ₹ 1,479.13 lakh (previous year: ₹ 1,438.06 lakh).

E Operating leases as lessor

The Company leases out investment properties under operating leases (refer note 6).

Impact of COVID-19

The Company does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Company has entered with lessors towards plant and machineries and properties used as factories are long term in nature and no changes in terms of those leases are expected due to the COVID-19.

- 1) The discount rate is based on the prevailing market yield of Indian Government bonds as at the balance sheet date for the estimated terms of obligations.
- 2) The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.
- 3) Plan assets do not include any of the Company's own financial assets or other assets used by the Company. The Company makes contributions to Life Insurance Corporation of India ("LIC of India"). The assets managed by the fund manager are highly liquid in nature and the Company does not expect any significant liquidity risks.
- 4) The Company makes annual contributions to the LIC of an amount advised by them.
- 5) The best estimated expense for the next year is ₹ 86.56 lakh.
- 6) The weighted average duration of defined benefit obligation is 15-24 years (previous year : 15-22 years).

(vii) Sensitivity analysis for gratuity liability

(All amounts in ₹ in lakh unless otherwise stated)

Description	31 March 2021	31 March 2020
Impact of change in discount rate		
Present value of obligation at the end of the year	573.28	501.70
- Impact due to increase of 1 %	(56.71)	(45.15)
- Impact due to decrease of 1 %	52.02	52.85
Impact of change in salary increase		
Present value of obligation at the end of the year	573.28	501.70
- Impact due to increase of 1 %	52.63	53.39
- Impact due to decrease of 1 %	(58.06)	(46.36)

The above sensitivity analysis is based on a change an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous year.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

52. FAIR VALUE DISCLOSURES

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are divided into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Financial instruments measured at fair value - recurring fair value measurements

The following table shows the levels within the hierarchy of financial assets and financial liabilities measured at fair value on a recurring basis.

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Level	31 March 2021	31 March 2020
Financial assets			
Derivative asset [refer (a) below]	Level 2	62.81	-
Investment in quoted bonds [refer (c) below]	Level 1	10,807.14	-
Financial liabilities			
Derivative liability [refer (a) below]	Level 2	-	0.46
Deferred consideration [refer (b) below]	Level 3	-	5,846.36

A. Valuation process and technique used to determine fair value

- Derivative financial instruments are valued using forward exchange rates at the balance sheet date.
- In order to arrive at the fair value of deferred consideration as at 31 March 2020, the Company obtained independent valuations. The technique used by the valuer was Option Pricing Method.
- The fair value of investments in quoted bonds is based on the current bid price of respective investment as at the balance sheet date.

B. Significant unobservable inputs used in Level 3 fair values and sensitivity of the closing values as at end of reporting period to such inputs is as below :

(All amounts in ₹ in lakh unless otherwise stated)

Description	As at 31 March 2020
Impact on fair value if change in volatility	
- Impact due to increase of 2.00 %	30.81
- Impact due to decrease of 2.00 %	(30.73)
Impact on fair value if change in weighted average cost of capital	
- Impact due to increase of 1.00 %	(12.83)
- Impact due to decrease of 1.00 %	13.20
Impact on fair value if change in forecasted EBITDA	
- Impact due to increase of 5.00 %	109.81
- Impact due to decrease of 5.00 %	(98.62)

C. The following table presents the changes in level 3 items for the period ended 31 March 2021:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Deferred consideration
As at 01 April 2019	-
Financial liabilities initially measured and recognised	6,547.26
Payment made on account of investment in Sidwal	(536.88)
Upon subsequent measurement, gain recognised in statement of profit and loss on account of fair value changes	(164.01)
As at 31 March 2020	5,846.36
Payment made on account of investment in Sidwal	(4,873.74)
Upon settlement, gain recognised in statement of profit and loss on account of fair value changes	(554.82)
Financial liabilities recognised and subsequently measured at amortised cost	(417.80)
As at 31 March 2021	-

(iii) Fair value of instruments measured at amortised cost

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Level	31 March 2021		31 March 2020	
		Carrying value	Fair value	Carrying value	Fair value
Financial assets					
Loans	Level 3	3,195.32	3,223.75	869.28	874.81
Other financial assets	Level 3	10,246.82	10,246.82	64.63	64.63
Total financial assets		13,442.14	13,470.56	933.91	939.44
Financial liabilities					
Borrowings	Level 3	14,487.66	14,487.66	13,204.43	13,204.43
Lease liabilities	Level 3	1,080.17	1,198.52	1,169.86	1,190.03
Other financial liabilities	Level 3	-	-	31.61	31.61
Total financial liabilities		15,567.83	15,686.18	14,405.90	14,426.07

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables, short term borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate receivables are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors.
- (ii) The fair values of the Company's borrowings, fixed interest-bearing receivables and lease liabilities are determined by applying discounted cash flows ("DCF") method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2021 was assessed to be insignificant.
- (iii) All the other long term borrowing facilities availed by the Company are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

ii) Risk Management

The Company's activities expose to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term and short-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors

The Company's risk management is carried out by a central treasury department (of the Company) under policies approved by the board of directors. The board of directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Company's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans and receivables carried at amortised cost, and
- deposits with banks

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

(All amounts in ₹ in lakh unless otherwise stated)

Credit rating	Particulars	31 March 2021	31 March 2020
A: Low	Loans	4,989.70	2,064.57
	Investments	44,653.01	33,845.87
	Other financial assets	10,391.97	3,037.35
	Cash and cash equivalents	16,216.32	4,910.33
	Other bank balances	10,602.71	4,256.86
	Trade receivables	92,074.35	77,636.02
C: High	Trade receivables	44.68	32.42

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses

Trade receivables

- (i) The Company recognises lifetime expected credit losses on trade receivables using a simplified approach and uses historical information to arrive at loss percentage relevant to each category of trade receivables.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Impact of COVID-19

In addition to the historical pattern of credit loss, the Company has considered the likelihood of increased credit risk and consequential default considering emerging situations due to COVID-19. This assessment is not based on any mathematical model but an assessment considering the nature of verticals, impact immediately seen in the demand outlook of these verticals and the financial strength of the customers in respect of whom amounts are receivable. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case.

