India Inc needs to respond to reform measures: CEA

PEERZADA ABRAR
Bengaluru, 30 October

K V SUBRAMANIAN, chief economic adviser

Chief Economic Adviser K V Subramanian said on Friday that India Inc needed to respond to various reform measures, including in the labour sector, undertaken by the government to accelerate the growth impacted by the Covid-19 pandemic.

"India Inc needs to actually respond. We have enabled the labour laws and the reforms, etc. I think that sentiment I would really like a lot of you to reflect," said Subramanian, at a virtual event organised by industry body FICCI.

"There are enough, enough opportunities for ethical wealth creation to be done in the Indian context. This is something that I would like to see widespread in India Inc."

He said India was the only country that utilised the opportunity provided by the current crisis to unleash the second generation reforms that are focused on factor markets. He said that looking at the reforms that have happened since 1991, most of those reforms were primarily focused on product markets. These include the reforms that were launched by the Atal Bihari Vajpayee government as well.

CENTRE TO PROVIDE PLI SCHEME TO MORE SECTORS: NITI AAYOG

The government will introduce the production-linked incentive (PLI) scheme for more sectors to boost domestic manufacturing, NITI Aayog Vice-Chairman Rajiv Kumar said on Friday. "We will, while attracting FDI, also repose our faith and trust in those who have already invested in India," he said. And we want to recognise them by giving much better infra. "We have brought out what is called PLI scheme which will be valid for about 9-10 sectors very soon." PTI

"There are enough, enough opportunities for ethical wealth creation to be done in the Indian context. This is something that I would like to see widespread in India Inc"

But now looking at the reforms that have been launched together with some of the previous ones, like IBC (Insolvency and Bankruptcy Code), he said they are basically an attempt to reform the capital. He said there are labour reforms and the cost of labour is an important factor of production. He said agriculture is another important factor in the primary sector.

"When you take these into account, there is a very important theme of Aatmanirbhar Bharat," said Subramanian. "This is primarily about relying on the private sector enterprise and on the efficiency that the private sector brings."

He said the pandemic now illustrates that factories can be set up possibly in hinterlands and can be managed virtually.

DLF's Q2 net falls 49% to ₹228 crore

ARNAB DUTTA
New Delhi, 30 October

Real estate major DLF reported a 49 per cent drop in its net profit for the July-September quarter. The Delhi-based firm posted a net profit of ₹227.8 crore — down from ₹443.4 crore in the corresponding quarter last year.

Disruptions following the pandemic impacted its top line. Consolidated revenue from operations declined 6 per cent year-on-year (YoY) to ₹1,609.8 crore, from ₹1,715.5 crore.

The steep drop in its profit can be attributed to marginal reduction in costs of land, con-

structed properties and development rights, and higher outgo against exceptional items. Its performance, however, reflects better when compared to the previous quarter.

In April-June, it had posted ₹72-crore net loss and its oper-

FINANCIAL PERFORMANCE

	Jul-Sep, 2019	Jul-Sep, 2020	(% chg)
Operating revenue	1,715.5	1,609.8	(6.2)
Profit after tax	443.4	227.7	(48.6)

lead to overall recovery". New sales bookings for the quarter rose to ₹853 crore, compared to ₹152 crore in the previous quarter. "We are getting ready for a new build-out cycle and have identified a strong pipeline to be launched in various segments and geographies over the next few years," it said.

On a standalone basis, DLF's financial performance in the quarter remained poor. While total sales plunged 48.5 per cent, net profit nosedived. Standalone profit after tax stood at ₹482 crore or 75.5 per cent lower than ₹1,967 crore it had reported in the same quarter last year.

Strides: Will set up 800-mn capacity Covid vaccine suite

SAMREEN AHMAD
Bengaluru, 30 October

Eying the vaccine opportunity created by the Covid-19 pandemic, Strides Pharma Science is in the process of setting up a vaccine suite in Bengaluru, said a top company official. The vaccine lines are a part of the \$40-million investment the company had committed for its associate Stelis Biopharma.

"Existing vaccine capacities globally are not sufficient to cater to the entire global population and there is going to be high demand," said R Ananthanarayanan, managing director and chief executive officer of the Bengaluru-headquartered firm.

Strides is in discussions with all the global players who are in advanced stages of Covid-19 vaccine trials for manufacturing opportunity, he said. "While we will manufacture and supply for the global requirement, we would like to retain the ability to supply in the India market, too."

The vaccine suite will have the capacity to manufacture 500 million doses of liquid vaccine and 300 million doses of lyophilised vaccines annually.

While equipment installations at the unit will be completed by December end, the suite will go full stream from January.

The company is also in the process of getting clinical approval for its antiviral Favipiravir drug to be supplied to regulated global markets.

TVS raises capital expenditure to ₹500 cr for FY21

T NARASIMHAN
Chennai, 30 October

TVS Motor has said that capital expenditure (capex) for fiscal year 2021 would be around ₹500 crore compared to ₹300 crore projected earlier. The proposed capex includes new product development and technology, among others.

TVS will also be supporting Norton's proposed capex. The UK brand was acquired by the company earlier this year. TVS will also support its credit arm TVS Credit.

Meanwhile, the company's earnings before interest, taxes, depreciation and amortisation (Ebitda) during the second quarter rose to 9.3 per cent from 8.8 per cent in the same quarter last year.

K N Radhakrishnan, director and chief executive officer (CEO), TVS Motor, said the capex includes development of new products and technologies, marketing and international market expansion.

He added that TVS would grow faster than the industry in both domestic and export markets with the existing product portfolio and new product line ups.

"No projects are delayed," he said. While the management did not comment on upcoming launches, sources said one product which is on cards is a new 200cc motorcycle under the 'Zeppelin' brand. With this, the company is attempting to capture a larger share of the global and domestic markets.

The company is also planning to support its recently-acquired Britain's legacy brand Norton by investing ₹40 crore for its capex. It will also pump in around ₹50 crore into TVS Credit Service, its lending arm, to strengthen capital adequacy ratio (CAR).