- (ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

(All amounts in ₹ in lakh unless otherwise stated)

Reconciliation of loss allowance	Trade receivables
Loss allowance on 01 April 2019	30.95
Add (Less): Changes in loss allowances due to bad debts	1.47
Loss allowance on 31 March 2020	32.42
Add (Less): Changes in loss allowances due to bad debts	12.26
Loss allowance on 31 March 2021	44.68

Other financial assets measured at amortised cost

The Company provides for expected credit losses on loans and advances by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

a) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021	31 March 2020
- Expiring within one year (cash credit and other facilities)	35,537.45	27,210.96
- Expiring beyond one year (bank loans)	0.00	-
	35,537.45	27,210.96

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice.

* Holding all other variables constant

b) Interest rate risk

i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2021, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Company's investments in fixed deposits, all pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021	31 March 2020

* Holding all other variables constant

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)**

ii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

Exposure

The Company's exposure to price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

Sensitivity

The table below summarises the impact of increases/decreases of the index on the Company's equity and other comprehensive income for the period :

Impact on other comprehensive income before tax

Particulars	31 March 2021
Quoted bonds	
Value per bond - increase by 50 bps	54.04
Value per bond - decrease by 50 bps	(54.04)

D) Other risk- Impact of COVID-19

In March 2020, World Health Organisation (WHO) had declared the outbreak of Novel Coronavirus Infection Disease 2019 (COVID-19) as a pandemic. Complying with the directives of Government, the plants and offices of the Company had been under lock-down for few months, resulting thereto, the operations for the year have been impacted. Post lockdown, the Company has gradually resumed its manufacturing operations to normal. However, the recent second wave of Covid-19 has resulted in re-imposition of partial lockdowns/restrictions in various states, which might continue to impact the Company's performance.

The Company has taken into account all the possible impacts of COVID-19 including the possible impacts of second wave in preparation of these standalone financial statements, including but not limited to its assessment of liquidity and going concern assumption, recoverable values of its financial and non-financial assets, investments, leases, impact on revenues and cost etc. The Company has carried out this assessment based on available internal and external sources of information upto the date of approval of these standalone financial statements and believes that the impact of COVID-19 is not material to these standalone financial statements and expects to recover the carrying amount of its assets. The impact of COVID-19 on these standalone financial statements may differ from that estimated as at the date of approval of these standalone financial statements owing to the nature and duration of COVID-19.

54. CAPITAL MANAGEMENT

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

58. REVENUE FROM CONTRACTS WITH CUSTOMERS

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations
- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognising revenue when/as performance obligation(s) are satisfied.

(a) Disaggregation of revenue

The Company has performed a disaggregated analysis of revenues considering the nature, amount, timing and uncertainty of revenues. This includes disclosure of revenues by geography and timing of recognition.

In accordance with the proviso to Section 35(2AB) of the Income-tax Act, 1961, the Company is eligible to claim deduction equal to the expenditure incurred on research and development activities from FY 2020-21 onwards as compared to weighted deduction equal to one and one-half times of the expenditure during the previous financial years. Consequently, the Company has decided to discontinue the availment of deduction under Section 35(2AB) of the Income-tax Act, 1961 from 01 April 2020.

60. EVENTS AFTER THE REPORTING PERIOD

The Company has evaluated all the subsequent events through 22 May 2021, which is the date on which these standalone financial statements were issued, and no events have occurred from the balance sheet date through that date except for matters that have already been considered in these standalone financial statements.

However, subsequent to the year end, the Board of Directors on the recommendation of the Nomination and Remuneration Committee in its meeting held on 19 April 2021, has granted 2,20,000 options to certain identified eligible employees of the Company and its subsidiaries at ₹ 2,400 per option, under "Amber Enterprises India Limited Employee Stock Option Plan 2017". Vesting will be made in four years in equal ratio i.e. 25% every year, after the statutory period of one year from the date of grant of the options. Exercise period in respect of the options shall commence after the vesting of such options, as authorised by the Nomination and Remuneration Committee and the Board of directors, subject to a maximum period of five years. This was pursuant to the approval from the shareholders through postal ballot concluded on 24 December 2020. These options will vest in line with the current employment agreements.

61. The Code on Social Security, 2020 which would impact the contributions by the Company towards Provident Fund and Gratuity has received presidential assent on 28 September 2020. The effective date from which the changes are applicable is yet to be notified and the final rules are yet to be framed. The Company will carry out an evaluation of the impact and record the same in the financial statements in the period in which the Code becomes effective and the related rules are published.

62. The figures for the corresponding previous year have been regrouped/reclassified, wherever considered necessary, to make them comparable.

INDEPENDENT AUDITOR'S REPORT

To the Members of Amber Enterprises India Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

1. We have audited the accompanying consolidated financial statements of Amber Enterprises India Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure I, which comprise the Consolidated Balance Sheet as at 31 March 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs of the Group, as at 31 March 2021, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10)

of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – COVID-19

4. We draw attention to Note 53(ii)(D) to the accompanying consolidated financial statements, which describes the effects of uncertainties relating to the outbreak of COVID - 19 pandemic and management's evaluation of the impact on the Group's operations and the accompanying financial statements of the Group as at the balance sheet date, the extent of which is significantly dependent on future developments.
Our opinion is not modified in respect of this matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT (Contd.)

6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Carrying value of goodwill and intangible assets with indefinite useful life</p> <p>As detailed in Note 2, and 6 to the consolidated financial statements, the group has a carrying value of INR 12,226.84 lakh of goodwill, and INR 8,168.00 lakh of intangible asset with indefinite useful life.</p> <p>In terms with Indian Accounting Standard 36, Impairment of Assets, the management has carried out an impairment analysis which contained certain significant judgements and estimates including forecasting revenue growth, success of new products, margins and discount rate which form the basis of such assessments. Changes in these assumptions could lead to an impairment to the carrying value of goodwill and intangible asset with indefinite useful life.</p> <p>The conclusion of the above analysis was that no impairment was required to be recognized on the carrying value of goodwill and other intangible assets.</p> <p>Considering the materiality of the amount involved and significant degree of judgement and subjectivity involved in the estimates and assumptions used in determining the cash flows used in the impairment evaluation, we have determined impairment of such goodwill and other intangible assets (including intangible assets arising from the business combinations) as a key audit matter.</p>	<p>Our audit work included, but was not restricted to performing the following procedures:</p> <p>a) We reviewed management's process and controls on identification of indicators of impairment of goodwill under the Indian Accounting Standards framework;</p> <p>b) We understood, evaluated and tested controls around management's assessment of the impairment indicators and the impairment tests performed;</p> <p>c) We obtained the impairment analysis carried out by the management and reviewed the valuation report prepared by an independent valuer and examined the reasonableness of key assumptions, including the profit and cash flow growth or decline, terminal values, potential product obsolescence and the selection of discount rates;</p> <p>d) We assessed the professional competence, objectivity and capabilities of the third-party expert considered by the management for performing the required valuations to estimate the recoverable value of the goodwill;</p> <p>e) We reconciled the cash flow projections to the business plans approved by the Holding Company's Board of Directors;</p> <p>f) We challenged the management on the underlying assumptions used for the cash flow projections including the expected growth rates and considered the evidence available to support these assumptions in light of our understanding of the business;</p> <p>g) We assessed the reasonableness of the assumptions used and appropriateness of the valuation methodology applied. We tested the discount rates and long-term growth rates used in the forecast vis-a-vis industry forecasts and the recent changes in economic environment, where appropriate;</p> <p>h) We involved auditor's experts to assess the appropriateness of the valuation model used by the management and the assumptions used relating to discount rates, risk premium, industry growth rates, etc., to assess their reasonability;</p> <p>i) We evaluated the sensitivity analysis performed by management in respect of the key assumptions such as discount and growth rates to ensure that there was sufficient headroom with respect to the estimation uncertainty impact of such assumptions on the calculation;</p> <p>j) We have evaluated the adequacy of disclosures made by the Holding Company in the consolidated financial statements in view of the requirements as specified in the Indian Accounting Standards.</p>

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
<p>Product development - Intangible assets</p> <p>As disclosed in note 2, 6 and 7 in the consolidated financial statements, the Group develops various product models and performs trial runs for enhancing the performance and increasing the efficiency of the products. The Group has a research and development department which oversees such development process and conducts trial runs. The Group has capitalised ₹ 3,236.39 Lakh during the year ended 31 March 2021 under Intangible assets and Intangible assets under development on the trial runs which comprises of raw material cost (net of scrap sales) and certain attributable overheads. The Group capitalises the product models when they are ready for sale in the active market.</p> <p>Such developmental activities represent a significant part of the business and the Group uses judgement to determine classification of expenditure into research and development phase wherein, as per the applicable accounting guidance, expenditure incurred on research activities is to be charged off and development costs may be capitalised, subject to specific conditions. Such assessment includes assessing whether the product being developed is commercially feasible, whether the Group has adequate technical, financial and other required resources to complete the development and whether the costs will be fully recovered through future sale of the product.</p> <p>Considering the materiality of the amounts, significant judgement involved in determining the appropriate quantum of development expenses to be capitalised, including those incurred on trial runs, this matter has been considered as a key audit matter for the current year audit.</p>	<p>Our audit work included, but was not restricted to performing the following procedures:</p> <ol style="list-style-type: none"> a) We obtained an understanding of management's process for assessing costs forming part of research and development activities and whether such costs meet recognition criteria in terms with Indian Accounting Standard 38, Intangible Assets; b) We assessed the design and implementation of controls in respect of expenses incurred for trial runs, in addition to testing the effectiveness of key controls operating across the business; c) We obtained a schedule of all the costs capitalised by the Group and on test-check basis, verified that the cost of only those raw materials, that have been used for the purpose of development activities and trial runs, were capitalised, as applicable; d) We also assessed the reasonableness of overheads allocated along with consumption of raw material; e) We further evaluated the commercial viability of the product by considering other information obtained during the audit, including products being developed in previous years, the stage of related sales prospects and, where appropriate, the level of sales generated to determine whether the status and performance of developed products corroborated management's assertions over the technical feasibility and the ability to generate 'probable' future economic benefits; f) We also ensured that the carrying value of these intangible assets under development will be fully recovered by the Group and there are no impairment indicators for these assets. For this assessment, we obtained the product assessment which are being currently developed by the Group and discussed the same with the management, including research and development personnel. Also, we reviewed the product assessment in reference to developed products which were capitalised in the earlier years and being currently sold by the Group; g) We have evaluated the adequacy of disclosures made by the Group in the consolidated financial statements in view of the requirements as specified in the Indian Accounting Standards.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Information other than the Consolidated Financial Statements and Auditor's Report thereon

7. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Annual Report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

8. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose

of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

9. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
10. Those Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate

INDEPENDENT AUDITOR'S REPORT (Contd.)

internal financial controls with reference to the consolidated financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report

because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit, we report that the Holding Company and its subsidiary companies covered under the Act paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
17. As required by Section 143 (3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b) in our opinion, proper books of accounts as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
 - c) the consolidated financial statements dealt with by this report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the consolidated financial statements;
 - d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act;
 - e) On the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company and its subsidiary companies covered under the Act, none of the directors are disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary companies covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II'; and
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our

ANNEXURE II

Independent Auditor's Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Amber Enterprises India Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company, and its subsidiary companies, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

ANNEXURE II (Contd.)

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and the Board of Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection

of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2021, based on the internal financial controls over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021

1. CORPORATE INFORMATION AND STATEMENT OF COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (IND AS)

Amber Enterprises India Limited (the "Company" or "the Holding Company"), together with its subsidiaries are collectively referred to as the "the Group" in these consolidated financial statements. The Company is a public limited Company domiciled in India and having its registered office situated at C-1, Phase II, Focal Point, Rajpura Town, Punjab - 140401, India was incorporated in 1990 and is engaged in the business of manufacturing a versatile range of products i.e. Air conditioners, electronics and refrigeration solutions to railways, microwave ovens, washing machines, refrigerators, heat exchangers, sheet metal components, HVAC (Heating, Ventilation and Air Conditioning) products and services for mobility applications etc. Currently, the Group has fifteen manufacturing facilities in India.

These consolidated financial statements ('financial statements') of the Group have been prepared to comply in all material respects with accounting principles generally accepted in India, including Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Companies Act, 2013 (the "Act"), as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2021 were authorised and approved for issue by the Board of Directors on 22 May 2021. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared on accrual and going concern basis under historical cost convention except for certain financial instruments and plan assets, which are measured at fair values. The accounting policies are applied consistently to all the periods presented in the financial statements.

The significant accounting policies and measurement bases have been summarised below.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and as per terms of agreements wherever applicable. The Group has considered a normal operating cycle of 12 months. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

Basis of consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Statement of profit and loss (including other comprehensive income ('OCI')) of subsidiaries acquired or disposed of during the period are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable. All the consolidated subsidiaries have a consistent reporting date of 31 March 2021.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's statement of profit and loss and net assets that is not held by the Group. Statement of profit and loss balance (including each component of OCI) is attributed to the equity holders of the Holding Company and to the non-controlling interests basis the respective ownership interests and the such balance is attributed even if this results in the non-controlling interests having a deficit balance.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. Such a change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

Business combination

The Group applies the acquisition method in accounting for business combinations. The

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred (including fair value of asset resulting from a contingent consideration arrangement), liabilities incurred by the former owners of the acquired entity. Acquisition costs are generally recognised in the statement of profit and loss as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their acquisition-date fair values.

Goodwill is initially measured as excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred and where exists clear evidence of underlying reasons of classifying business combinations as bargain purchase, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

The Company has classified contingent consideration under business combination as financial liability. Such financial liability is subsequently measured at fair value with changes in fair value recognised in profit and loss.

b. Revenue recognition

Sale of goods

Revenue arises mainly from the sale of goods. To determine whether to recognise revenue, the Group follows a 5-step process:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations
- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognising revenue when/as performance obligation(s) are satisfied.

The Group considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or

services to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both. Revenue is measured at fair value of consideration received or receivable, after deduction of any trade discounts, volume rebates.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers. A receivable is recognised when the goods are delivered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

Revenue from tool development and job charges

Revenue in respect of tool development and job charges is recognised as per the terms of the contract with the customers.

Unbilled revenue

The billing schedules agreed with customers include periodic performance-based billing. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Interest income

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR) i.e. the rate that discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets. The future cash flows include all other transaction costs paid or received, premiums or discounts if any, etc.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

c. Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and intermediate products (including manufactured components): cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on first in, first out basis.
- Stores and spares, consumables and packing materials cost includes direct expenses and is determined on the basis of first in first out method.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

d. Income taxes

Tax expense recognised in the statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Current tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (i.e. in OCI or equity depending upon the treatment of underlying item).

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss

or credit. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside statement of profit and loss (in OCI or equity depending upon the treatment of underlying item).

e. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f. Foreign currency transactions

The financial statements are presented in Indian Rupee (₹) which is also the functional currency of the Holding Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other income/expenses, as the case maybe.

g. Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Non-derivative financial assets

Subsequent measurement

- i. **Financial assets carried at amortised cost** – a financial asset is measured at the amortised cost, if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- ii. **Investments in equity instruments** – The Group subsequently measures all equity investments at fair value (either through profit or loss or through other comprehensive income). Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

- iii. **Financial assets carried at fair value through other comprehensive income (FVTOCI)** – A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling the financial asset. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses and reversals in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Group is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables: In respect of trade receivables, the Group applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets: In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Group uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

De-recognition of financial assets

A financial asset is primarily de-recognised when the contractual rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement at amortised cost

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

Subsequent measurement at fair value

The financial liability is subsequently measured at fair value with changes in fair value recognised in profit and loss.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

Initial and subsequent measurement

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h. Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

i. Property, plant and equipment ('PPE')

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that

future economic benefits associated with the item will flow to the Group and definition of asset is met. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

In case an item of property, plant and equipment is acquired on deferred payment basis, interest expenses included in deferred payment is recognised as interest expense and not included in cost of asset.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on straight line method based on life prescribed as per Schedule II of the Companies Act, 2013.

Block of asset	Useful life as per Companies Act, 2013 (in years)
Building	30
Plant and machinery	15
Computer	3
Furniture and fixture	10
Office equipment	5-10
Vehicles	8 – 10
Leasehold improvements	Lease term

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

j. Intangible assets

Recognition, initial measurement and subsequent measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Goodwill/ intangible assets with indefinite useful life are not amortised but these are tested for impairment annually, or more frequently if events or changes in

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

circumstances indicate that they might be impaired, and are carried at cost less accumulated impairment losses.

Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually.

Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Block of asset	Useful life (in years)
Computer softwares	6
Development costs	7
Technical know-how	9-15
Customer relationships	5-15
Trade name	9
Patents and trademarks	6
Backlog contracts	1-4
Brand name	Indefinite life
Non-compete agreements	7

k. Capital work-in progress

Cost of material consumed and erection charges thereon along with other direct cost incurred by the Group for the projects are shown as capital work-in-progress until capitalisation.

l. Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For this purpose, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

m. Right of use assets and lease liabilities

For all existing and any new contracts entered into on or after 01 April 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

The Group as a lessee

Classification of leases

The Group enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

Recognition and initial measurement

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Subsequent measurement

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

n. Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption.

o. Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises when there is a presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

p. Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

q. Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19- Employee Benefits.

Defined benefit plans (gratuity)

The Group operates one defined benefit plan for its employees, viz. gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method. Actuarial gain and loss for the defined benefit plan is recognised in full in the period in which they occur in other comprehensive income.

Other long term benefits

Accumulated leave expected to be carried forward beyond twelve months, is treated as long term employee benefit. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit.

Liability under continuity linked key resource and deferred salary schemes is provided for on actuarial valuation basis, which is done as per the projected unit credit method at the end of each financial period.

Defined contribution plans

Provident fund

The Group makes contribution to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952. The plan is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which services are rendered by the employee.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

r. Non-current assets held for sale

An entity shall classify a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded

as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and its sale is highly probable. Management must be committed to sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are presented separately and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. However, some held for sale assets such as financial assets, assets arising from employee benefits and deferred tax assets, continue to be measured in accordance with the Group's relevant accounting policy for those assets. Once classified as held for sale, the assets are not subject to depreciation or amortisation.

s. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting done to the chief operating decision maker. The Group operates in a single operating segment and geographical segment

3. RECENT ACCOUNTING PRONOUNCEMENT

On 24 March 2021, the Ministry of Corporate Affairs (MCA), notified amendments in Schedule III to the Companies Act, 2013 effective from 1 April 2021. Following are key amended provisions which may have impact on the presentation of the consolidated financial statements of the group:

Balance sheet:

- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible assets under development.
- If a Company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Reconciliation of quarterly statement of current assets submitted to bank/financial institution for secured borrowings with books of accounts and disclosure of material discrepancy, if any.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of Company, loans and advances to promoters, promoters' shareholding, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to undisclosed income, Corporate Social Responsibility (CSR) and crypto or virtual currency specified under the head 'additional information' in the notes to the standalone financial statements.
- Disclosure of specified financial ratios such as current ratio, debt equity ratio, DSCR, ROE, Turnover ratios, Net profit ratio, ROCE, ROI etc.

The Group is currently evaluating the impact of these amendments on its consolidated financial statements.

Significant accounting judgements, estimates and assumptions

When preparing the financial statements management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant judgements:

(i) Evaluation of indicators for impairment of non-financial assets

The evaluation of applicability of indicators of impairment of non-financial assets requires

assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(ii) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised. The recognition of deferred tax assets and reversal thereof is based on estimates of future taxable profits.

(iii) Contingent liabilities

The Group is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Group often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Sources of estimation uncertainty:

(i) Provisions

At each balance sheet date, basis the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from management's estimates.

(ii) Fair valuation of financial instruments

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

(iii) Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Notes:

(i) Amortisation for the year has been included in line item 'Depreciation and amortisation expense' in statement of profit and loss.

(ii) Impairment testing of Goodwill and intangible asset with indefinite useful life

During the previous year, the Group entered into a business combination with Sidwal Refrigeration Industries Private Limited, whereby it acquired goodwill and Brandname with indefinite useful life of ₹ 15,143.06 lakhs. Other than that the Group has recognised goodwill amounting ₹ 6,719.51 lakhs from acquisition of other subsidiaries.

The Group tests goodwill and brandname annually for impairment, or more frequently if an event occurs to warrant a review. The recoverable amount attributed to the CGU is based on value in use calculations. The key assumptions made in undertaking the value in use calculations involve estimating post-tax cash flows.

Budgeted profit and cash flow forecasts for the financial year ending 31 March 2021 have been extrapolated for a period of five years and a terminal growth rate of 5% has been applied thereafter and used as the basis of the calculations.

Discount rate assumptions are based on management estimates of the internal cost of capital likely to apply over the expected useful economic life of the goodwill and management's view of the risk associated. A discount rate of 15.84% has been applied.

Sales tax [refer note (i) below]	96.79	14.57
Goods and services tax [refer note (ii) below]	30.63	0.81
Income-tax [refer note (iii) below]	38.60	566.32
Octroi tax	15.58	15.58
Excise duty [refer note (iv) below]	24.39	24.39
Claims against the Group not acknowledged as debts		
On account of claims by vendors	12.39	12.39
On account of claims by employees	1.58	1.58
Bonus [refer note (v) below]	11.38	11.38
Minimum wages [refer note (vi) below]	28.20	28.20

- (i) Includes amount paid under protest ₹ 5.60 lakh (previous year : ₹ 2 lakh). Also, the amount appearing above is after netting off ₹ 13.42 lakh (previous year: ₹ 14.57 lakh) already provided for in the books of accounts.
- (ii) Includes amount paid under protest ₹ 30.63 lakh (previous year : ₹ 0.81 lakh).
- (iii) For the subsidiary Company (Sidwal Refrigeration Industries Private Limited), demands were raised by the Income-tax department for the assessment years 2004-05 through to 2007-08 for additional income-tax payable on account of determination of the Company's entitlement to deduction under section 80IC of the Income-tax Act, 1961 for profits made by its industrial unit at Kala Amb (exempted unit) at a lower amount than was claimed. The Company appealed against these demands before the Commissioner of Income-tax (Appeals) who decided in favour of the Company. Subsequently, this decision was upheld by the Income-tax Appellate Tribunal. The Income-tax Department has now appealed to the Hon'ble High Court. During the current year, all the cases were dismissed by the Hon'ble High Court.
- For the subsidiary Company (PICL (India) Private Limited), demand was raised by the Income-tax department for the assessment year 2018-19 on 09 April 2021, for additional income-tax payable by the Company. The Company has filed an appeal to the CIT (Appeals), Delhi regarding the same on 06 May 2021.
- (iv) Includes amount paid under protest ₹ 2.79 lakh (previous year: ₹ 2.79 lakh).
- (v) The Payment of Bonus (Amendment) Act, 2015 dated 31 December 2015 (which was made effective from 01 April 2014) revised the thresholds for coverage of employee eligible for Bonus and also enhanced the ceiling limits for computation of bonus. However, taking cognizance of the stay granted by various High Courts, the Company has not recognised any differential amount of bonus for the period 01 April 2014 to 31 March 2015 and accordingly has recognised the expense as per the amended provisions w.e.f. 01 April 2015 and onwards.
- (vi) The Subsidiary Company has been served with orders in FY 2014-15 under Minimum Wages Law claiming ₹ 28.20 lakh for payment of wages below minimum wages. Based on the advice from Independent expert and development of the case, the management is confident that such addition will not be sustained on completion of the appellate and accordingly, pending the decision by the appellate authority no adjustment has been made in the financial statement.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

- # The Group is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Group's management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Group's results of operations or financial condition.
- # The Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company.

- MAT credit entitlement

The Group had unused MAT credit amounting to ₹ 3,652.30 lakh as at 31 March 2021 (previous year: ₹ 4,223.64 lakh). MAT paid can be carried forward for a period of 15 years and can be set off against the future tax liabilities. MAT is recognised as a deferred tax asset only when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(iii) The Taxation Laws (Amendment) Act, 2019 has amended the Income-tax Act, 1961 to provide an option to the Company to pay Income-tax at concessional rate of 22% plus applicable surcharge and cess, subject to certain specified conditions, as compared to the present rate of 30% plus applicable surcharge and cess for the assessment year 2020-21 onwards. The Holding Company expects to avail the lower tax rate from a later financial year and accordingly remeasured deferred tax at such concessional rate, only to the extent that the deferred tax assets are expected to be realised or deferred tax liabilities are expected to be settled in the periods during which the Holding Company expects to be subject to lower tax rate.

Other group companies except IL JIN Electronics (India) Private Limited had opted for the concessional tax rate during the year ended 31 March 2020 and accordingly remeasured deferred tax and current tax liability at such concessional rate.

Further during the previous year, the Group had remeasured deferred tax recognised as per part of acquisition accounting and impact on account of change in tax rate has been recognised in Goodwill, recognised pursuant to the business combination.

(iv) Subsidiaries of the Group have undistributed earnings which, if paid out as dividends, would be subject to tax in the hands of recipient. An assessable temporary difference exists, but no deferred tax liability has been recognised as the Holding Company is able to control the timing of distributions from a subsidiary and is not expected to distribute these profits in the foreseeable future.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

50. LEASES

Lease liabilities are presented in the statement of financial position as follows:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	As at 31 March 2021	As at 31 March 2020
Current	251.79	244.25
Non-current	1,186.05	1,292.49
	1,437.84	1,536.74

The Group has leases for plant and machinery, office premises, factory lands, warehouses, residential premises and related facilities. With the exception of short-term leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Group classifies its right-of-use assets in a consistent manner to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublet the asset to another party, the right-of-use asset can only be used by the Group. For leases over factory premises, the Group must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease.

A. Sale and leaseback transaction

(i) During the previous year, the Group had entered into a sale and leaseback arrangement with TATA Capital Financial Services Limited for plant and equipment. The Group had entered into this arrangement for financing the assets so as to use the cash generated from this transaction for providing extra working capital into the business.

(ii) The lease had been entered for a period of 84 months with non-cancellable period of 78 months.

The Group had considered automatic extension option available for another 6 months in the assessment of lease period since the Group can enforce its right to extend the lease beyond the initial lease period.

The interest rate implicit in the lease used for discounting the lease payments was taken as 9.48%.

B. The following are amounts recognised in profit or loss:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021	31 March 2020
Depreciation expense of right-of-use assets	346.52	223.74
Interest expense on lease liabilities	145.53	164.22
Rent expense*	2,062.86	2,114.79
Total	2,554.91	2,502.75

*Rent expense in case of short term leases

C The lease liabilities are secured by the related underlying assets. The maturity analysis of lease liabilities are disclosed in note 53.

D The Group does not have any liability to make variable lease payments for the right to use the underlying asset recognised in the financials.

E Total cash outflow for leases for the year ended 31 March 2021 was ₹ 1,795.38 lakh (previous year: 1,738.31 lakh).

F Operating leases as lessor

The Group has leased out a portion of its Noida premises to D&Y Technologies Private Limited and is earning rental income from such lease. The party has been asked to vacate the premises and is expected to do so in the subsequent financial year. Hence this property has not been classified as investment property and rental income is recognised on straightline basis over the remaining lease term.

Impact of COVID-19

The Group does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Group has entered with lessors towards plant and machineries and properties used as factories are long term in nature and no changes in terms of those leases are expected due to the COVID-19.

Notes:

- 1) The discount rate is based on the prevailing market yield of Indian Government bonds as at the balance sheet date for the estimated terms of obligations.
- 2) The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.
- 3) Plan assets comprise funds managed by the insurer i.e. Life Insurance Corporation of India ('LIC').
- 4) The Group makes annual contributions to the LIC of an amount advised by them.
- 5) The best estimated expense for the next year is ₹ 231.92 lakh.
- 6) The weighted average duration of defined benefit obligation is 15-25 years (previous year: 15-22 years).

52. FAIR VALUE DISCLOSURES
i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are divided into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Financial instruments measured at fair value - recurring fair value measurements

The following table shows the levels within the hierarchy of financial liabilities measured at fair value on a recurring basis.

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Level	31 March 2021	31 March 2020
Financial assets			
Derivative asset [refer (a) below]	Level 2	62.81	-
Investment in quoted bonds [refer (c) below]	Level 1	10,807.13	-
Financial liabilities

Derivative liability [refer (a) below]	Level 2	-	0.46

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

A. Valuation process and technique used to determine fair value

- (a) The Group has entered into forward contracts to manage its exposure to fluctuations in foreign exchange rates. These financial exposures are managed in accordance with the Groups's risk management policies and procedures. Fair value of derivative financial instruments are determined using valuation techniques based on information derived from observable market data.
- (b) In order to arrive at the fair value of deferred consideration as at 31 March 2020, the Group obtained independent valuations. The technique used by the valuer was Option Pricing Method.
- (c) The fair value of investments in quoted bonds is based on the current bid price of respective investment as at the balance sheet date.

B. Significant unobservable inputs used in Level 3 fair values and sensitivity of the closing values as at end of reporting period to such inputs is as below :

(All amounts in ₹ in lakh unless otherwise stated)

Description	As at 31 March 2020
Impact on fair value if change in volatility	
- Impact due to increase of 2.00 %	30.81
- Impact due to decrease of 2.00 %	(30.73)
Impact on fair value if change in weighted average cost of capital	
- Impact due to increase of 1.00 %	(12.83)
- Impact due to decrease of 1.00 %	13.20
Impact on fair value if change in forecasted EBITDA	
- Impact due to increase of 5.00 %	109.81
- Impact due to decrease of 5.00 %	(98.62)

C. Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended 31 March 2021 and 31 March 2020:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Deferred consideration

As at 31 March 2020	5,846.36
Payment made on account of investment in Sidwal	(4,873.74)
Upon settlement, gain recognised in statement of profit and loss on account of fair value changes	(554.82)
Financial liabilities subsequently measured and recognised at amortised cost	(417.80)
As at 31 March 2021	-

AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)**
(iii) Fair value of instruments measured at amortised cost

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	Level	31 March 2021		31 March 2020	
		Carrying value	Fair value	Carrying value	Fair value
Financial assets					
Loans	Level 3	1,022.69	1,051.55	1,064.15	1,074.83
Other financial assets	Level 3	10,566.50	10,566.50	364.86	364.86
Total financial assets		11,589.19	11,618.05	1,429.01	1,439.69
Financial liabilities					
Borrowings	Level 3	20,173.60	20,182.86	18,643.88	18,634.75
Lease liabilities	Level 3	1,437.84	1,676.48	1,536.74	13,611.01
Total financial liabilities		21,611.44	21,859.35	20,180.62	32,245.76

The management assessed that cash and cash equivalents, other bank balances, trade receivables, current loans, other current financial assets, trade payables, short term borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate receivables are evaluated by the Group based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors.
- (ii) The fair values of the Group's borrowings, fixed interest-bearing receivables and lease liabilities are determined by applying discounted cash flows ('DCF') method, ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own nonperformance risk as at 31 March 2021 was assessed to be insignificant.
- (iii) All the other long term facilities availed by the Group are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Group's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Group. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

ii) Risk management

The Group's activities expose it to market risk, liquidity risk and credit risk. The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term and short-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors

The Group's risk management is carried out by a central treasury department under policies approved by the board of directors. The board of directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Group's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans and receivables carried at amortised cost, and
- deposits with banks

a) Credit risk management

The Group assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the Group, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

- A: Low
- B: Medium
- C: High

B: Medium	Trade receivables	79.70	103.76
C: High	Trade receivables	541.41	542.10
	Loans	12.58	-

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

The Group closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Group assesses increase in credit risk on an ongoing basis for amounts receivable that become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses
Trade receivables

- (i) The Group recognises lifetime expected credit losses on trade receivables using a simplified approach, wherein Group has defined percentage of provision by analysing historical trend of default and such provision percentage determined have been considered to recognise life time expected credit losses on trade receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for).

Impact of COVID-19

In addition to the historical pattern of credit loss, the Group has considered the likelihood of increased credit risk and consequential default considering emerging situations due to COVID-19. This assessment is not based on any mathematical model but an assessment considering the nature of verticals, impact immediately seen in the demand outlook of these verticals and the financial strength of the customers in respect of whom amounts are receivable. The Group closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case.

Less: utilisation/reversal of allowances	(53.27)
Add: Creation of allowance	28.52
Loss allowance on 31 March 2021	621.11

Other financial assets measured at amortised cost

The Group provides for expected credit losses on loans and advances by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Group can draw to apply consistently to entire population. For such financial assets, the Group's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Group does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

a) Financing arrangements

The Group had access to the following undrawn borrowing facilities at the end of the reporting period:

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021	31 March 2020
- Expiring within one year (cash credit and other facilities)	44,663.44	40,549.80
- Expiring beyond one year (bank loans)	2,848.00	-
	47,511.44	40,549.80

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice.

b) Maturities of financial liabilities

The tables below analyse the Group's financial liabilities into relevant maturity based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

* Holding all other variables constant

b) Interest rate risk

i) Liabilities

The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2021, the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Group's investments in fixed deposits all pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Group to interest rate risk:

(All amounts in ₹ in lakh unless otherwise stated)

* Holding all other variables constant

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

ii) Assets

The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

Exposure

The Group's exposure to price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income. To manage the price risk arising from investments, the Group diversifies its portfolio of assets.

Sensitivity

The table below summarises the impact of increases/decreases of the index on the Group's equity and other comprehensive income for the period :

Impact on other comprehensive income before tax

(All amounts in ₹ in lakh unless otherwise stated)

Particulars	31 March 2021
Quoted bonds	
Value per bond - increase by 50 bps	54.04
Value per bond - decrease by 50 bps	(54.04)

D) Other risk- Impact of COVID-19

In March 2020, World Health Organisation (WHO) had declared the outbreak of Novel Coronavirus "Covid-19" as a pandemic. Complying with the directives of Government, the plant, operating locations and offices of the Group had been under lock-down for few months, resulting thereto, the operations for the year have been impacted. Post lockdown, the Group has gradually resumed its manufacturing operations to normal with limited workforce and disrupted supply chain. However, the recent second wave of Covid-19 has resulted in re-imposition of partial lockdowns/restrictions in various states, which might continue to impact the Group's performance.

The Group has taken into account all the possible impacts of COVID-19 including the possible impacts of second wave in preparation of these consolidated financial statements, including but not limited to its assessment of liquidity and going concern assumption, recoverable values of its financial and non-financial assets, impact on revenue and cost, investments, goodwill and intangible assets with indefinite useful lives. The Group has carried out this assessment based on available internal and external sources of information upto the date of approval of these consolidated financial statements and believes that the impact of COVID-19 is not material to these consolidated financial statements and expects to recover the carrying amount of its assets. The impact of COVID-19 on the consolidated financial statements may differ from that estimated as at the date of approval of these consolidated financial statements owing to the nature and duration of COVID-19.

54. CAPITAL MANAGEMENT

The Group's capital management objectives are

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

The Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

55. BUSINESS COMBINATIONS

Acquisition of Sidwal Refrigeration Industries Private Limited

a. Summary of acquisition

The Holding Company had made an investment for acquisition of 36,000 equity shares of Sidwal Refrigeration Industries Private Limited ("Sidwal") on 02 May 2019 which represented 80% of the total share capital of Sidwal, by investing ₹ 15,172.89 lakh as initial sale shares consideration out of which ₹ 14,652.18 lakh was paid at the date of acquisition and ₹ 520.71 lakh was recognised as initial deferred consideration payable. The Holding Company had also agreed to acquire the remaining 20% of total share capital of Sidwal within twenty five months from the acquisition of initial shares and accordingly, recognised ₹ 6,026.55 as consideration payable for acquisition of remaining shares. During the previous year, the Holding Company had paid ₹ 536.88 lakh to Sidwal against portion of initial deferred consideration.

This acquisition enabled the Group to enter into the business of manufacturing of HVAC (Heating, Ventilation and Air Conditioning) products for – Indian Railways, Delhi Metro Rail Corporation (DMRC) and others.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

(All amounts in ₹ in lakh unless otherwise stated)

Other current liabilities	(384.78)
Net assets identifiable acquired (B)	14,224.38
Goodwill (A-B)	6,975.06

Goodwill here represents residual asset value attributable to unidentified intangible assets acquired by acquirer. Goodwill to the extent of ₹ 3,382.86 was deductible for tax purposes for the financial year ending 31 March 20. Pursuant to a recent tax law amendment, the tax amortisable goodwill has become non-tax amortisable from financial year ending 31 March 2021. The amended law states that goodwill of a business or profession will not be considered as a depreciable asset and no depreciation on goodwill will be allowed from 01 April 2020. The same did not have deferred tax implications.

b. Consideration transferred

The acquisition of ₹ 14,652.18 lakh was settled in cash. There were no legal costs incurred upon acquisition by the Company.

c. Measurement of fair value of identifiable net assets

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence.

Intangible assets are fair valued based on the relief-from-royalty method and multi-period excess earnings methods. The relief-from-royalty method considers the discounted estimated royalty payments that are expected to be avoided as a result of the patents or trademarks being owned. The multi-period excess earnings method considers the present value of net cash flows expected to be generated by the customer relationships, by excluding any cash flows related to contributory assets.

Raw materials are fair valued using the replacement cost method of the cost approach. Finished goods and work-in-progress are valued using the comparative sales method of the market approach which uses the actual or expected selling prices of finished goods as the base amount.

The fair value of the trade and other receivables acquired as part of the business combination amounted to ₹ 3,984.85 lakh, with a gross contractual amount of ₹ 3,984.85 lakh. As of the acquisition date, the Group's best estimate of the contractual cash flow not expected to be collected amounted to Nil.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2021 (Contd.)

d. Revenue and profit contribution

The acquired business contributed revenue of ₹ 22,597.85 lakh and profit of ₹ 3,758.07 lakh to the group for the period 31 March 2020.

If the acquisitions had occurred on 01 April 2019, consolidated pro-forma revenue and profit for the year ended 31 March 2020 would have been ₹ 397,582.29 lakh and ₹ 16,123.53 lakh respectively.

56. REVENUE FROM CONTRACTS WITH CUSTOMERS

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

(a) Disaggregation of revenue

The Company has performed a disaggregated analysis of revenues considering the nature, amount, timing and uncertainty of revenues. This includes disclosure of revenues by geography and timing of recognition.
